DR. JOHNSTON.

Member of the Royal College of Surgeons London graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Par-is, Philadelphia.and elsewhere, has effected some of the most astonishing cures that we reever known; Many troubled with ringing in the cars and head when asleep, great nervousness, being alarneed at sudden sounds, and bashfuness, with frequent blushing, attended sometimes with derangen ent of mind, were cured immediately. A CERTAIN DISEASE.

When the misguided and imprudent votary of densure finds he has imbibed the seeds of his painful disease, it too often happens that anili-tim-ed sense of shame, or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delay-ing till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat diseased nose, nortural pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head face and extremitics, progressing with pidity, till at last the in inghtfulra. palate of the month or the bones of the nose fall in. and the victim of this awfuldisease becomes a horrid object of commisseration, till death puts a period to his dreadful suf scration, thi death puts a period to his dreadint suf-ferings, by sending him to "that bourne from whence no traveller returns." To such therefore Dr. Johnston pledgeshimself to preserve the most inviolable secresy; and, from his extensive practice in the first Hospitals of Europe and America, he can confidently recommend a safe and speedy cure to the unfortunate victim of this horrid dis-ease. It is a melancholy fact, that thousands fall victims to this dreadful complaint, owing to the unskilfulness of ignorant pretenders, who, by the use to come forward and mike settlement, as it is ab solutely necessary to his business that he should to and either send the unfortunate sufferer to an untimely grave, or else make the residue of life mis-TARE PARTICULAR NOTICE. HOUSTON'S PATENT SKID SCALES.

THESE Scales, for which the inventor has obtained Letters Patent from the United States Sovernment, are intended to supersede the present cumbrous and objectionable apparatus used for weighing cylindrical packages, such as barrels tierces, d.c., containing articles usually sold by weight. Also for weighing bales of cotton, hay, or other similar packages. The advantage claimed for them over the ordinary Scales in use, are that no hoisting is required, as the article to be weighed

is immediately suspended. by its own gravity, and

Dr. J. addresses all those who have injured them-selves by private and improper indulgences. These are some of the sad and melanetoly ef-fects, produced by early habits of youth, viz:-Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Pow-er, Palpitation of the Heart, Dyspepsy. Ideas, Society, Self Distrust, Love of Solitude. Timidity, &c .. are some of the evils produced. Thousands of percons of allages, can now judge what is the cause of their declining health. JOHNSTON'S INVIGORATING REME-DY FOR ORGANIC WEAKNESS. By this great and important WEAKNESS.

By this great and important remedy weakness of the organs are speedily cured and full vigor restored. Thousands of the most Nervous and Debilitated individuals who had lost all hope, have been imme-

diately relieved. All impediments to MARRIAGE Physical or MentalDisqualifications, Nervous Ir-itability Tremblings and Weakness, or exhaustion of the most fearful kind, speedily cured by Dr Johnston.

Young men who have injured themselves 1 y a certain practice indulged in when alone-a habit frequently learned from evil con paniens, or at school, the effects of which are nightly feit, even when asleep, and if not cured, renders marsinge impossible and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, and the darling of his parents, should be country, and the daring of his parents, should be snatched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature, and indulging in a certain secret habit.— Such persons, before contemplating

MARRIAGE.

Should reflect that a sound mind and body are the most necessary requisites to promote connul ial happiness. Indeed, without these, the journey through life becomes a weary pilgrininge: the pros pect hourly darkens to the view; the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another be comes blighted with our own.
