Judge,
Many Medicines offered for sale presecompanied by doubtful certificates, (their chief virtue,) and claim to be universal remedies, curing all

maladies - a burlesque on common sense. As the discoverer of this Sait solemnly protests against having it placed in the entegory of frauds and im-positions, he has resolved that it shall go forth to the world like the pure gold dollar, with no other passport than its own true value. If the public find it genuine they will receive it—if spurious, they will reject and condemn it. Instead a paracea for all ills, it has control over out one ill—has but die aim stid secomplishes but one thing, to WIL: SPROUSS INFLAMMATORY DISEASE-Whalever be its form or locality - whether in the head, threat

hen the discoverer, after a long series of laborius and costly experiments, becausefully confirmed in his conviction that the Antiphlogistic Salt, h he now has the happiness to present to the American public, was a PERFECT SUBSTITUTE For Blood-letting, Leeches and Blisters, his mind

was so agitated that he could not sleep for many nights The cause of his agitation was the stri-king fact that the manner of its operation, like that of the virus in v ccination, could not be satisfactorily explained upon any known principle. How in that toay, it so effectually subdues inflammatory discuses, and no othero, was at first wholly inexpi cable-but, on further experiment, it was proved that by its power over the veins, arteries and ginnes, it equalizes the fluids of the body, the wantof an equilibrium in which, is the sole cause of inflammation. It exerts, like the vaccine matter, an extraordinary influence over the circulation—re-sulting in a gradual decline of inflammation as in dicated by the pulse, which soon resumes its nat-ural state, as the heat and pain disappear. Such s its potency, that like the virus just mentioned it requires what metely adheres to the point of a ire system-but must be instantly used to prevent osition and secure its full virtue. Three quilis in acute, and two in chronic discase, every 24 hours, till the heat and fever have subsided and a perfect cure effected. When it takes the place of Leeches. Stimulating Ointments and Blisters in Local Inflormmation, as Brain Fever, Croup. Tooth-

ache Pleurisy, &c., its mode of administration is two-fold (See directions for dissorting, etc.)

The peculiar excellence of this Sait is that without the useless loss of blood and strength, it effectually cures Inflammatory Diseases (no others) by producing an equilibrium of all the fluids in the head of the consequent uninterrupted circular. the body and a consequent uninterrupted circulabalanced fluids assume, and many not here men-tioned, that have more or less fever or pain, are as erfectly subdued by the Antiphlogistic Sult, as
