The company present was numerous, the exercises of the occasion varied and attractive, the articles on exhibition highly creditable to the contributors, and the receipts to the society sufficiently abundant to testify that the interest in the association by the people of the county is most decidedly on the increase. We were much pleased to see so numerous an attendance of a "Roman senator."—

In looking through the Farmers' and Mechanic's Department we were struck with the superior quality of our agricultural produce and the finish and elegance of many of the specimens of home manufac ture. We noticed a fine set of Harsame establishment a splendid Saddle with cles recrived well deserved premiums In the mineral department we found an extremely rich specimen of Copper ore from the Watson mine in Chatham, exhibited by Mr. G. W. Geo. It was by far the richest specimen of ore on exhition, but was un-accountably overlooked by the mineral

nittee in the award of premiums. Mr. Gee also had a number of excellent regetable specimens from his garden, Egg Fixed Hall possessed an unusual array

of fancy and useful contributions, princifrom the ladies, embroideries, household fabrics, baby-c othes, pet-(sometimes known as bachelors' aversions) fancy neetle-work of all descriptions, drawings, paintings in oil and water colors, artificial fruit and flowers, &c &c.

A basket of artificial fruit made by Miss Hannah Kelly seemed to attract general on and elicit much admiration from noiseurs in such matters. The fruit was constructed of rosin, so naturally, de-licately and beautifully colored as actualhave deceived many persons, who imned the lemons, oranges, peaches, pes and plums to be genuine fruit. he drawings and paintings by Miss El-

One splendid quilt, ma e by ise Flora McNeill, was purchased by Mr. H. M. THE TRI-WEEKLY COMMERCIAL never finish the enumeration of interesting specimens should we attempt to describe them all, and we must close our list.

> On Thursday there were six military companies in attendance, forming quite a gallant escort for the young ladies ("girls," says somebody, who forgets that yo ng A. merica flourishes as much in crinoline as in traws rs) of the High School, who marched in procession to the Fair grounds to hear Mr. McRae's address. On Friday the Don Quixotes, under the command of a second edition of the veritable knight of Salamanca, drew a large concourse to the fair grounds to witness a dress parade and marriage ceremony a la burles que. At roll call much surprise was maniifested that so many of our grave and reverend seniors of the community should be found in those grotesque ranks.

The Don's remarks prior to the perform ance of the nuptial ceremony were distinguisned for all the weight, dignity and auteness which characterized his puissant ancestor, and were mest pertinent, practi-

cal and poetical. Not an accident of any kind nor a troublesome occurrence of any character marred the pleasantness of the occasion. May the Society enjoy many such anniversaries -N Carolinian.

More gas was procured-5,000 feet .-Appeared to make baloon heavier .you assert the prerogative of your sex, Hudson gas is made on a new principal, and can be poured from jugs like molasses. A portion of the people became impatient, and informed the Professor that he was a "foo-foo." Professor talked back. This exasperated the crowd Professor seeing exasperation, fainted away, and had to be carried to the Hudson House. Mr. Myers, then undertook to make an ascension on his own hook. Myers also failed; wheretipon people informed Myers that he too was a "too-foo." Myers thinking this was personal, got out off the ropes, tolded up the baloon and returned to the Hudson House. At the Hudson House the fend was renewed. John Best allowed that 50 LOTS IN TIMMONSVILLE; &c. Marion "ought to be chawed up for cat meat." Marion retorted, and offered to fight Best for \$25. 'Thus 'terminated the secon! great balloon ascension in Hudson. To supply Marion so used up the gas at headquarters that half the city last night had to go back to oil lamps and tallow candles, During the row the balloon was badly torn. Marion is a benefactor. He has given Hudson the first taste of 'life' that it has experienced in fourteen years.

DR. JOHNSTON. Member of the Royal College of Surgeons, London graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Par-is, Philadelphia, and elsewhere, has effected some of the most astonishing cures that wereever known. Many troubled with ringing in the ears and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfuiness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

A CERTAIN DISEASE.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that anill-timed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delay-ing till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat diseased nose, noctural pains in the head and limbs, dimness of sight, deafness, nodes on the shin bones and arms, blotches on the head face and extremities, progressing with frightful rascration, till death puts a period to his dreadful suf ferings, by sending him to "that bourne from whence no traveller returns." To such therefore Dr. Johnston piedges himself to preserve the most inviolable secresy; and, from his extensive prac-tice in the first Hospitals of Europe and America, hecan confidently recommend safe and speedy cure to the unfortunate victim or this horrid disease. It is a melancholy fact, that thousands fall victims to this dreadful complaint, owing to the unskilfulness of ignorant pretenders, who, by the use of that deadly poison, mercury, ruin the constitution, and either send the unfortunate sufferer to an untimely grave, or else make the residue of life mis-
