DR. MORSE'S INDIAN ROOT PILLS.

DR. WORSE, the inventor of MOKSE'S IN-DIAN ROOT PILLS, has spent the greater part of his life is traveling, having visited Europe, Asia, and Africa as well as North America-has spent three years among the Indians of our Wea-tern country-ji was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all discases arise from IM PURITY OF THE BLOOD-that our strength head his demonded upon this our strength, health and life depended upon this vital floid.

When the various passages become clogged, and do not act in perfect harmony with the different functions of the body, the blood loses its action, becomes thick corrupted and diseased; flues caus-ing all pains sickness and distress of every same; our strength is exhausted, our health we are de-prived of, and if nature is not assisted in throwing off the stagmant humors, the blood will become choked and cense to act and thus our fight of life will forever be blown out. How important, then will forever be blown out. How important, then that we should keep the various passages of the body free and open. And how pleasent to us that we have it in our power to put a medicine in your reach, namely, Marse's Indian Root Pills, manu-batured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudo-rific, which opens the ports of the skin, and as ties of the Pills whill engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bow

From the above, it is shown that Dr. Morse's ndian Root Pills not only enter the stomach, bet become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly heal-thy; consequentlyall sickness and pain is driven from the system, fir they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts and which will open the natural passages for the disease to be easy out; hence, a hirge quantity of food and other matter is lodged, and the stomach and intestines are literally overflewing with the corrupted mass; thus undergoing disagreeable for-mentation, constantly mixing with the blood, which throws the corru ded matter through every vein and artery, until life is taken from the body vein and artery, until the is taken for m the body by disease. Dr. Morse's PILLS have added to themselves victory, upon victory. by restoring millions of the sick to blooming health and happi ness. Yes, thousands who have been tacked or tormented with sickness, pain and anguish, and whose feeble finness have been scorched by the burning elements of raging fever, and who have been brought, as it ware, within a step of the si-lent grave, now stand reader to testify that they

Passengers will find meals ready on the arriva of every train, with good Porters to attend to them and check their baggage to any point which they may desire to have it checked.

The House is within twenty steps of the Ticket Office, where passergers can obtain their Tickets without any trouble, and be in good time after getting their dinner or supper, as there is consid-

erable baggage to change. Passengers will please bear in mind that there is a house in front of mine, rented by the other house to keep off opposition, which is called the New Weldon Hotel, but gentlemen and ladies will please recollect that this house has been built only some four, five or six years to my knowledge, and has been occupied by three different persons during that time, and has a new Proprietor at pres ent. This Old Weldon Hotel, has been openfor two months, and has not had a crowd but once since, but it is now increasing fast in popular fa-vor, as passengers find that the meals suit them and are always ready on the table when the trains arrive from any point. There are red bills printed by the other house with no name attached to them, evidently designed to injure me and my house, but it cannot succeed, netwithstanding the Pro-prietor and his men at the ears are particular in informing passengers that the house to the right is the best, but parsengers find that the house on the hill is not only the best, but that its table in more abundantly supplied with the best, and that the waiters are more polite and attentive to the wants of those who favor it with their presence. Please beer in mind that my honse is the newly opened EXCHANGE HOTEL on the hill, twen-
