in medicine in the city of New York, having had occasion to witness the practice of Drs LeBrun & Dufton, in discuses of the ear and eye, laving aside all professional jealousy and prejudice, free ly admit that the course pursued by them in treating diseases of these delicate organs. From the unparalled souccess which has attended it, is well werthy the attention of our professional brothren throughout the United States. Their system of treating diseases of the middle and internal ear, by the use of "medicated unparts" particularly in by the use of "medicated vapors," particularly in chronic and complicated cases, forms a new crain the practice of annal surgary, and 6 is up a void which has long been felt by the generous practioner. Such ar Nervous Trembling, Loss of Memoryd Loss of Power. General Weakness, Dimness of Vision, with pseuliar spots appearing before the eyes, Loss of Sight, Waketeiness, Dyspepsia. Liver Disease, Eruptisns upon the face, Pain in the back and head, Femsle irregularities and all improper discharges from both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case recovery as certain; and in a shorter time than a permanent cure can be effected by any other treatment even all r the disease has baffled the skill of eminent physician and resisted all their means of cure. The medicines are pleasant without odor, cure. The medicines are pleasant without odor, causing no sickness, and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death, many thousands, who, in the last stages of the above mentioned disease had been given up to die by their physi cians, which warrants me in promising to the afficied, who may place themselves under my care a perfect and most speedy cure. Secret diseases are the greatest enemies to health, us they are the first cause of consumption, Secoula and many other diseases, and should be a terror to the human family, as a permanent cure is scarcely ever effected, a majority of the cases falling into, fine hands of incompetent persons, who not noty all to care the diseases but ruin the constitution filing the system with mercury, which with the disease, hastens the sufferer into rapid consump-

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are been with feeble constitutions, and the current of ife corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eraptions and other affections of the skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

SELF ABUSE is another formidable enemy to

health, for nothing else in the dread catalogue of nun an diseases causes so destructive a drain up on the system drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the Nervous System, rapidly wastes away the energies of life, causes mental derungement, prevents the proper develop-ment of the system, disqualities for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and wind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate vic tims of Self-Abuse that a permanent and speedy cure, can be effected, and with the abandonment of ruinous practices, my patients can be restored robust, vig rous health.

The offlicted are cautioned against the use of

enares in the columns of the public prints to catch and rob the unwary sufferers, that millions have their constitutions rulned by the vie compounds of quack doctors or the equally polsonous nos-trums vended as "Patent Medicines."
