Many Medicines offered for sale are accompanied by doubtful certificates, (their chici virtue,) and claim to be universal remedica, cuting all maindies—a burlesque on common sense. As the discoverer of this Salt sulemnly protests against having it placed in the category of frauds and impositions, he has resolved that it shall go forth to the world like the pure gold dollar, with no other puspert than its own true value. If the public find it genuine they will receive it—if spurious, they will reject and condemn it. Instead a pancaca for all tile, it has control over out one ill—has but one aim and accomplishes but one thing, to will repose a inflammatory disease—whatever be its form or locality—whether in the head, throat chest, abdomen, extremities, or skin.

A hen the discoverer, after a long series of laborious and costly experiments, became fully confirmed in his conviction that the Antiphiogistic Salt, which he now has the happiness to present to the American public, was a property of the property of the applicant to the American public, was a property of the property of the american public, was a property of the property of the american public was a property of the property of the public was a property of the property of the public was a property of the public of the public was a property of the public was a property of the public was a property of the public of the public was a public of the public of the public was a public of the public was a public of the p

How t way, it so effectually subdues inflammatory ce, and no othero, was at first wholly inexplibut, on further experiment, it was proved by its power over the veins, arieries and it equalizes the fluids of the body, the wantot dibrium in which, is the sole cause of ination. It exerts, like the vaccine mat er. as n equilibrium in which, is the sole cause of inamusation. It exects, like the vaccine mat er. an
atraordinary influence over the circulation—resiting in a gradual decline of inflammation as in
ileated by the pulse, which soon resumes its nat
real state, as the heat and pain disappear. Such
a its potency, that like the virus just mentioned
trequires what merely adheres to the point of a
uill dipped into a solution of it, to affect the enre system—but must be instantly use at to prevent
scomposition and secure its full virtue. Three
mills in acute, and two in chronic disease, every
thours, till the heat and fever have subsided and
perfect cure effected. When it takes the place of
seches, Stimulating Ointments and Blisters in
ocal inflammation, as Brain Fever, Croup Toothche Pleurisy, &c., its mode of administration is
wo-fold. (See directions for dissaving, etc.)

The peculiar excellence of this Sail is that
without the useless loss of blood and strength, it
flectually cures inflammatory Diseases (no othre) by producing an equilibrium of all the fluids in
the body and a consequent unintersupted circulaion. The fullowing different forms which the unalance of fluids assume, and many not here menlance of fluids assume, and many not here

EAR AND EYE.

Dr. LEBRUN & DIFFON, OCULISTS AND AURISTS.

DR LE BRUN offers to those suffering from desiness, his infallible aural remedies, which have been successful in nearly three thousand scaes of confirmed desiness! These remedies have been pronounced by Drs. Khramer, of Berlin, and Deleau of Paris, and Curtis Pin-her of
London, as the most wonderful ever applied for
disease of the internal and middle ear. They
compaise differ at courses for the various diseases that affect the external and middle ear. It the disease is confined to the external ear, their effects are apparent on the fith or sixth day. Dr. La Brun starrants a cure in every case, when the ear is perfect in its formation. He has eighteen certificates from those who have been deaf from infancy, whose hearing is now completely restorted, and they are now enabled to learn the language! Over twenty-seven hundred cases of Over twenty-seven hundred cases of Certificates to that effect may be seen on appli-

TE-TIMONY.— We the undersigned, practitioners in medicine in the city of New York, having had eccasion to witness the practice of Drs LeBrun & Dufton, in diseases of the ar and eye. laving aside all professional jealousy and prejudice, free ly admit that the course pursued by them in treating diseases of these delicate organs, from the unparalled souccess which has attended it, is well weithy the attention of our professional brethren throughout the United States. Their system of treating discovers of the middle and internal ear, by the use of "med-cated vapors," particularly in chronic und complicated cases, forms a new era in the practice of unral surgary, and fills up a void which has long been felt by the generous practitioner. In diseases of the eye, they seldnm require to resort to an operation. As skillful aurists and oculists, and enthusiastically devoted to their

profession, we cordially recommend them to such as may require their aid.

The medicines are pleasant without odor, causing no sickness, and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death, many thousands, who, in the last stages of the above mentioned disease had been given up to die by their physicians, which warrants me in promising to the affleted, who may place themselves under my care a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of consumption, Scrotula and many other discuses, and should be a terror to the human family, as a permanent cure is scarcely ever effected, a majority of the cases falling into, the hands of incompetent persons, who not noly ail to cure the diseases but ruin the constitution filing the system with mercury, which with the disease, hastens the sufferer into rapid consump-

With the fullest confidence I assure the unfortunate victims of Self-Abuse that a permanent and speedy cure, can be effected, and with the abandonment of ruinous practices, my patients can be restored robust, vigorous health.

The afflicted are cautioned against the use of

Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers, that millions has their constitutions ruined by the vi e compounds of quack doctors or the equally poisonous nos trums vended as "Patent Medicines." Member of the Royal College of Surgeons London graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Par-is, Philadelphia and elsewhere, has effected some of the most astoniehing cures that were ever known. Many troubled with ringing in the cars and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfuness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

A CERTAIN DISEASE.

When the misguided and imprudent votary of pleasure finds he has imblied the schis of this painful disease, it too often happens that anill-timd sense of shame, or dread of discovery. deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat diseased nose, noctural pains in the head and limbs, dimness of sight, deafners, nodes on the shin bones and arms, blotches on the head. ace and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the awfuldisease becomes a horrid object of commis scration till death puts a period to his dreadful suf ferings, by sending him to "that bourne from whence no traveller returns." To such therefore Dr. Johnston pledges himself to preserve the most inviolable secresy; and, from his extensive practice in the first Hospitals of Europe and America. he can confidently recommend - safe and speedy cure to the unfortunate victim on this horrid dis case. It is a melancholy fact, that thousands fall victims to this dreadful complaint, owing to the unskilfulness of ignorant pretenders, who, by the use of that deadly poison, mercury, ruin the constitu-tion, and either send the unfortunate sufferer to an untimely grave, or else make the residue of life mis

DR: MORSE'S
INDIAN ROOT PILLS.

DR. MORSE, the inventor of MORSE'S INDIAN ROOT PILLS, has spent the greater para
of his life is traveling, laving visited Europe,
Asia, and Africa as well as North America-has
spent three years among the Indians of tur Western country—it was in this way that the Indian
Root Pills were first discovered. Dr. Moree was
the first man to establish the fact that all diseases
arise from IMPURITY OF THE BLOOD—that
our strength, health and life depended upon this our strength, health and life depended upon this

When the various passages become clogged, at d do not act in perfect harmony with the different functions of the body, the blood locks its action, becomes thick corrupted and diseased; thus cansing all pains sickness and distress of every neme; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwin off the stagnant homors, the blood will become choked and cease to act and thus our light of life will forever be blown out. How important, then that we should keep the various passages of the bod free and open. And how pleasant to us that bod" free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, no mely, Morre's Indian Root Pills, mannfactured from plants and roots which green around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which there Pills are made is a buddriffe, which op as the porce of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which corruption within. The second is a plant which is an Expectorant, that opens and unclose the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other bemore from the lungs, by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large, amounts of impurity from the blood, which is then thrown out beautifully by the writing or water passage, and which could not urinary or water passage, and wilch could not have been discharged in any other way. The feurth have reen discharged many other way. The fether is a Cathartic, and accompanies the oil er properties of the Pills while engaged in purifying the blood; the coarser particles of in purity which cannot pass by the other outlets, are thus taken up

and convoyed off in great quantities by the bow From the above, it is snown that Dr. Motse
