The sympathy of this interesting lady made such an impression on the heart-broken husband that he cried to a man, who happened to be passcommenced making love to her, and easily succeeded in winning her affections.

In due time the corpse of the dead wife was placedin the cemetry, and the next day the afflicted husband con-soled himself by taking to his arms the susceptible young lady from Autaun, and the couple are now reveling in the delights of a new honey:moon.

The medicines are pleasant without odor, causing no sickness, and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death, many thousands, who, in the last stages of the above mentione disease had been given up to die by their physi cians, which warrants me in promising to the affleted, who may place themselves under my care a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first eause of consumption, Scrolula and many other discreses, and should be a terror to the human family, as a permanent cure is scarcely ever effected, a majority of the cases falling into, fibe hands of incompetent persons, who not noly all to cure the discases but ruin the constitution. filing the system with mercury, which with the disease, hastens the sufferer into rapid consumpion.

He accordingly read an extract Parker. He accordingly read an extract from one of Mr. Parker's discourses.

Saltpetre Will Explode - This assertion has often been questioned, but by files from South America we perceive that, last month, the British bark Elizabeth, of Liol, loaded with saltpetre, &c., blew up at Iquique, having taken hire from an attempt to smoke the rate out. This settles the question, "Will saltpetre explode ?"-The loss was \$150,000.
