Many Medicines offered for sale are accompanied by doubtful certificates, (their chief virtue,) and claim to be universal remedics, curing all meladics—a bariesque on common sense. As the discoverer of this Salt solemnly protests against having it placed in the category of frauda and impositions, he has resolved that it shall go forth to the world like the pure gold dollar, with no other passport than its own true value. If the public find it genuine they will receive it—if spurious, they will reject and condemn it. Instead a paracea for all ills, it has control overout one ill—has but one tim and accomplishes but one thing, to acea for all ills, it has control overout one ill—has but one dim and accomplishes but one thing, to wit: sundons instantiation disease—whatever belts form or locality—whether in the head, throat chest, abdomen, extremifies, or skin.

When the discoverer, after a long series of laborious and costly experiments, became fully confirmed in his conviction that the Antiphlogistic Salf, which has the Antiphlogistic Salf,

med in his conviction that the Antiphlogistic Salf, which he now has the happiness to present to the American public. Was a PERFECT SUBSTITUTE.

For Blood-letting, Leeches and Blisters, his mind was so agitated that he could not sleep for many nights. The chase of his agitation, was the striking fact that the manner of its operation, like that of the virus in v colnation, could not be satisfactorily explained upon any known principle. How, in what way, it so effectually subdues inflammatory diseases, and no othero, was at first wholly inexplicable—but, on further experiment, it was proved that by its power over the veins, arteries and glands, it equalizes the fluids of litebody, the wantof an equilibrium in which, is the sole cause of inflammation. It exerts, like the vaccine mater. as extraordinary influence over the circulation—refamination. It exerts, like the vaccine mat 21. as extraordinary influence over the circulation—resulting in a gradual decline of inflammation as in dicated by the pulse, which soon resumes its natural state, as the heat and pain disappear. Such is its potency, that like the virus just mentioned it requires what merely adheres to the point of quill dipped into a solution of it, to affect the entire system—but must be instantly used to preven decomposition and secure its full virtue. Three quills in acute, and two in chronic disease, evert quills in acute, and two in chronic disease, every 24 hours, till the heat and fever have subsided and a perfect cure effected. When it takes the place of Leeches, Stipulating Ointments and Blisters in Local Inflamination, as Brain Fever, Croup, Tooth-

ache Pleurisy, &c., its mode of administration is two-fold. (See directions for disseving, etc.)

The peculiar excellence of this Salt is that without the useless loss of blood and strength, it without the useless loss of blood and strength, it effectually cures Inflammatory Diseases (no others) by producing an equilibrium of all the fluids in the body and a consequent uninterrupted circulation. The tollowing different forms which the unbalanced fluids assume, and many not here mentioned, that have more or less fever or pain, are as perfectly subdurd by the Antiphlogistic Salt, as fire is extinguished by wester.

TPersons who have a rendency of blood to the Head and Heart, or lead inactive lives, or breathe the impure air of manufactories and the polsonous tumes of metals and minerals, or live in unhealthy climates, are exposed to a peculiar ritiation of the fuids of the body, which one dose, without interfer

While many nostrum makers victimize the good natured and pill ridden public by ordering from elx to a dozen hoxes or bottles to cure any malady, no matter what, the undersigned is happy in being able to state, that the severest forms of recent Inflammatory Disease are overcome by one Acute Package, and the most obstinate and long standing by one Thronic Package. Although 30 days have not elapsed since this New Medical Agent became partially known to the citizens of Boston and a few neighboring towns, yet such have been the results of its trial that turing the past week, nearly 400 packages were and in this city and orders received by mail and express for 163 Family 347 Chronic, and 385 Acute Packages. During twenty years of practice, I have rescued from the jaws of Death, many thousands, who, in the last stages of the above mentioned disease had been given up to die by their physicians, which warrants me in promising to the affected, who may place themselves under my care

a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of consumption, Scrottala and many other diserses, and should be a terror to the human family, as a permanent cure is scarcely ever effected, a majority of the cases falling into, the hands of incompetent persons, who not noty ail to cure the diseases but ruin the constitution filing the system with mercury, which with the disease, hastens the sufferer into rapid consump-

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon the children, who are been with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions and other affoctions of the skin, Eyes, Throat and Lungs, en-tailing upon them a brief existence of suffering and consigning them to an early grave, SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of

It destroys the Nervous System, rapidly wastes away the energies of life; causes mental derangement, prevents the proper development of the system, disqualities for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and wind, predisposed to consumption and a train of evils more to be dreaded, then death itself. nore to be dreaded than death itself.
