The Baptist Sunday school of Windsor made an excursion on the Str. Bertie to Plymouth Tuesday last. But for the rainy weather they would have had quite a nice time. Come again, friends, when we have good weather. Our people will always give you a hearty welcome. Mr. C. T. Harden, of Windsor, the genial and obliging proprietor of the beautiful Str. Bertie, was in the city on Tuesday.

We acknowledge with pleasure a call from him. Come again. He informs us that the Bertie is doing good work, under the management of Capt. I. Pipkins. Our people have no occasion to leave the sanks of the Roanoke to seek health in summer. They may stay in Plymonth and let the ripple of the glittering waters of old Roanoke sound in their ears in per-

fect safety. Our climate is fine and the

health of our people is generally good. Messrs. Nurney & Jackson, Undertakers, are now located in their new building on Washington street. They are also prepaired to do any kind of cabinet repairing. These men are well known and deserves a liberal share of the patronage. See ad in this issue. Mr. J. F. Ayers is their agent,

In a former issue, we offered a reward of \$5 00 to the man who would attend to his own business. A farmer called and claimed the prize, but on being questioned, it was found that while at his neighbors, trying to porrow the BEACON, the cattle broke in his field and ate his corn. He lost the prize. It is every man's business to take his county paper, and keep good fences. Next.

In a letter received by Mayor E. R. La. tham, from Mr. J. E. Moore, of Williamston, says; "The iron will be at Gardner's Creek by next Monday night. There will be some delay there, but it is hoped that it will reach Jamesville by the last of the week (that is, next week) and will then push on for Plymouth. It is hoped that he train can run regularly to Plymouth by the first of October."

Miss Kittie Johnston, one of our most accomplished young ladies, who has charge of the Mackey's Ferry Academy, was at home this week, owing to illness. We are pleased to note that Miss Kittle is making quite a success in the training of young minds. She reports 71 scholars on roll. # A Steam Fire Engine Needed.

Our town needs and should have a Steam Kurney & Jackson. They will make the Fire Engine. While the hand engine we now have is of great use to the town, yet, its capacity is not sufficient as only one stream can be run, while at the same time it takes 20 men to do the work.

A steam engine can be bought for \$1,500, which will throw 300 gallons of water per minute.

Our town is increasing in its population ment is fast approaching. Let our citizens be awake to their interests before it is too

# AN EXPERIMENT.

I have used cotton seed meal for cotton from Washington failed to connect with this year and last year on a small scale and the steamer at Jamesville, hence no mail find it far superior to anything I've ever used or seen used. I have cotton now with 75 bashels cotton seed to the acre and right along side, cotton growing with 500 lbs cotton seed meal per acre; the cotton seed meal exceeds the raw cotton seed. I also have experimented with acid phos. phate and kainite and pocomote and pacific the past week at "Roseneith," the guest of guano. The cotton seed meal in same proportion of cost per acre is twice as good as either, and I can now show the results to be true. on two lots of ground I also used cotton seed meal 50 lbs on 3 rows 125 yards, and right along side 4 loads of stable manure in 3 rows and left a row between each plot uncultivated, or cultivated with One of our young friends after stopping nothing in it, and the results were for cotton seed meal 76 lbs seed cotton, for stable manure 76 lbs seed cotton, showing equally, I also used cotton seed meal with kainite and acid phosphate mixed, and the meal mixed with same makes a bigger difference than when the kansite and phos. phate are only mixed together, or they are Whether it is Mr. Owens good looks or used alone. I have made the experiment erably and in the others the kainet exceeded the phosphate, showing the deficiency of

country, the dense forests of which have never been disturbed by the lumberman's ax, when robed of its immense number of giant pines the forest will present quite a changed appearence. The BEACON comes each week bringing news of friends and kindred dear and is

ever welcome as the bright sunshine, the sweet flowers or the smiling face of a friend to the well wisher of both editor and paper.

Never Swear. Southern Planter. 1. It is mean. A boy of high moral standing would almost as soon steal a skeep

as swear. 2. It is vulgar-altogether too low for a decent boy.
3. It is cowardly—implying a fear of not being believed or obeyed.

4. It is ungentlemanly. A gentleman, ecording to Webster is a genteel manwell-bred, refined. Such a one will no more swear than go nto the street to throw mud with a chim.
