THE TALMAGE SERMON. BROOKLYN'S DIVINE PREACHES ON ANGELOLOGY.

VOL. 1.

There are Two Nations of Angels: The Nation of Good Angels and the ' Nation of Bail Angels.

TEXT: "And the angel did wondrously."

TEXT: "And the anget and wondrously." -Judges xill, 19. Fire built on a rock. Manoah and his wife had there kindled the flames for sacri-fice in praise of God and in honor of a guest whom they supposed to be a man. But as the flame rose higher and higher their stranger guest stopped into the flame and by ona red leap ascended into the skies. Then they knew that he was an Angel of the Lord. "The angel did wondrously."

they knew that he was an Angel of the Lord. "The angel did wondrously." Two hundred and forty-eight times does the Bible refer to the angels, yet I never heard or read a sermon on Angelology. The whole subject is relegated to the realm mythical, weird, spectral and unknown. Such adjournment is unscriptural and wicked. Of their life, their character, their habits, their actions their velocities, the Bible gives us tull length portraits, and why the mythical and absolute silence concern-them? Angelology is my them. There are two nations of angels, and they are hostile to each other; the nation of good angels and the nation of bad angels. Of the former I chiefly speak to-day. Their capital, then headquarters, their grand rendesvous, is heaven, but their empire is the universe.

is heaven, but their empire is the universe. They are a distinct race of creatures. No human being can ever join their confirater-nity. The little child who in the Habtath school sings, "I went to be an angel," will never have her wish gratified. They are su-perhuman; but they are of different grades and ranks, not all on the same level, or the same height. They have their superiors and inferiors and cousts. I propose no guessing on this subject, but take the Bible for my only authority. Plate, the philosopher, guessed, and divided angels into super-celes-tial, celestial and sub-celestial. Dionysius, the Arcopagite, guessed, and divided them into three classes—the suprome, the middle and the last—and each of these into three other classes, making nine in all.

the last—and each of these into three other classes, making nine in all. Philo said that the angels were related to God, as the rays to the sun. Fulgentius said that they were composed of body and spirit. Clement said they were incorporeal. Au-gustine said that they had been in danger of falling, but now are beyond being tempted. But the only authority on this subject that i respect says they are divided into Cheru-bim, Seraphim, Thrones, Dominations, Prin-cipalities, Powers, Their commander-in-chief is Michael. Daniel called him Michael, St. John called him Michael. These supernal beings are more thoroughly organized than beings are more thoroughly organized than any army that ever marched. They are swifter than any cyclone that ever swept the sea. They are more radiant than any mora-ing that ever came down the sky. They have more to do with your destiny and mine than more to do with your destiny and mine than any being in the universe except God. May the Angel of the New Covenant, who is the Lord Jesus, open our eyes, and touch our tongue, and rouse our soul, while we speak of their deathlessness, their intelligence, their numbers, their strength, their achievements. Yes, deathless. They had a cradle, but will never have a grave. The Lord remem-bers when they were born, but no one shall eves see their eye extinguished, or their mo-mentum slow up, or their existence term-inate. The oldest of them has not a wrinkle, or a decreptude, or a hindrance, as young after six thousand years as at the close of their first hour. Christ said of the good in heaven, "Neither can they die any more, for

rim of the wheel of worlds. In a mo-ment the Angel Gabriel flew from that center to this periphery. Jesus told Peter He could instantly have sixty thousand angels present if He called for them. What foot of antelops or wing of albatross could equal that veloc-ity! Law of gravitation, which grips all things else, has no influence upon angelle momentum. Immensities before them open and shut like a fan. That they are here is no reason why they should not be a quintillion of miles hence the next minute. Our bodies hinder is, but our minds can circle the earth in a minute. Angelic beings are bodiless and have no limitation. God may with His finger point down to some world in trouble on the outmost limits of creation, and instantly an angelic cohort are there to help it. Or some celestial may be standing at the furthermost outpost of immensity, and God may say "Come!" may be standing at the furthermost outpost of immensity, and God may say "Come!" and instantly it is in His boson. Abraham, Elijah, Hagar, Joshua, Gideon, Manoah, Paul, St. John, could tell of their unhindered locomotion. The red feet of summer light-ning are slow compared with their hegiras. This doubles up and compresses infinitudes into infinitesimals. This puts all the astro-nomical heavens into a space like the balls of a child's rattle. This mingles into one the Here and the There, the Now and the Then, the Beyond and the Yonder. Another remark I inve to make concern-

Another remark I have to make concern-ing these illustrious immortals is that they are multitudinous. Their census has never been taken, and no one but God knows how been taken, and no one but Gon knows now many they are, but all the Bible accounts suggest their invense numbers. Companies of them, regiments of them, armies of them, mountain tops haloed by them, skies popumountain tops haloed by them, skies popu-lous with them. John speaks of angels and other beings round the throne as ten thousand times ten thousand. Now, according to my calculation, tan thousand times ten thousand are one hundred million. But these are only the angels in one place. David counted twen-ty thousand of them rolling down the sky in charlots. When God came away from the riven rocks of Mount Sinai, the Bible says He had the companionship of ten thousand an-rols. I think they are in avery battle in gels. I think they are in every battle, in every exigency, at every birth, at every pil-low, at every hour, at every moment. The earth full of them. The heavens full of them. They outnumber the human race in this world. They outnumber ransomed spirits in glory. When Abraham had his knife up-lifted to day heave it may an east who are glory. When Abraham had his knife up-lifted to stay Isaac, it was an angel who ar-rested the stroke, crying: "Abraham! Abra-ham!" It was a stairway of angels that Ja-cob saw while pillowed in the wilderness. We are told an angel led the hosts of Israel-We are told an angel led the hosts of Israel-ites out of Egyptian seridom. It was an an-gel that showed Hagar the fountain where she filled the bottle for the lad. It was an angel that took Lot out of doomed Sodom. It was an angel that shut up the mouth of the hungry monsters when Daniel was thrown into the caverns. It was an angel that fed Elijah under the juniper iree. It was an an-gel that announced to Mary the approaching nativity. They were angels that chanted when Christ was born. It was an angel that strengthened our Saviour in His agony. It was an angel that encouraged Paul in the Med-iterrancean shipwreck. It was an angel that burst open the prison, gate after gata, until turst open the prison, gate after gate, until Peter was liberated. It was an angel that stirred the Pool of Siloam where the sick were healed. It was an angel that John saw flying through the midst of heaven, and an angel with foot plantal on the sea, and an angel with foot plantal on the sea, and an angel that opened the book, and an angel that sounded the trumpet, and an angel that thrust in the sickle, and an angel that poured out the vials, and an angel standing in the sun. It will be an angel with uplifted hand, swearing that time shall be no longer. In the great final harvest of the world, the great final harvest of the world, the reapers are the angels. Yes, the Lord shall be revealed from heaven with mighty angels. Oh, the numbers and the might and the glory of these supernals! Fleets of them! Squadrons of them! Host beyond host! Rank above rank! Millions on millions! And all on our ride if was will heave them. rank! Millions on millions! And all on our side if we will have them. This leads me to speak of the offices of these supernals. To defend, to cheer, to res-cue, to escort, to give victory to the right, and overthrow the wrong; that is their busi-ness. Just as alert to-day and efficient as when in Bible times they spread wing, or masheathed sword, or rocked down penteen-teries of filed the meantain with heres of tiaries, or filled the mountains with horses of are hitched to chariots of fire and driven by reinsmen of fire. They have turned your steps a hundred times, and you knew it not. You were on the way to do some wrong thing, and they changed your course. They brought some thought of Christian parentage, or of loyalty to your own home, and that arrested you. They arranged that some one should meet you at that crisis, and pro-pose someting honorable and elevating, or they took from your pocket some ticket to evil amusement, a ticket that you never found. It was an angel of God, and perhaps the very one that guided you to this service, and that now waits to report some holy impression to be this morning made impression to be this morning made upon your soul, tarrying with one foot upon the doorstep of your immortal spirit, and the other foot litted for ascent into the skies. By some prayer detain him until he can tell of a repentant and ransomed soul/ Or you were some time borne down with trouble, bereavement, persecution, bank-ruptcy, sickness and all manner of troubles beating their discords in your heart and life. You gave up; you said: "I cannot stand if any longer. I believe I will take my life. any longer. I believe I will take my lite. Where is the rail train, or the deep wave, or the precipies that will end this torment of earthly existence?" But suddenly your mind brightened. Courage came surging into your heart like oceanic tides. You said: your heart like occante tides. You said: "God is on my side, and all these adversities He can make turn out for my good." Sud-deniy you felt a peace, a desp peace, the peace of God that passeth all understanding. What made the change? A sweet, and mighty, and comforting angel of the Lord mat you. That was all met you. That was all. What an incentive to purity and righteous-ness is this doctrine that we are continually under angelic observation! Eyes ever on you, so that the most secret misdeed is comyou, so that the most secret misdeed is com-mitted in the midst of au audience of im-mortals. No doors so bolted, no darkness so Cimmerian as to hinder that supernal eye sight. Not critical eyesight, not jealous eyesight, not baleful eyesight, but friendly eyesight, sympathetic eyesight, helpful eye-sight. Confidential clerk of store, with great sight. Confidential clerk of store, with great responsibility on your shoulder, and no on to applaud your work when you do it well, and sick with the world's ingratitude, think of the angels in the counting-room raptured at your fidelity! Mother of household, stitching, mending, cooking, dusting, planning, up half the night or all night with the sick child, day in and day out, year in and year out, worn with the monotony of a life that no one seems to care for, think of the angels in the nursery, angels in all the rooms of your toil-ing, sugels about the sick cradle and all in ing, sugels about the sum sympathy ! Railroad engineer, with hundreds of lives Railroad engineer, wrist, standing amid the Railroad engineer, with hundreds of lives hanging on your wrist, standing amid the cinders and the smutch, round the snarp curve and by appalling declivity, discharged and diegraced if you make a mistake, but not one word of approval if you take all the trains in safety for ten years, think of the angels by the throttle valve, angels by the roaring furns so of the engine, angels looking from the overhanging crag, angels bracing the racing wheels off the precipice, angels when you mount the thunderbolt of a train and angels when you dismount! Can you not hear than, londer than the bell at the crossing, londer than the whistle that sounds like the scream of a flying flend, the anlike the scream of a flying flend, the an-

gelic voices eaving: "You did it well!" You did it well?" If I often speak of engineers it is because I ride so much with them. I always accept their invitation to join them on this? locomotive, because I not only get to my destination sconer, but because they are about the grandest men alive. Men and women of all circumstances, only partly appreciated, or not appreciated at all, never feel lonely again, or unregarded again angels all around; angels to approve, angels to help, angels to remember. Yea, while all the good angels are friends of the good, there is one special agent your body guard. This idea, until this present study of angelology. I supposed to be fanciful, but I find it clearly stated in the Bible. When the disciples were pard he appeared at the door of the prayer meeting, they could not believe it was Peter. They said: "It is his angel." So these dis-ciples, in special nearness to Christ, evidently They said: "It is his angel." So these dis-ciples, in special nearness to Christ, evidently believed that every worthy soul has an angel. Jesus said of His followers. "Their angels be-hold the face of My Father." Elsewhere it hold the face of My Father." Elsewhere it is said. "He shall give His angels charge over thee, to keep thee in all thy ways." Angel shielded, angel protected, angel guarded, angel canopied, art thou. No wonder that Uharles Wesley hymned these words:

Which of the petty Kings of earth Can boast a guard like ours, Encircled from our second birth With all the heavenly powers?

Valerius and Rufinus were put to death for Christ's sake in the year 237, and, after the day when their bodies had been whipped and pounded into a jelly, in the night in prison, pounded into a jelly, in the night in prison, and before the next day when they were to be executed, they both thought they saw angels standing with two glittering crowns saying: "Be of good cheer, valiant soldiers of Jesus Christ! a little more of battle and then these crowns are yours." And I am glad to know that before many of those who have passed through great sufferings in this life, some angel of God has held a blazing coronet of eternal reward. Yea; we are to have such a guardian angel to take us upward when our work is done. You know we are told an angel conducted

to take us upward when our work is done. You know we are told an angel conducted Lazarus to Abraham's bosom. That shows that none shall be so poor in dying he cannot afford angelic escort. It would be a long way to go alone, and up paths we have never trod, and amid blazing worlds swinging in unimaginable momentum, out and on through such distances and across such infinitudes of space, we should shudder at the thought of going alone. But the angelic escort will come to your languishing pillow, or the places of your fatal accident, and says: "Hail, im-mortal one! All is well; God hath sent me to take you home;" and without tremor or alightest sense of peril you will away and to take you home;" and without tremor or slightest sense of peril you will away and upward, further on and further on, until after awhile heaven heaves in sight, and the rumble of chariot wheels, and the roll of mighty harmonics are heard in the dis-tance, and nearer you come, and nearer still, until the brightness is like many morn-ings suffused into one, and the gates lift and you are inside the amethystine walls, and on the banks of the jasper sea, forever safe, for-ever united, forever happy. Mothers, don't think your little children go alone when they quit this world. Out of your arms into an-gelic arms. Out of sickness into health. Out quittins world. Out of your arms into ab-gelic arms. Out of sickness into health. Out of the cradle into a Saviour's bosom. Not an instant will the darlings be alone between the two kisses, the last kiss of earth and the first kiss of heaven. "Now, angels, do your work!" cried an expiring Christian. You expanding angel for each one of you

Yes, a guardian angel for each one of you. Put yourself now in accord with him. When he suggest the right, follow it. When he e wron in 16.

THE WORLD'S FAIR

Bill Passes the House by Large Majority.

Chicago has Acted in Good Faith and Can Raise the Money-Some Amendm nts.

The World's Fair bill has at length been passed by the House, and Chicago has an" other opportunity to vent her exhuberance over her victory.

Immediately after the approval of the journal, Mr. Candler, of Massachusetts, called up the World's Fair bill,

journal, Mr. Candler, of Massachusetts, call-ed up the World's Fair bill. The bill having been read in extenso, Mr. Candler, on behalf of the committee, offered an amendment providing that the commis-sion shall appoint a board of lady managers, of such number and to perform such duties as may be prescribed by the commission, and the board may appoint one or more members of all committees authors alto award prizes for exhibits which may be produced in whole or in part by female labor. Also, an amend-ment providing that one of the members of the board created to be charged with the se-lection of the government exhibit shall be chosen by the Fish Commission. Both of which were adopted. Mr. Can lier in opening the debate express-ol the satisfaction which he felt in being able to state that Chicago, which had been selected by the House as a site, had proved itself before the committee equal to all that had been expected of it. The committee was sitisfied that Chicago had raised a bona-fide sutscription of \$5,000,000, and also satisfied that the subscription should beraised to \$10,-00,000. In order to meet the conservative sument which did not favor the holding of a fair, the bill provided that the President should hold issue dis proclamation inviting foreign nations until he was satisfied that th-bould hold issue dis proclamation inviting foreign nations until he was satisfied that th-should hold issue dis proclamation inviting foreign nations until he was satisfied that th-ston flag on a mendment on contribution was a boun fide one.

contribution was a boun fide one. Mr. Candier then offered an amendment on his individual motion to be considered as pending providing for the dedication of the buildings of the Works's Fair with appro-printe ceremonies on October 12, 1802, and further providing that the exposition shall is opened to visitors not later than May 1, 1893, and close not later than Oct. 30, 1898. Air. Beiden, of New York, next took the fi or, and by his criticism of the subscrip-tion lists offered by Chicago as a guarantee of her abuity to raise a lund occasioned a lung co loquy between himself and members from Ch caso. Mr. Cummings, of New York, declared

from Ch cazo. Mr. Cummings, of New York, declared that New York had been fairly beaten, and he was determined to see fair play now for Cuicago. A number of other spe ches were made and then came the voirig Mr. Candler's am ad-ment postponing the fair until 1993 was first adopted without division. Mr. Belden then move i to recommit the till, and this was de-set i to recommit the till, and this was de-set 2, nays 49. The negative votes were cest by these members who have been from cast by those members who have been from the first opposed to the holding of any Wo.id's Fair.

CALAMITIES IN JAPAN.

Five Hundred Houses Burned-Conflicts Between Dutch and Chinese.

FIFTY-FIRST CONGRESS.

NO. 47,

Senate Sessions.

63BD DAY -On motion of Mr. Sherman, the till to declare unlawful trusts and com-bint one in restraint of trade and produc-tion was taken up for condication. The stustitute rejorted by Mr. Sherman, from the Finance Committee, on the 18th instant, was read; also, an amendment that was of-fered by Mr. Beagan. After a slong debate the bill went over till Monday. After a short executive session, the Senate adjourned. Mr. Biair renewed his motion to reconsider the vote of yesterday by which the Educational bill was rejected, and Mr. Ingais moved to ay that motion on the table. No notion was taten. Gitt DAX.-The House bill to amend the 63BD DAY -On motion of Mr. S.

GitH DAX.-The House bill to smend the act for a public building in Scranton, Pa., was reported and placed on the calendar. The Senate then took up the calendar. The first bill reached was one appropriating \$300,000 for a public building at San Diego. California. Mr. Sherman suggested that that for a public building in San Diego. Mr. Stanford, chairman of the Public Buildings and Grounds, stated that San Diego had a population of about 40,000, and that the building was to second files and the label of the four of the factor of the second of the second of the second of the building in San Diego had a population of about 40,000, and that the building was to second of the second building the second of the factor of the second of 64TH DAY .- The House bill to amend the

65TH DAY .- The bill to declars unlawful 657H DAY.—The bill to declars unlawful trusts and combinations in restraint of trade and production was taken up, and Mr. Tur-ple addressed the Sinate. Mr. Hiscock spoke against the bill as not promising any relief. Mr. Teller did not believe, either, that the bill would afford any relief against the evil. His real objection to it was that it was deu-sive. He thought that it would be well to re-mit the bill to the Juliciary Committee. The bill went over till to morrow without action. A conterence was agreed to on the Urgency A conterence was agreed to on the Urgency Deficiency bill, and Senators Hale, Allison and Cocarell, were appointed conferens on the part of the Senate. After a short execu-tive reasion the Senate adjourned.

tive session the Sinate adjourned. 66TH DAY.—Among the bills introduced and referred was one by Mr. Morrell, to es-tablish an educational fund from the proceeds of public laads, and one by Mr. Farwell, to give a pension of \$3,000 s year to the widow of General Crook. The Anti-trust bill was discussed. Mr., George discussed the bill, and moved that it and the amendments be referred to the Judiciary Committee. Mr. Coke offered his amendments, consisting of eight new sections, and addressed the Senate in explanation and advocacy of it. Pending action on the amendments the Senate ad-journed, Mr. Sherman giving notice that he would ask a vote on the passage of the bill after the morning busineis to-morrow. 67TH DAY.—On motion of Mr. Sherman the

67TH DAY .- On motion of Mr. Sherman th Anti-Trust bill was taken up, and various formal amendments were made. Mr. Ingails asked unanimous consent to have the voto tiken to morrow at four o'clock without further discussion, i ut Mr. Edmunds ob-j cted. Mr. But er, at 6 30, moved to adjourn. Not agreed to-yeas 23, nays 26 (a party vote) Mr. Butler then moved to procee i to the consideration of executive business, which was agreed to, and after a short session the Senate adjourned.

heaven, "Neither can they die any more, for they are equal unto the augels." Yes, death-less are these wonderful creatures of whom I speak. They will see world after world go out, but they shall be no fading of their own brilliance. Yes, after the last world has taken its last flight they will be ready for the widest circuit through immensity, taking a quadrillion of miles in one sweep as easy as a igeon circles a dovecot. They are neve ick. They are never exhausted. They nee ha sleep, for they are never tire i. At God's command they smote with death, in one night, one furning and sighty-five thousand of Seunacherib's host, but no fatality can smite them. Awake, agile, multipotent, deathless immortant.

deathless, immortal! A further characteristic of these radiant folk is intelligence. The woman of Tekoah was right when she spoke to King David of the wisdom of an angel. We take in what the wisdom of an angel. We take in what iittle we know through eye and ear and nos-tril and touch, but those beings have no physical encasement and hence they are all senses. A wall five feet thick is not solid to them. Through it they go without disturb-ing flake of mortar or crystal of sand. Knowl-edge! It flashes on them. They take it in at <text> all points. They absorb it. They gather it up without any hinderment. No need of

the angels desire to look mto." But that does not discredif their intelligence. No one but God Himself can fully understand the won-ders of Redemption. If all heaven should study it for fifty eternities they would get no further than the A B C of that inexhaustible subject. But nearly all other realms of knowledge they have ransacked and explored knowledge they have ransacked and explored and compassed. No one but God can tell them mything they do not know. They have read to the last word of the last line of the last page of the last volume of investigation. And what delights me most is that all their intelligence is to be at our disposal, and, com-ing into their presence, they will tell us in ing into their presence, they will tell us in five minutes more than we can learn by one

five minutes more than we can learn by one hundred years of earthly surmising. A further characteristic of these im-mortals is their velocity. This the Bible puts sometimes under the figure of wings, sometimes under the figure of makel feet. As these supersides are without bodies these expressions are of course figur-alive, and mean swittness. The Bible tells us that Baniel was praying, and Gabriel flew from heaven and touched him before he got up from his traces. How far, then, did the Angel Gabriel have to fly in those moments of Daniel's prayer? Heaven is thought to be the center of the uniis thought to be the center of the uni-verse. Our suo and its planets only the

warns you against the wrong, shun it. Sent forth from God to help you in this great bat-tle against sin and death, accept his deliver-ance. When tempted to a feeling of loneli-ness and disheartenment appreciato the promise: "The angel of the Lord encampeth around about them that fear Him and deliv-meth them." Ob L am so sided that the around about them that fear film and deliv-ereth them." Oh, I am so giad that the spaces between here and heaven are thronged with these supernaturals taking tidings home, bringing messages here, rolling back obstacles from our path and giving us defense, for ter-rifle are the forces who dispute our way, and if the nation of the good angels is on our side, the nation of bad angels is on the other side. "We wrestle Paul had it right when he said: "We wrestle not against flesh and blood, but against Prin not against fiesh and blood, but against Prin-cipalities, against Powers, against the rulers of the darkness of this world, against spirit-ual wickedness in high places." In that awful fight may God send us mighty angelic re-enforcement! We want all their wings on our side, all their swords on our side, all their chariots on our side.

Thank God that those who are for us ar mightier than those who are against us! And that thought makes me jubilant as to the final triumph. Belgium, you know, was the battle ground of England and France. Yea, Belgium more than once was the battle ground of opposing nations. It so happens that this world is the Belgium or battle ground between the angelic nations, good and bad, Michael, the commander-in-chief on bad. Michaei, the commander-in-chief on one side; Lucifer, as Byron calls him, or Mephistopheles, as Goethe calls him, or Satan, as the Bible calls him, the commander-in-chief on the other side. All pure angel-hood under the one leadership, and all aban-doned angelhood under the other leadership. Many a skirmish have the two armies had but the great and decisive battle is yet to be fought. Either from our earthly homes or down from our supernal residences, may we come in on the right side; for on that side are God and heaven and victory. Meanwhile the

God and heaven and victory. Meanwhile the battle is being set in array, and the forces celestial and demoniacal are confronting each other. Hear the boom of the great cannonade already opened! Cherubim, Seraphim, Thrones, Dominations, Princi-palities and Fowers are beginning to ride down their foes, and until the work is com-pleied, "Sun, stand thou still upon Gideon, and thou, Moon, in the valley of Ajalon ?"

Mile. Bais, who recently work a prize at a beauty show in Europe, is about to marry a very wea thy Russian. Beauty is really, more than skin deep. She Was Rebuked at School and Her Pride Was Wounded. In the scoool near Flemingburg, Kr., little Mamie Markwell was one of the pretliest and brightest pupils. She was lovable and a favorite, during the recess Mamle was one of the happiest of children. She was endowed

with a superabundance of animal spirits, and returned to her desk with cheeks glowing, The children were marry over some happen ing of their p ay and the teacher twice com-manded order as a titter was heard in the room. At the third manifestation of suppressed merriment two of the culpits were called up by the teacher. One of them was Mamie Markwell, and the teacher adminis-

Mamie Markwell, and the teacher adminis-tered a severe rebuke. Mamie, who had always been a model scholar, relt the disgrace keenly and returned to her scat in tears. She was depressed dur-ing the rest of the asside, and, when the school was finally dismissed, with her face burning with shame and downcast eyes, she hurried home. Her father, Lewis Markwell, was abscent at the time, and the mother's et-fort to learn what was the matter with the child was met with eva ive answers. Mamio then returned to her little room up stairs. child was met with eva ive asswers at airs. then returned to her little room up stairs. Upon the fathes's return in the evaning she upon the fathes's return in the evaning she was called, and, receiving no answer, Mrs. Markwel ascended to the room. The child was lying on the bad evidently asleep. The mother endeavered to arouse her, but dis-

mother endeavered to arouse her, tut dis-covered that the little one was a corpes. An investigation showed that Mamie had secured a paper of strychnice that had been kept in the house for some purpose and had taken a dose. The mother is almost cranid with grist.

House Scantons

7.TH DAY .-- I nmediately after the reading 7. TH DAY. -- I numediately after the reading of the journal the House went into commit-tee of the whole -- Mr. Burrows, of Michigan, in the chair -- on the Fension Appropriation bill. On motion of Mr. Morrill, o. Kanaza, (set-ing under unstructions from the Committee on Livali Pensions.) a resolution was adopted calling on the Secretary of the Interior for a copy of the syndence taken by the committee appointed by him to investigate the management appointed by him to investigate the man ment of the Pension Oilles under Com ment of the French duse then took a re-sioner Tanner. The House then took a re-cess until eight o'c.oc', the evening session to be for the consi leration of private p bil.s.

7187 DAY.-Mr. Lawler, of Illaois, pre-se ted the remonstrates of the Chicago Wholesale Shoe and Leather Association against the imposition of duty upon hide. Referred. Mr. Morgan of Mississippi pre-sented r-solutions of the Farmers' Exchange sented r-solutions of the Farmers' Exchange of Mamples, opposing a tax on compound lard. Referred. I the mornin r hour, on motion of Mr. Pason, of Illinois (acting un-der instructions from the Committee on Pubder instructions from the Committee on Pab-inc Lands.) a bill was pa-sed repealing the Timber Culture law. At two o'clock public business was suspended, and the House pro-oceded to the consideration of resolutions rel-ative to the denth of E. J. Gay, inte momber from Louisians. Eulogistic addresses were made by Mesura. Wilkinson, of Louisians; Heard, of Missouri; Geur, of Iowa; McMillin, of Tennessee; Bianchard, of Louisians; Hemphill, of South Carolina; Butterworth, of Ohio; Bynum, of Indiana; Clements, of Gorgia; Kinsey, of Missouri; Coleman of Louisiana, and Robertson, of Louisiana; and then at four o'clock, the House, as a mark of respect to the memory of the deceased, ad-journed.

72D DAY .- Mr. Henderson (Is.) from the Committee on Appropriations, reported back the Urgent Doliciency oill, with Senate amend-ments thereto, with the recommendation that certain of these amendments be concur-red in and certain non-concurred in. Mr. Henderson stated that the aggregate amount certain by the Supramer descriptions. ount 650.carried by the Senate amendments was \$650 000. The amendments in which the commi-

tee recommended concurrence carried onl \$37,000. The amount appropriated by th bill was \$34,730,000, of which \$32,674,000 we for the benefit of the old soldiers of the cour for the benefit of the old soldiers of the coun-try. The recommendations of the committee were agreed to, and a conference was order-ed. The floor was then accorded to the Com-mittee on the District of Columbia. The first bill called up and which was considered in committee of the whole was a Senate bill authorizing the establishing of a public park in the District of Co umbia. After a long de-bate, on motion of Mr. Payson, of Hillsoin, an ameniment was adopted providing then the total cost of the land shall not exceed tos amount of money appropriated by the bill-\$1,300,000. Pending further action the com-mittee rose, and the House adjourned. "3D DAX.—Immediately after the approval

mittee rose, and the House adjourned. "3D DAX.—Immediately after the approval of the journal Mr. Candler of Massachus-etts, called up for consideration the World's Fair bill, after a long discussion. The bill was passed—yeas 202, nays 49. The negative votes were cast by these members who have been from the first opposed to the holding of any World's Fair. The House than ad-journed. iourn

journed. 74TH DAY.-Mr. Caunon, of Illinois, from the Committee on Raiss, reported a resolu-tion, making the Wyoming A unission bill a a special order for to-day. The resolution was adopted and the Wyoming bill was then taken up. Arguments in favor of the measures were made by Messers. Baker of New York, Carey of Wyoming, Kerr of Iowa, Kelly of Kansas, Morey of Onio; and against ft by Messers. Dockery of Missouri, Ontes of Ala-bama, Dunnell of Misseson, and Mansur of Missouri. The House, at 0.30 took a recess until to morrow. until to morrow.

John B. Curtis, of Portland, Maine, has made nearly \$1,003,000 in the manufacture of chewing-gum.

vails in Colorado.
