FRIDAY, MAY 6, 1892.

THE Bladen county Convention has en. dorsed the demands of the Farmers' Alliance as made by the St. Louis Conference,

使要

Some of the Third Party Alliancomen say they will not support an Alliance Demcorat or an Alliance Republican. They say their may must be a Third Party Allianceman. They say they have tried Alli ancemen from the old parties, and find that when in office they leave off the Alli- and make some of it our elves ? ance principles.

Well, if they are done with all men who have belonged to either of the old parties, though they are now Alliancemen and stand with the third Party, they will have to wait about twenty-one years and mise them up some candidates for office. If they are afraid as their argument shows, that house. Nol pics men of the old faiths will prove unfaithful to the new party, then their hope is lost, pros with leave for there is no man above the age of ten years but who has set his heart upon one of the old parties. If the Third Party wants a candidate they must take an ex-Democrat or an ez-Republican-thic much is settled-and in taking that candidate they will be mighty apt to get a man neither of the old parites want or would have as a leader. In fact, the new party don't want an Alliancement they want a Third Party man or nothing.

THE citizens of this community both white and black seem to be very indiguant over the turn taken by the superior Court last week in the case State vs, George Bell. The Grand Jury found a bill for murder, the Court had one hundred and thirty men drawn from which to get a jury to 'try the case, but by some, yet ucceptained action, | Pleads guilty a sudden change was made, the deputies

operation the farmers would become interested and at once the country would be given new life, for by the operation of such a factory there would be a demand and more money would be put into circulation. among that class of people who would keep it in checulation. We must get to work along this line and

the sooner the bester, and we believe that a cauning factory is the most avalable just now, so let us occide at once to have one.

Form a stock company and go to work. The scotland Neck Democrat truly says The time has come in the South when the communities that manufacture the most goods, of one sort or another, to sell to other communities, are most prosperous. There are various industries to which any town or community can well pay attention. There are many chances for engaging in manufacturing industries which no town or community can afford to miss.

With the small amount of capital that can be raised in most Southern towns, the chi f question with those who are willing to engage in new enterprises is. What can

I afford to try with my small capital ? Several small stockholders can combine

their cooling and thus commence an enterprise that will grow. One advantage in organizing very small industries on the cooperative plan is, that if a part of the stockholders couclude to sell, it is not such a big job for some one to buy them out

For instance, the editor of this "paper has recently been in correspondence with persons who sell machinery for making brooms. We have estimates for outfits that cost only a few hundred dollars, and which are highly recommended and are said to be run at a great profit. Now lot half a dozen men put in a small amount each and the thing can be tried. If it pays, as is claimed for i , all can sell out to one or two and a mething eise cau be started If it does not pay, why no one will loose much

But there is no reason why the manufacture of any class of goods for which there is constant demand should fail at all With judicial maungement armost anything ought to succeed.

People are all the time saying that the magnifacturer makes all the money. It that he so, why do we not turn manufacturers

DON'T WANT IT.

From Tarboro, N. C., Southerner, April 30, '92. The following letter from Jesse Pitt, of this township, who was cured of the morphine nabit at the Greensboro Keeley Institute more than two months ago fully explains itself:

TABBORO, N. C., Apil 30 1893. DOSSEY BATTLE, ESO . REPRESENTING THE GREENSBORD, N C., SEELEY INSTITUTE. DEAR SUR :-- Since I was cured of the morphine babit, to which I had been a helpless victim for thirteen years, over two months ago, I am bothered with questions such as these :

"Don't you want morphine sometimes now? Do you think you will never want it again, &c ?"

Please publish as an auswer to all, for me, that after suffering the tortures of the damned for thirteen years, and since I have had all insie for the drug removed, am feeling well for the first time after contracting the habit-feeling no desire, or need for it, I will bever cu tivate the hab t again.

My cure was effected in a surprisingly short space of time and without suffering on my part.

My daily portion was twenty grains, and without it I was the most toriured wretch on earth

When I first entered the Greensboro Institute I had little faith in my own cure, but which I saw almost life-long drunkards redeemed, I hoped for myself and have realized all I hoped for. I am cared and will never take the drug again, and I have to use no will power. - I simply do not want it. JES E PITT.

EASTERN CAROLINA DISPATCH

sent out a few hours before to summon the 20 years in State prison jury were called in and the men notified not to appear.

What was the matter?

Why the prisoner had confessed to man. (slaughter and regardless of the indiciment | Pros for murder, the State accepted his pleading, meat suspended upon payment of cost and the Court had passed the sentence.

If George Bell was innocent he should have been cleared by a jucy, if guilty he should have been tried and convicted of the murder as was courged, that jury would ed upon payment of cost have convicted him, or if in instaughter, as confessed, that would have been the verdict each and the people would have had no cause to murmur, but when the lawyers make such grrangements and the State settles it with. out trial the people have cause to object. Catep White, called and failed set fa If this case was disposed of according to the laws of North Carolina then there can | true bill be no use for a jury For no matter how court and plead guiny of man staugater, of cost. Hathaway not pros and be sent to prison for a few years-the stative Emperor Spruil, larceny, xisi and be sant to prison for a few years- the gallows has received its last victim.

We do not argue that the prisoner in this case was guilty of murder, he might not have been but that point should, in justice to the community, have been decided by a jury and not by the prisoner.

Many are open in charging Solicitor Blount with having taken sides against the State in this case, and if he is the man who stopped the proceedings of a trul so impertaut as this, he is surely not the man the voters of the First District will elect to that office next term.

The people want to know how a man indicted for marder can plead guilty and be | bilt punished for man.slaughter without a tria? Perhaps Solicitor Blount can explain.
