THE ROANOKE BEACON, Plymouth, N. C.

BRO. W. R. JOHNSON of Windsor, was here Monday. He now has Nowhiskers, and can not be mistaken for the Nowitzky medicine man.

We note with pleasure that our friend, W. K. Jacobson, editor of the Washington Progress, is a candidate for Government Inspector.

THE called meeting of the Board of County Commissioners held on Friday last was for the purpose of hearing the case of the Road Contractors vs. the County.

THE Raleigh News and Observer has won a place in the homes of North Carolinians which it deserves.

FROM our view of the new election law, it seems that this town must hold its municipal election under the new law.

WHEN Americans arose in their might and asked the United States to declare war against Spain, on the plea of humanity.

War was declared just a year ago. Our brave Americans went forth to do or die for those suffering Cubans.

On the very impulse of this war, which was supposed to begin and end in Cuba, there came the news across the Pacific that Dewey had fought and won the battle of Manila.

Had our government reflected more seriously it might have seen that a conflict with Spain was a big undertaking, since the Spanish being a Latin race is naturally a rival race to the Anglo-Saxon.

The Cubans whom we saved from a terrible death, are arrayed against us. From Porto Rico the demand

comes for an increase in our army. From the Philippines comes the news of great danger.

On we go, lifting the yoke of bondage from the neck of one part of this treacherous nation only to give them a chance to stab us in the dark.

Thus we have followed; first the instincts which lead us to fight for the cause of humanity.

Let us halt in our madness, return to the first and second and declare that we are repaid for our efforts by the possession of Cuba and Porto Rico.

We can lick 'em, and have done it, now quit.

Geo. B. Secord, the well known contractor of Towanda, N. Y., says: "I have used Chamberlain's Cough Remedy in my family for a long time and have found it superior to any other."

THE Attorney General of Ohio has for some time been fighting the Standard Oil Company and trying to bring it within the pale of the law of that State.

"Attorney General Monnett shows from official figures that the uniform cost of oil per barrel to the Standard Oil Company is twenty cents, and that in three years the raw material cost them \$9,747,247.

"Before the millions of this remorseless monopoly the courts have stood powerless. Legislatures have become corrupted and officials have grown careless.

It's Easy To Take

Thin, pale, anemic girls need a fatty food to enrich their blood, give color to their cheeks and restore their health and strength.

is exactly what they require; it not only gives them the important element (cod-liver oil) in a palatable and easily digested form, but also the hypophosphites which are so valuable in nervous disorders that usually accompany anamia.

SCOTT'S EMULSION is a fatty food that is more easily digested than any other form of fat.

SCOTT & BOWNE, Chemists, New York.

ask: 'What are you going to do about it?'

"Attorney General Monnett has refused a bribe of \$500,000 from the oil monopolists. He contends that there is abundant law in Ohio to wipe them off the face of the earth."

We do not suppose that the Standard Oil Trust is any worse than any other Trust which has an absolute monopoly. It differs from others, perhaps, in the fact that its product costs it less, and with its immense sales, its profits are enormous.

Rev. E. Edwards, pastor of the English Baptist Church at Minersville, Pa., when suffering with rheumatism, was advised to try Chamberlain's Pain Balm.

Only those who dwell where there are mountains without valleys experience joys without sorrows.

I have been afflicted with rheumatism for fourteen years and nothing seemed to give any relief. I was able to be around all the time, but constantly suffering.

DEATH AND BURIAL OF WORTH BAGLEY.

Beneath a flag of flowers fair Our mortal Ensign lay, A victim of the flagrant shell That blew his life away.

The first to shed his precious blood That Cubans might be free, It fell upon the Winslow's deck And ran off in the sea.

His dust dissolved in laments And strewn by nature's art, Absorbed by plants and flowers and trees, Of each becomes a part.

At last upon the farther shore He mans a boat of gold, Upon a sea of sparkling wine, The nectar of the soul.
