CHILDREN NOT WANTED.

BY MRS. JEFFERSON DAVIS.

New York World.

VOL. XI.

The immense wealth now concentrated in the hands of a few families, in conjunction with the desire of the many less favored ones to vie with those more fortunate, has set the standard of luxurious requirement so high in New York that the home as it is remembered by so many of us is almost disestablished. It was a separate domicile, set in an ample yard, not to say grounds, from which all strangers were excluded except as invited and temporary guests. Now it only exists, in a metropolis, for the very rich. The great mansions of the city's less populous days are utilized to accommodate boarders by those who have narrow incomes. In the crowded cities these are the refuge of people of moderate means to some numbers there. In these caravansaries be wonderful in a generation, but he people are crowded into a few rooms,

the other occupants. There is a certain comity among the lodgers, especially where the partitions are thin and the space very circumscribed, which enforces the duty upon each family to see to it that their neigh-

bors are not disturbed or inconvenieced, and therefore the family must be quiet. A crying child, and gener-ally an ill child does cry, will upset a whole floor full of ordinarly 'rindly, considerate people. Consequently the landlord or janitor of the suite is sorely put about. When one enters the door of the department house, and generally in the more luxurious of them, the first question asked by the suave agents is: "Haye you children in your family? We do not lease to families with children.'

Perhaps there is a placard on the door to save the proprietor trouble, announcing: "No children or dogs taken;" or if the children or lodged. "Children and dogs not allowed in the halls." The buildings can be filled easily with childless couples, they say, and tenants who have no children of their own do not want be annoyed by those of other people; besides, children are destructive to furniture, carpets and walls. In some of the poorer tenements, copying the fashion of the batter lodging houses, where there is a miserable oilcloth only on the floor, one reads: "Children not allowed to play in this hall." Indeed, in many a home there is a sign invisible, but none the Children, like the lepers of old must keep aloof from every one except their own family, and in many cases these find them burdensome. It is an awful charge to bring against modern civilization that it is not making proper provision for the coming generation. Once, in a similar state of society, children were a precious possession prayed and longed for, a sacred trust, a Godgiven well spring of joy and hope in the home, but now they are to some extent considered a nuisance, an affliction and to be avoided if possible, and if not, to be merely tolerated. The hotels reject them, so do the boarding houses and renting agents, and the rents demanded for a detached entire house, taken in conjunction with the increasing difficulty of getting servants and the very condemn the poor little Ishmaelites, whether their parents desire it or not, tion of crime unless they be guarded to a joyless future in the pent-up apartments of lodgings.

in the splendid equipages which roll by in endless succession. Very often there is a dog, sometimes one of considerable size, on the seat with the mistress, but very rarely a child. I do not know whether it is unfashionable to take children or whether it is considered better for their health to walk.

I heard a bright, devoted girl one day say to her mother after being unavoidably separated for many years from her: "If my judgment had not approved of you after seeing so little of you in my childhood, I could not have loved you and been your friend as I am, for all sense of your motherhood had died out of my heart.'

Mr. Robert Dale Owen from his large together in rural hamlets, where they should be attended by nurses not of extent, but more frequently apartment their own blood-a kind of co-operative speech. remedial plans as unpractical, but alas, to formulate a practicable one is much more difficult. There is a certain virtue in having attempted, if in vain, to

THE COTTON ACREAGE.

The Agricultural Department Puts It Bown as 25,558,000 Acres, an Increase of 2,036,000, or 8.7 Per Cent.

WASHINGTON, June 11 .- The statistician of the Department of Agriculture estimates the total area planted in cotton at 25.553,000 acres, an increase of 2,036,000, or 8.7 per cent. over the productive area of last year. He estimates the increase at 7 per cent. in South Carolina and Alabama; 8 per cent in Texas and Georgia; 9 per cent. in Louisiana and Tennessee; 10 per cent. in North Carolina, Mississippi and Arkansas; 15 per cent. in Indian Territory; 18 per cent. in Oklahoma; 25 per cent. in Virginia and 27 per cent. in Missouri. In all these States the increase is more or less localized, being least where the production of cotton is the most dense and greatest in those regions where cotton growing has hitherto been less extensively engaged in and where physical conditions are not in all respects the most favorable to its production.

In general the increase has been restricted by the scarcity of labor, the high price of seed, the enlarged area in fall-sown crops, and in certain sections by exceptionally unfavorable weather conditions. Along the northern border of the cotton belt, land from which wheat has been harvested is being hurriedly planted in cotton, but the American amount is relatively considerable aud allowance has been made for it in the estimate.

The average condition of the growing crop on June 1, was 88.5 as compared with 85.7 on June 1 of last year, 89.0 at the corresponding date in 1898, and 87.1 the mean of the June averages of the last ten years. A condition of 82.5 "One time I was walking through the is with one exception the lowest June o'clock at night and darker'n the inside June condition in 26 years and 16 points below the 10-year average. South Carolina, Alabama and Tennessee are 2 points and 1 point respectively, below their 10-year averages. On the other hand Louisiana reports 1 point, North erages.

book contained all the words in the clares that he is very near to every one world, but by and by we found out that of us. I recall some verses that come

A parish priest of Austerity Climbed up a high church steeple To be nearer God, and from there hand down His word unty His people. When the sun was high, When the sun was how, He sat unheeding sublinary things, And with the Lord was ever pleading. Now and again when he heard the creak Now and again when he heard the creak Of the weather vane a turning, He closed his eyes and said : "I know From God I now am learning." His plous thoughts he daily wrote, Thinking that they came from heaven: He dropped them down on his people's heads Twice every day in seven.

In his old age God called and said : "Come down and dle," And he orled from out the steeple, "Where art thou Lord ?" And the Lord replied : "Down here among My people."

That is a beautiful hymn that Mrs. Thee," and it would grieve me to have was a very pious and gifted woman, though she was a Unitarian. Complaint has been made that the hymn ignores the trinity, but it was founded on the story of Jacob's dream and there is no trinity in that. Let it stay there. Dr. How, Mrs. Prentiss and Mr. Charles Robertson have three others close by on the same subject that have the same meter and enough of trinity to satisfy anybody. Many of the most beautiful hymns in our collection were written by non-Protestants and non-professors. Some of them are by Roman Catholic priests and some by Tom Mcore, who was said to be the most licentious noet in all England and did not belong to

hymns and among them is "Come Ye out?

Confederate Veterans Appeal to State School Boards for Impartial Histories.

COLUMBIA, S. C., June 8 .- The state poard of education met this evening to adopt a standard by which bids shall be made in September, when books to be used in the public schools for a period of seven years will be selected and contracted for. General C. R. Walker, commander of South Carolina Veterans, appeared before the board under appointment of Generals Gordon, commander, and Lee, chairman of the historical commission, to make this fight for veterans for the use of fair and impartial histories. Funds to carry on this fight were provided in Louisville and General Walker's entire ti.ne will be devoted to this work.

Governor McSweeney, chairman of the board, specially invited General Walker to address the board. He forcibly and eloquently presented the subject. General Walker did not advocate any special histories, but explained the principles which should characterize the books to be adopted and urged that any not so written be not used in the schools. He urged that the ciety differs little !
