THIS Legislature has solved the public school question and has kept and Mr. J. C. Thomas, of New York City, the promise made by Democratic tian Advocate, and 18 valuable pumphlets. of it, campaigners last year that four All these donations are very valuable, and months public schools would be provided in every district in North Carolina. It has increased the regular school tax from 18 1-3 cents to 20 cents on the hundred dollars valnation of property. It has made an extra appropriation of \$100,000 a year to be divided, percapita, among the school children of North Carolina, and another \$100,000 to be divided only among the weak districts. Every district which receives less than \$100 from the regular school tax and the extra \$100,000 divided on a per capita basis, will receive from the second \$100,000 enough help to make the full amount \$100. Calculating the pay of the teacher at \$25 a month, this will give a four months school to each district. As nearly all the schools in the towns will get \$100 or more without drawing from this last fund, it will be distributed entirely in the country districts and will be sufficient to bring all schools up to the four months mark. This is a good idea. And it is so simple and practicable that we are surprised that it was not thought of before. We congratulate Mr. Smith, Representative of Gates, whose plan it is.
