Single Copy, 5 Cents.

VOL XII.

Thou, too, sail on, O Ship of State!
Sall on, O Union, strong and great!
Humanity with all its fears.
With all the hope of future years;
Is hanging breathless on that fate!
We know what Master laid thy keel,
What Workman wrought thy ribs of steel,
Who made each mast, and sail, and rope,
Whot anvis rang, what hammers beat,
In what a forge and what a heat
Were shaped the anchors of thy hope!
Fear not such sudden sound and shock,
'Tis but the wave and not the rock;
'Tis but the wave and not the rock;
'Tis but the flapping of the sail,
And not a rent made by the gale!
In spite of rock and tempest's roar,
In spite of faise lights on the shore,
Sail on, nor fear to breast the sea!
Our hearts, our hopes, our prayers, our tears,
Are all with thee—are ail with thee!

—H. W. Longfellow.

FROM "THE BUILDING OF THE

SHIP."

THE ONE THOUGHT.

We have most of us heard of that sweet wedder bliss—
Of two hearts that are beating as one,
And two souls with a single thought scaled with
a kiss—
And have wondered, perhaps, how 'twas done.

But to those who have been by experience taught. This effect is not hard to explain;
For in most of the cases that one "single" thought.
Is—"I wish I was single again!"

"I KILLED YOUR BROTHER,"

The late Edwin Booth and Lawrence Barrett, says Success, were close personal friends of Stuart Robson. During the "off" season of affairs theatrical Robson often entertained his distinguished colleagues at his summer home on Long Island. On one such occasion the trio after dinner took their seats on the piazza, when Booth, as usual, lapsed into silent reveie, while the others began to relate stories anent professional experiences. Finally the conversation turned on "dead-heads." Robson had just finished an especially funny tale about one of these managerial bete noirs, when the voice of Booth

was heard thus: "I think, gentlemen, that I can give you an anecdote about one of the tribe that is probably unique."

"Let's hear it, Edwin, by all means,"

said Barrett. Booth fixed his somber eyes on the sunset and began: "It was during the first visit that I made to the South after the close of the Civil War. We were playing in a little town in Alabama. In my mail one morning I found a

letter which ran somthing like this: DEAR SIR: My wife and self have always been great admirers of you. We want to see you play very much, but cannot afford to buy our tickets. Will you please send us a couple of seats? I am sure you will not refuse this request when I tell you that I am the United States soldier that shot and

HOPE FOR CONSUMPTIVES.

A New York official has recently made a report, showing what is being done for consumptives by the different been established in the last few years for the treatment of consumptives.

with a capacity of 5,000. England has probably 3,000 beds for consumptives in her various sanitar-

iums for their benefit. In France about 2,800 beds for tuberculosis subjects existed when the have been built or are being built, while the French government is about completing a sanitarium at Agincourt at an outlay of a million francs.

Five sanitariums have been established in Russia, under the leadership of the Czar, and a number are under

In Italy, in Norway, in Denmark, in Sweden, in Switzerland, Austria, in Hungary, Poland, in Spain, in Portugal, in Holland and in Canada sanitariums for the treatment of consumptives have been established.

In the United States the national government has established sanitariums n New Mexico for the treatment of tubercular marine hospital patients, and for consumptives of its army.

The state of New York has at present 10 sanitariums for consumptives under private management, and one projected sanitarium to be supported by the state.

They have an aggregate of 600 beds. Of the above named 10, three are situated in the city of New York.

The board of estimate and apportionment appropriated for these three institutions in 1901 \$70,010. Of this amount the Seton hospital, Spuyten Duyvil, received \$30,000; St. Joseph's hospital, 143rd street and St. Ann's avenue, \$34,010, and the Brooklyn Home for Consumptives, Kingston avenue, Brooklyn, \$6,000.

The state of New York appropriated \$50,000 during the last session of the legislature for the hospital site, and is asked to appropriate \$100,000 during the present session of the legislature

THE PENSION LAW.

Raleigh Post.

The rush, we may properly call it, which occured in every county in the states and nations. He says that in State on Monday of those desiring to take advantage of the new pension act can truly be said to have been pathetic. Under the old law the rolls contained the names of something over 5,000 soldiers and widows. The new law is popularly supposed to have removed all restrictions and provided for every one who served as a soldier as well as all widows of soldiers. The result was present movement began, and sanitar- that a number were rejected by the exums in nine of the cities of France amining boards, much to their disappointment.

Certain disabilities must still be shown to entitle a soldier to get on the roll, and these are "to be incapacitated for manual labor," and to be "now disabled from any cause to peform manual labor." All who have lost limbs. one or both, are entitled to a fixed sum, but only others who lost an eye in the service, or who "from any cause" are totally incapacitated or are unable to perform manual labor" are entitled to a pension. Those "able to peform" manual labor are not entitled to a pension. This should be understood by all, as it is only to those coming within the terms mentioned whom the county boards can place on the list. From the best information as yet obtainable there must have been between 15,000 and 20,000 applicants-soldiers and widows-throughout the State, and it is thought the number admitted will

quite double that heretofore pensioned. We wish the State was able to give a good pension to every soldier and widow of a soldier, enough to assure them of at least the comforts of life. As it is, however, only those totally or materially dependent can be provided even the pittance now appropriated.

Western Preachers Keep Cool and Expound Scripture. St. Louis Dispatch

Rev. James N. Crutcher, pastor of the Compton Heights Christian Church in St. Louis, appeared in his pulpit Sunday night in a white shirt waist and preached on "Fads in Religion" to a congregation composed largely of coatless men and hatless women.

This departure from the old form of starched shirts and coats and heavy hats was for the sake of comfort and to keep up the attendance of the congregation during the hot weather. The church, which is at St. Vincent and California avenues, has a large auditorium with great windows on every side. Ordinarily it is cool and has proved inviting to large congregations in warm weather. But the sweltering heat of the last few weeks has been discour-

The pastor, who is 26 years old, believed that the only way to hold his congregation was to make the people comfortable. So he announced that Sunday night he would appear in a shirt waist. He invited men to attend in the same attire, and women to come without their hats.

Sunday morning a number of young men were in the congregation in shirt waists. They appeared so cool and comfortable that in the evening all the men in the congregation followed the example. A number of women with their hair dressed in attractive modes sat with their hats in their laps and several came bareheaded.

Before the pastor appeared in the pulpit there was an increasing hum of discussion on the innovation. Everyboly watched the entrance to see who would be the next to take advantage of the invitation. At first a few old men came with their coats on. But one of them, failing to find comfort in a fan, removed his coat. He was followed by the others. Then the young men came, more than had attended any evening service at the church for several weeks, in pretty shirt waists. As the congregation grewit became evident that everybody in it had yielded to the

At the morning service several of the older male members said they disapproved of the idea, but when they saw the increased attendance in the evening they expressed themselves as satisfied that the shirt waist plan was a good one.

A record prepared by the American Wool and Cotton Reporter shows that textile mill construction during the considerably greater than the last half of the preceding year. During the first half of the year 1901 the number of new mills constructed or that are intended to be constructed amount to 261, a gain of 37 over the last six months of 1900. Of the 261 mills, 143 are devoted to the manufacture of cotton, 35 to wool, 58 to knit goods, hosiery, etc., and 25 to miscellaneous purposes, such as silk, linen and jute manufacturing and bleaching, finishing, etc. North Carolina leads with 45 new mills and Georgia comes next

Tuesday Maud Strickland, 14 yearold daughter of a farmer living near Smithield, Johnson county, was outraged by a negro, Jim Bailey, as she was returning from the field where she had taken her father's dinner.
