WHEN farmers prosper other people prosper, and when the farmer fails other people fail. The farmer is the bed-rock on which all prosperity rests, for he must feed all; and we believe that whatever tends . to the farmer's interest ought to be encouraged and promulgated. The Smithfield Herald insists on farmers sowing small grain, and shows clearly why it is wise for them to do so. It costs less than other crops and comes in good time. The following paragraph is the conclusion of the article referred to :

"If you sow grain you have a good summer pasture for hogs, cattle, horses and mules after the grain is cut. This pasture comes in at a time when there is nothing much in the woods for stock. If you follow your grain with peas you can greatly improve your land and raise from the pea vines much feed for the winter. If you do not plant peas after your grain or pasture on the land you can his son-in-law, Mr. George W, Mills, while generally get a good crop of crab the two were in Mr. J. W. Capps' grocory grass hay. Rye should be planted at once and it will very soon be time Bell was hindered from firing a second to sow wheat and oats."

Ballast and Freight Collide. Dense Fog and Flagman's Mistake

the Cause.

## Cor. News & Observer.

Aberdeen, N. C., Oct. 12 - There was another wreck on the Seaboard this moraning about 8 o'clock near to and south of Aberdeen. It was a head-fail-end collision. A regular freight, behind time, run by Engiueer Johnson, was running north and was met by the ballast train, running sonth. The caboose and three baliast cars were utterly destroyed and engine 425 was strip. pad. The front of the engine was crushed to pieces, smokestack, sandbox and whistle swept off, cab crushed back into the tendar, and the rear wheels of the front truck jumped the track. No one was hurt.

Engineer Johnson, when some distance from Aberdeen, picked up the flagman or the ballast train, who told him, he says, that the ballast train was working to the north of Aberdsen. This was a mistake, for the ballast train was south of Aberdeau, or at least had come south of Aberdeen. Ho proceeded with usual caution but so dense was the fog that he didn't discorn the ballast train, which was moving backward at a good speed, until he was right upon it, He, however, succeeded in bringing his own train almost, or quite, to a standstill before the collision. The engineer of the ballast train did not see the treight at all. The occupants of the engine and caboose saved themselves by jumping.

It is not known where the bause is to be fixed. The track was soon cleared and trains

were delayed not more than two hours. H. A, CHAPPELL.

#### Women of the Harem Compound a Potion Whose Rejavenating Effects are Almost Miraculous and Astomshed the Most Skeptical.

The fondest hopes of ancient or modern seekers after the Fountain of Perpetual Youth, can searcely have aimed higher than the results achieved by the marvellous compound, known throughout the East as EL MOKBIR.

Travellers returning to Europe have, from time to time, brought astonishing tales of the rejuvenating effects produced by this Wonder of the Orient.

Credely compounded by the Women of the Harem, from formulas handed down orally from coneration to generative, the secret of this prepara-tion thus jealousy guarded and enswer only to the inmates of the Barem and the Court Physicians, EL MOKBER has been practically unobtainable, excepting by the favored once for whom it was intamping.

Recently, however, a prominent native Arabian Paysham, banished from his country for political diamo, and deprived of his vast possessions, has valled himself of his longatedee, to naru a lively, hood bentuing this station, by supplying this mutveltous compound, EL MORBER, to the nobility and wealthner classes of all Europe, who have cheerfully paid him large fees in return for the betellis received.

Content with the large income derived from this practice, this aged Physician has repeatedly refused very liberal offers made to him for the formula of his Remedy, but he has fivally agreed with the importing house of THE NOTES-FULLER COMPANY, of Philadelphia, to put R up in convenient form for sule exclusively in the United Stares, and this firm having the exclusive agency, now offers it for the first tim- to the American public.

Furthermore, to everyone who fails to win one of the 1901 prizes there will be paid an extra commission on subscriptions, provided they equal one out of every two hundred inhabitants of the town from which the co testant sends them.

This is altogether a very liberal offer, and one which the famous old Delineator is well able to make good. From our point of view, we do not see why such an offer needs to be made by the Publishers of The Delineator, for we believe it already has nearly half a million. subscribers. Its strong hold upon the affections of American women has come in the past generation, from its practical advice about dress details and home matters.

## PROSPERITY AND THE FAR-MER.

One of the most magnificent facts this year is that you hear no farmer crying hard times. All through the year they have been prosperous, and plentifully provided; they have determined and they are working for their good. They are selling their cotton and tobacco for a very good price. We all know cotton is not as high as every one would like, but are contented with the price. Tobacco was never higher, There pever was a time when our farmers could get almost their own price for this product.

It is a contrast most remarkable to what we were accustomed a few years ago. Everything the farmer has for sale is meeting with a ready sale and at a good price, and the supply is not filling the demand. For example, eggs from 15 to 20 cents per dozen, sweet potatoes one dollar per basitel, chickens not less than 30 cents, hog meat and lard 10 to 12 1 2 cents. These are some of the prices at present, and any other article the farmer has to sell is equally on a high basis.

Surely, the farmer is contented this year, as there is no cry of hard times, but a year of prosperity. Only a few farmers will have to buy supplies this season, and so far we have not heard of one who will be thus unfortunate.-Washington Gazette-Mersauger.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. 'The proprietors of Dr. King's new Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great modelue ; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the Throat, Chest and Lungs are surely cured by it. Call on Spruill & Bro., and get a free trial bottle. Regular size 50c. and \$1.
