

Consumption

Salt pork is a famous old-fashioned remedy for consumption. "Eat plenty of pork," was the advice to the consumptive 50 and 100 years ago.

Salt pork is good if a man can stomach it. The idea behind it is that fat is the food the consumptive needs most.

Scott's Emulsion is the modern method of feeding fat to the consumptive. Pork is too rough for sensitive stomachs. Scott's Emulsion is the most refined of fats, especially prepared for easy digestion.

Feeding him fat in this way, which is often the only way, is half the battle, but Scott's Emulsion does more than that. There is something about the combination of cod liver oil and hypophosphites in Scott's Emulsion that puts new life into the weak parts and has a special action on the diseased lungs.

A sample will be sent free upon request.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Religious services were conducted at the County Home last Sunday afternoon. It strikes us that with five churches in town services could be held at the Home every Sunday.

Emanuel Leary, a colored man of this town, became suddenly demented on the subject of religion on Tuesday. He was found in a swamp late in the evening and taken to his home.

The scratch of a pin may cause the loss of a limb or even death when blood poisoning results from the injury. All danger of this may be avoided, however, by promptly applying Chamberlain's Pain Balm. What's the reason Plymouth people can't build a tobacco warehouse where the farmers can sell their tobacco, instead of taking it elsewhere? It would be a big financial help to the town; a great convenience to the farmers, and a paying investment to the parties owning the house.

A drunken man, white or colored, visited the home of Capt. Rice Monday night and frightened the inmates by monkeying with the blinds. We have heard of two or three such occurrences recently, and it ought to be stopped. A gun properly used might have the desired effect. It seems these

offenders select homes where the man of the house is absent.

A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. But Bucklen's Arnica Salve had no trouble to cure him. Equally good for Burns, Bruises, Skin Eruptions and Piles. 25c at Spruill & Bro's store.

Tendency of the Times.

The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is announced that the patient has pneumonia. Be on the safe side and take Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by all druggists.

Matrimonial history often begins where a romantic courtship ends.

Although men believe a great many things they know but few.

A Most Fatal Gift,

Would be the power of foreseeing events. This would destroy hope. A knowledge of the future would unmake happiness. There are, of course, some things about the future we do know. If, for instance, a lack of energy, ambition and loss of appetite shows itself we know it will be followed by serious complaints if not checked. Often Liver and Kidney trouble follow quickly. In any event Electric Bitters will restore you to health. It strengthens, builds up and invigorates rundown systems. Only 50c. Satisfaction guaranteed by Spruill & Bro.
