YOUR CHILD. SEND REN TO SOHOOL.

The Necessity of an Education Was Never so Great as Now-A Duty Every Parent Owes His Child.

The Gold Leaf would impress upon every parent the duty they owe their children in giving them an education, or rather we should say allowing them the opportunity of acquiring it. By this is not meant a collegiate education but a fair business education such as will fit him for the duties of life, and such as can be acquired in our public (free) schools. The necessity of education -being able to read and write and "figger"-was never so great as now. The following article from the Troy Star applies to parents of Vance and every other county in the State as well as to the parents of Montgomery county. Read it and consider well its words and act accordingly-if your children are not already in school:

"The busy season of the year is over, so there is nothing to keep the children from attending sbhool. No parent can afford to keep his or her large number who do not attend.

old after 1908 cannot vote under the laws of this State unless he can read and write, and this fact alone should appear to the parents of North Carolina the necessity and importance of keeping their children in school. The State has made that requirement and has made provisions for you to meet it. Are you going to accept the opportunity and meet the requirements?

"But there is a still higher motive that should be considered when it comes to the question of educating the boys and girls of our land, and that is preparing them to fight the battle of life that stares them in the face. The illiterate class that is cast upon the world at the age of 21 cannot hope to be any more than slaves to the intelligent class. There never was a time when such a premium was placed on education as it is at the present time.

Freedom of Speech is One Thing; Foolishness of Speech is Another.

Maybe Its A Blessing.

Heaven be thanked, we have no college professors in Virginia who are devoting themselves to harmful racial agitation! If the heavily endowed private college implies the fastening of incendiary theorists upon Southern communities, then we are glad that Virginia has no weaf thy institutions of learning like Trinity College. Maybe its a good thing for Virginia, after all, that most of her colleges are dependent for a living upon the business of teaching .- Norfolk Landmark.

This Sewing Machine

HOW WE DO IT.

To every person, no matter where they live, who pays us One Dollar on Subscription-either old or new patrons are open to this-we will give a numbered ticket. These tickets have been numbered from oor to 500, inclusive-three figures on each.

One blank ticket was sent to Hon. John H. Small, at Washington, D. C., who has placed thereon some one number of 500 or less, sealed it in three envelopes and sent it to Mr. Clarence Latham, Cashier of the Bank of Plymouth, who has locked it up (with the seals unbroken) so that no one except Mr. Small, who will not divulge it, can know what the number is.

When the 500 tickets have been disposed of Mr. Latham, in the presence of two other responsible men, will break the seals and acquaint us of the number. We will then publish the same and the one holding its duplicate will receive this beautiful and useful piece of furniture, absolutely FREE!

This is no cheap, bargain-house machine, but is made by a reliable firm who have been making them for thirty years; is well made and has a full set of attachments, and is listed at \$60.00.

Get up a club of five, and in addition to giving a ticket to each of them and sending you the paper, we will give you two tickets for your trouble.

Some one will surely get this handsome machine. Why should it not be you?
