VOLCANOES IN MARYLAND.

Prove to Be the Oldest Rock Formation in the United States. Prof. Philip R. Uhler gives an ac-12 - Baltimore American. Three peaks, the principal one named Buzzard's Krob, crown a plateau about six miles it n the city. It was for Prof. Uhler to discover that the three prominences are in fact volcanoes, and that they are the very oldest type of volcanic

rouk that is found in the United States. These peaks are of a different form iron volcanoes like Vesuvius. In the latter form of volcano molten lava and stones are forced up by superheated staam, leaving a deep hole, but in these craters in western Maryland the whole mountain was originally in a molten condition and the top crust was torced upward in a dome-shaped form, and such lava as did escape was forced out in venus at various places. The volcanic rock of the region is metalbearing, and speciments of gray, green and gold copper were found by Dr. Utilir. The domes of the craters were comewhat el'iptical in shape.

# Grip Quickly Knocked Out.

Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily develand into the worst kind of la grippe with il its miserable symptoms," says Mr J S. Egleston of Maple Landing, Iowa. 'Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with al-ternate spells of chills and fever. We began using Chamberlain's Cough Remedy, iding the same with a dose of Chamber-

# DRAINING THE EVERGLADES.

Vest Areas In Florida Becoming Available as Garden Land.

The department of agriculture is specially interested in the project now on foot of draining the Everglades. These half-flooded swamps to the south of the huge pond known as Lake Okeechobee are to be converted into dry and productive land by constructing dikes and pumping out the water-an achievement which, when carried into effect, will bring about the shipment, a dozen years from now, of immense supplies of tomatoes, new pointoes, cabbages, string beans and other fresh garden produce to northern markets all through the winter.

It has even been suggested that Lake Okeeochobee might be drained by con-. necting it with the Atlantic ocean by a canal 50 miles long, thus redeeming 500,000 additional acres of first class farming territory .- Outing Magazine.

A Certain Cure for Croup. When a child shows symptoms of croup

there is no time o experiment with new remedies, no matter how highly they may be recommended. There is oue preparation that can always be depended upon. It has been in use for many years, and has neverbeen known to fail, viz; Chamberlain's Cough Remedy. Mr. M. F. Compton of Market, Texas, says of it, "I have ased Chamberlain's Caugh Remedy in severe count of a discovery which he made in cases of croup with thy children, and can the western Maryland mountains, says truthfully say it always gives prompt rehef." For sale by all druggist .

> Japs the Yankees of the East. The Japanese traders, omclais, solaters and workers are pushing irresistibly into Manchuria, and now that the war is ended the Yankees of the cust will guide and instruct the Chinese and dominate them and their markets. It seems likely that, wilnout any Chinese boycott whatever, American industry will be put to the test to compete on fair terms with the Japanese before many years have elapsed .-- Philadelphia Ledger.

The children's jubiles of good health follows the use of Bee'e Lexative Honey and Tar, the cough syrup that expole all cold from the system by acting as a cathartic on the bowela. A cartain remedy for Cronp Whooping Cough and all lung and bronchial affections. Sold by Skiles & Son and P F. Davenpert & Co

### England's Best Known Church. The name of St. George's, Hanover square, seems to be well known to every American who comes to English, says the London Chronicle, not so much because it is the fashionable "marriage church" in this country, as because President Roosevelt was married in it. A few years back an Ama.ican dropped into the vestry and looked up the marriage register, in which, under the date of Dec. 2, 1886, he found ain's Stomach and Liver Tablets, and by the signature of "Theodore Roosevelt, its liberal use soon completely knocked out 28, widower, ranchman," and that of the grip." These rabiets promote a healthy "Edith Kermit Carow." Till then even the clerk, J. Molcey, did not know that

Large English Familles. A report of the awards made by the Lincolnshire Agricultural Society to farm laborers who bring up the largest families without having received parochial relief shows that eight men are fathers of 124 children. One of the men had 20 children born, brought .... 17, and placed 12 out in the world. London Tit-Bits.

London's Consumption of Ice London uses if one way or an quite 200,000 tons of ice a year. though a great deal of ice is made ficially, most of that consumed -- natural, and Norwegian. The gian ice crop in an average varies from 500,000 to 600,000 least half of this comes to 1 Kingdom, the rest going to nent.-Tit-Bits.

# In Mountain Climbing.

The highest point at which climbers have stayed for any length of time is 20,992 feet, on the Himalayas, where an exploring party painfully stayed for six weeks in 1902. Higher still, at 21,910 feet, is the extreme point of Mrs. Bullock Workman's ascents, the greatest height reached by a woman. Mr. Bullock Workman kept on to a point 23,-\$58 feet high, which is the greatest height reached by any mountain climber. The altitudes reached by Mr. and Mrs. Bullock Workman were above those at which M. Eerson, the aeronaut, began his artificial inhalation of oxygen. At 26,240 feet the aeronauts in general begin the continued inspiration of oxygen, and neglect of this precantion was responsible for the death f MM. Croce, Spinelli and Sirel at 28,-:08 feet, and their companion, Tissandier, just escaping by a miracle.

Mount Everest, the highest point of the globe, is only some 700 feet higher, 28,995 fect, and 3,000 above that begin the cirrus clouds that are composed of spicules of ice. At \$5,424 feet is the highest point ever reached by man. This is the height attained by M. Ber-London Post.
