Courtship in Tibet.

Courtship, as conducted in Tibet. would scarcely arouse the enthusiasm of the modern-minded maid. Bargaining between the suitor and the father of the girl goes on for weeks, without any reference to the wishes of the woman. The requisite price having been paid, she is led to the house of her husband, where she is subjected to a severe beating, in order properly to humble her spirit, and made to run round the village loudly proclaiming the merits and valor of her husband.

Where Women Rule.

A remnant of the Sevis tribe of Indians inhabits the island of Tiburon, in the Gulf of California, and is ruled entirely by the women. Formerly the tribe numbered about five thousand, but is now shrunk to a few hundred, living a life of almost complete isloation, and refusing to intermarry with any of the Indians of the mainland. The woman is master of the household, and a council of matrons is at the head of public

Why Suffer From Rheumatism ?

affairs.

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will releive the pain ? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only, for a short releif from suffering have been linppily surprised to find that after awhile the relief became permanest. Mrs. V H Leggett of Yum Yum, Tennesser, U. S. A., writes, "I and a great sufferer from theumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will releive the pain.' For sale by all druggists

Mohammedan's Customs.

A traveler in the upper Tangtse provinces of China found recently in the town of Hinganfu many Chinese Mohammedans who keep up communication with their fellow religonists of Arabia. A missionary who has lived among them for years declares that they are very quarrelsome, much given to boasting of their Turkestan origin, and, in spite of the prophet's injunctions, drink a great deal of wine. This is usually the case with Chinese Mohammedans.

Bribery in Business.

Bribing employes who act as buyers for mercantile houses or who as salesmen attend to customers in retail shops, especially in the great department stores, has grown in Germany for some years and has caused many complaints in business circles. It has become so serious that the chambers of commerce and other mercantile bodies have considered it necessary to discuss measures for relief.

Postmaster Robbed.

G. W. Foats, Postmuster at Riverton, Ia , nearly lost his life and was robbed of all comfort, according to his letter, which says: "For 20 years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned. yellow; when my doctor prescribed Elecric Bitters; which cared me and have kept

Bathing in Berlin.

A Berlin landlord has not only sued a tenant for loss sustained through her excessive use of water for bathing purposes, but has promulgated the extraordinary theory that "no respectable woman takes a bath every day."

Poverty in Japan. Real destitution is rarely seen in Japan. Though some of its inhabitants are very poor, yet all seem to be fairly well fed, clothed and housed and are invariably cheerful. Nearly all the Japanese are of cleanly habits and rarely untidy.

Tollet of the Ant.

A naturalist has been making observations on the toilets of certain ants, and has discovered each insect goes through most elaborate ablutions. They are not only performed by herself, but by another, who acts for the time as lady's maid. The assistant starts by washing the face of her companion, and then goes over the whole body. The attitude of the ant that is being washed is one of intense satisfaction.
