Bishop Strange will visit our town and hold a series of services, beginning on Monday night, Nov. 1st, and closing on Sunday night, Nov. 7th. Bishop Strange is one of the ablest men in the State and a most pleasing and entertaining speaker, and our people should gladly welcome him to our town and not miss the opportunity to hear him. See schedule of services in this paper.

Homicide on Str. Luey.

On Tuesday morning as the Str. Luey, which boat is used as a transport between Edenton and the long bridge being built across the sound, steamed out of Edenton Bay, Jim Miller, a negro laborer, shot Engineer Christian McClure through the throat killing him almost instantly. As soon as the shooting occurred the steamer landed the murderer was arrested by Sheriff Norman and Policeman Smith and taken to jail.

It seems from what we have learned of the tragedy, that the negro entered the engine-room and on being told by the engineer that it was no place for him, he became very indignant and went out only to return in a few minutes with a pistol and open fire on the engineer with above result.

Prisoners Escape Jail.

On going to feed his prisoners on Sunday morning Deputy Sheriff, Everett was surprised to find the jail door open and his prisoners all gone, except the white man Patrick. There were only two others in, one for larceny the other for burglary.

Sheriff McAllister was notified of the escape and Sunday night he recaptured the one charged with larceny at Mackey Ferry, from whence he came, he had gone back to bid his sweetheart good bye, or to tell her about his visit to Plymouth, and he was surprised when Sheriff McAllister walked in and invited him to make his love-story short. The one charged with burglary is still at liberty.

It seems that the prisoners secured an axe in some way, no doubt it was given to them by a friend on the outside, as they had a string which they used to pull up tobacco and other things that people would tie on it, in this way they could, and no doubt did, secure the axe. With the axe they cut a hole through the floor, dropping through the floor to the room down stairs it was only a small job to knock off the locks and walk away.

It seems that every now and then prisoners will escape, if left in the rooms, and the only remedy we see is to use the steel cells which are there for that purpose.

BISHOP STRANGE.

GOOD NEWS FOR PLYMOUTH.

Bishop Strange has finally agreed to come to Plymouth this year, not for one day's visitation, but for a whole week. He comes to hold a Mission, beginning Monday night, Nov. 1st, and continuing through Sunday, Nov. 7th.

The following is the schedule of services with the subjects of sermons: Monday, 7:45 p. m.—SALVATION. Tuesday, 7:45 p. m.—FAITH. Wednesday, 7:45 p. m.—REPENTANCE. Thursday, 7:45 p. m.—BAPTISM AND CONFIRMATION.

Friday, 7:45 p. m.—CONVERSION. Saturday, 7:45 p. m.—HOLY COMMUNION. SUNDAY 11 a. m.—THE CHURCH. 3:00 p. m.—MEN'S SERVICE. (or Childrens.) 7:30 p. m.—CHRISTIAN LIFE

Besides the night services there will be daily service at 11 a. m., lasting three-quarters of an hour.

Subject of Sermons—SERMON ON THE MOUNT.—THE WAY TO HAPPINESS.

Here is an opportunity for Plymouth for an investment—for an investment in those forces which help to give a community the priceless gift of CHARACTER.—What will we do with it?

Bishop Strange is perhaps the greatest man who has ever agreed to come into our midst for so long a time with the sole purpose of doing us good. How will we receive him? Wm. J. GORDON.

The Bed-Rock of Success.

lies in keen, clear brain, backed by indomitable will and resistless energy. Such power comes from the splendid health that Dr. King's New Life Pills impart. They vitalize every organ and build up brain and body. J. A. Harmon, Lenoir, Va., writes: "They are the best pills I ever used" 25c. at P. E. Davenport's.

Taken To The Asylum.

Deputy Sheriff J. O. Everett went to Raleigh Wednesday to carry a Mr. Patrick to the Insane Asylum. Some months ago Patrick was sent to jail from Skinnersville township in default of bond, charged with threatening to kill one of his neighbors, his father entered a plea of insanity. An examination by physicians proved that the young man was mentally deranged, and ordered him sent to the hospital where, it is hoped, under the treatment he may be restored.

Does Farming Pay?

It takes nine pounds of cotton to buy one bushel of meal.

It takes two pounds of cotton to buy one peck sweet potatoes.

It takes three bushels peanuts to buy one bushel Irish potatoes.

It takes one, one-quarter pounds cotton to buy one pound pork.

It takes one one-quarter pounds cotton to buy one pound lard.

It takes over three pounds cotton to buy one pound butter.

It takes one and one-half pounds of peanuts to buy one pound flour.

It takes one and one-half pounds cotton to buy one pound ham.

It takes two pounds of cotton to buy one dozen eggs.

It takes two pounds of cotton to buy one chicken, (frying size).

It takes over two bushels peanuts to buy one bushel corn.

N. B.—It takes more time, more labor, more expense and more risk of low price and short crop to produce peanuts and cotton than it does to produce corn, wheat, eggs, chickens, potatoes, butter or pork.

If we produce the former we have to sell it at some price to get the necessities of life. If we produce the latter we can live on it regard less of price.

"Does Farming Pay?" is not the vital question to be answered by the farmer. The question is: Does it pay to produce peanuts and cotton with which to buy Western horses, corn, hay, meat and other supplies? It might have paid when peanuts were from 75c. to \$1.00 and corn was only 40c. to 60c., and meat 6c., but that time is past.

Letter to Jno. M. Bowen.

Plymouth, N. C. Dear Sir: North Dakota has a pure paint law and is branding the paint-manufacturers. Here's how one of 'em gets the hot iron.

Almost half of his "oil" is benzine and water: more than half of his "pigment" is whitening barytes and such.

Benzine and water dry-out in a few minutes and hours; they don't do any harm. Those "pigments" don't dry-out; and perhaps they don't do much harm.

Is that what paint is for; not to do much harm? Do you pay \$5 a gallon for paint and putting it on, not to do much harm?

The lead zinc and oil in that "paint" is a little less than half and the trash is a little more than half.

How many gallons, half trash and half paint, will it take to paint a 10-gallon job two coats? How many coats, half trash and half paint, will it take to cover? and which become of those pigments not paint?

And reckon the cost; you can roughly. Half trash, 20 gallons, \$5 a gallon, \$100; 10 gallons Devco, \$50. A gallon of trash or paint pay-in is \$5.

There's one Devco; there are 8 pure paints; and over 200 adulterated and 100 short-measures.

Yours truly

F. W. DEVCO & CO. P. S. J. C. Spruill sells our paint.

Money Comes In Bunches

to A. A. Chisholm, of Fredwell, N. Y., Nov. 18, 1909. His reason is well worth reading: "For a long time I suffered from indigestion, torpid liver, constipation, nervousness, and general debility," he writes. "I couldn't sleep, had no appetite, nor ambition, grew weaker every day in spite of a medical treatment. Then used Electric Bites. Twelve bottles restored all my old time health and vigor. Now I can attend to business every day. It's a wonderful medicine." Infalible for Stomach, Liver, Kidneys, Blood and Nerves. 50c. at P. E. Davenport's.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and muzzling fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headache, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary peptic "dyspepsia" tablets, physics, etc., are not likely to be of much benefit to you, in digestive ailments. Peptic is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee. Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know our guarantee is good. This offer applies to the large bottle only and to buy one in a family. The large bottle contains 2 1/2 times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.
