Receiver For Electric Line.

Mr. Charlie A. Scott, a prominent banker of Graham, was Saturday appointed by Judge J. Crawford Biggs receiver for the Burgrahaw Interurban Company. The petition was made by the holders of the bonds, the Interstate Construction Company of Richmond, Va., and the North State Realty Company, of Burlington. The receivership proceedings were brought on by the great number of suits against general and petty contractors who got behind in their payments for labor and material.

The company was chartered to struct an electric line from Burlington to Haw River via Graham, and after grading the track the entire distance, placing the ties and laying the track as far as Graham work was stopped last October. Since then nothing has been done toward completing the line. A prominent officer of the company stated that he believed the company through the receivership would be enabled to go ahead and complete the line. The power plant, located between Burlington and Graham, is about seventy-five per cent completed and it is believed that work will soon be renewed upon the line and the power plant and rushed to completion.

Rates to Rockingham Unsatisfactory.

That satisfactory through routes and joint rates between Rockingham and various points in South Carolina, not only do not exist, but are refused by the railroads, is the burden of a complaint filed Thursday with the interstate commerce commission. The complaint was instituted by the manufacturers' freight department of Rockingham, representing the cotton mills at that place against the Scaboard Air Line Railway, and the Atlantic Coast Line Railroad Co. It is alleged that the rates charged by the carriers on cotton piece goods from Rockingham to points in South Carolina are unreasonable and discriminatory. The commission is requested to require the railroads to establish through rates and joint rates and schedules of charges that are lower than the present rates.

Yaggman Leave \$150 in Church.

A mild sensation was created at Catawba Tuesday. While several ladies were eleaning and rearranging the interior of the Methodist church, they found a stack of papers which they decided to destroy. In removing it one of the ladies saw a package that she was prompted to investigate. An Atlanta Constitution and Asheville Citizen, bearing date of October, 1907, were unrolled, in the folds of which a large number of sheets of postage stamps, of several denominations (mostly 2c) were revealed. A count was made, and \$151.25 was the amount.

How the stamps got into the church is a puzzle; but the supposition is that some yeggman passed that way and slept in the building, accidentally leaving his booty or purposely hiding it. It is recalled that about 1907 robberies of country stores and small postoffices occurred. The find has been reported to the department.

Two Congressmen Nominated in Sixth North Carolina District-Godwin Faction "Independent" - Republicans Will Enter Field.

Wilmington, N. C., Special.-Because the chairman of the executive committee, and temporary chairman of the sixth district congressional convention in session here, refused to recognize delegates from New Hanover and Cumberland counties for the reason that they had been "appointed" instead of elected, in violation of the Democratic plan, it is claimed, the executive committee, during a recess of the convention, deposed the chairman and re-elected another chairman who admitted the delegates from the counties in question.

Osenr L. Clark, of Bladen, was nominated on the 143d ballot at 1:20 a. m. Friday, defeating Congressman Godwin and the other three candi-

The Godwin faction held a "convention" Friday morning and by declaring that Godwin should have eleven of New Hanover's votes and six of Cumberland's, nominated Hannibal L. Godwin of Harnett on the first ballot.

Supporters of Godwin declare that no matter who makes the race for Congress in this district H. L. Godwin will be in the fight and that no effort will be made to have the matter submitted to the State executive committee.

There is no doubt about the Republicans putting out a nominee and it now looks like a three-cornered fight. Godwin's forces declare that he can win out over the field no matter how many are in the race and in fact this declaration was made by J. C. Clifford of Harnett in placing Godwin in nomination.

The deputy surrendered.

Several days ago an attempt was made to effect the capture of the negroes but the arresting officer withdrew when they employed similar tactics to those of Thursday.

R. R. President Left Scandal. Chicago, Special.-Death came to Ira G. Rawn, president of the Monon Railroad, supposedly from a bullet fired by himself, but certainly on the eve of possible exposure as a central figure of what is declared may be one of the greatest railway scandals of the country.

Counsel for the Illinois Central Railroad when confronted with varbatim copy of questions and answers at a recent investigation of the company's affairs, admitted that the foundation had been carefully laid with intent to show Mr. Rawn as primarily responsible for years of crooked car contracts. His answers, however, had been stendfast denials of the implied charges.

Death in an almost unheard-of form waited for Laurence S. Baker, an 11-year-old Jacksonville lad, when he dived from a boat while in Lake Worth Thursday.

One of the barbed spines which this fish carries on its whip-like tail, pierced the boy's neck, cutting into the juglar vein. Such is the general alarm sent out by the police for the missing eashier of the Russo-Chinese bank, although, oddly enough, the district attorney's office says that no aid has been asked of it by the bank and that no application for a warrant had been filed.

But this contradiction is only one in a series that have kept step with every development of what is now admitted to be af once the most puzzling and the most serious defalcation in the history of Wall Street since Cornclius Alvord stole \$606,000 from the First National bank, served a term in Sing Sing and then retired to the seclusion of a princely country place.

When the Russo-Chinese bank first made public the fact that its strong box was short, the amount was given as \$80,000, all in negotiable bonds, a list of which was furnished. Monday afternoon the amount suddenly jumped to \$600,000, of which the additional \$520,000 is said to be in stocks partly owned by the bank and partly by its customers.

Virginia Ex-Mayor Assassinated.

Ridgeway, Va., Special.—Ex-Mayor A. H. Bousman was assassinated by a dynamite bomb, which was thrown Sunday evening. He died an hour after the explosion. No clue to the Friday with a finger nail growing identity of the murderer, or the cause of the crime, has been found.

On Census Returns South Gets Increased Representation.

NORTH WILL MAKE OBJECTION.

South's Population Figures Creating a Sensation-Presage Political Power and Importance-Probable Fight Ahead Between Sections.

Washington, Special.-The amazing growth in the South and Southwest already is becoming the sensation of the 1910 census.

Fifty-one counties in Texas show a population of 817,475 in 1910, as compared with 552,906 in 1900, a

gain of 46 per cent. This percentage maintained throughout Texas will mean a gain of 1,403,606 people in the State, or a total population of almost 4,500,-

For Nueces county the Census Bureau reported a population of 21,955 in 1910, as against 10,434 ten years ago, an increase of 110 per cent.

Knox county showed a 500, per sent advance, and Tom Green county close to 400 per cent. Returns from other States are scattering. Without exception, the

figures from Oklahoma and from the "Old South"-Louisiana, Mississippi Tennessee, Georgia, and Alabamarecord startling increases. On the present basis of represen- . tation in Congress, a member to every 194,000 of the country's population,

the returns from only forty-one counties entitle Texas to another member of the House. If the ratio of increase is maintained. Texas will get seven additional members, and have a delegation consisting of twenty-three. The scattering figures from other

parts of the South and Southwest, most notably Oklahoma, presage a like advance in political power and importance.

For this reason, talk of renewing the Northern demand for limiting Southern representation is becoming general. The Northern Republicans are practically sure to make another an agent of the Treasury, who will effort to pass a force bill, under which representation would be based upon the vote cast instead of upon the census returns.

A bitter sectional fight is sure to follow.
