Hints and Advice on Social Forms

For Music Pupils.

I want to give a little party to about ten little girls-music | pupils. Kindly give me some idea as to how to entertain them; some musical game and contest. Also what shall I serve? -

I enjoy your corner so much .--- L. G

I think the description of a musical party given below will assist you, and as the guests will be little people I am sure that nothing could please them more than to have ice cream and cake.

A MUSICAL PARTY.

This party was given for a class of young students about the age of 12. First they played musical "stage coach," after the same fashion as we all used to play it years ago, only each child was given a musical term and rose when his or her word was mentioned and turned around. The forfeits were redeemed by playing a piece upon the piano. Then they had a novel spelling

match upon the plano. The hostess said the tones would spell words, any one who could tell the tones in letters was to do so, writing down the words upon slips of paper. This was, of course, invaluable as an ear test. The tone combinations were played very slowly and repeated several times. The following were the words spelled: Bag, abe, abed, bad, abbe, ace, add, dad, bed, bead, age, be, aged, beef, beg, ebb, added, fag, fed, fad, deaf, fade, egg, cage, faded dab.

The prizes were candy boxes in the shape of musical instruments. There were ice cream and cookies for refreshments and to make fun the cookies were cut in letters, only the first seven being used, and the children had to tell the signature in sharps or flats of the key represented by the letter each took.

"What Would You Do?"

I have been having a great trouble with my girl friends. They are nearly all "angry" at me just because they say every young man they get to go with as soon as they meet me they loose them. Now, I don't intend to do this at all. I attend high school and have my own boy friend. But still this girl friend of mine refuses now to even speak to me. I miss her give up this young man to her, because I care more for a girl's friendship than a boy's, but to this she made tlemen with whom she has made ac quaintance while gone? AWONDERFUL HEALING INFLUENCE IN KIDNEY TROUBLES.

A year and a half ago I was taken with a severe attack of kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced it as stone in the bladder and prescribed Lithia Water. I took Lithia Water and tablets for some time and received no relief from them. I stopped taking medicines for some time and having some of Dr. Kilmer's Swamp-Root in the house, I decided to try it and felt much relieved; while taking the second bottle commenced to pass gravel, in all at least a half dozen or more and have not suffered the slightest since and in all have taken one bottle and a half and feel very grateful to Swamp-Root. Yours very truly,

Something the Matter, Anyhow. Little Harold lives in Broad Ripple. His mother got him ready for bed one cold night, and to be sure he would be warm enough during the night she took extra precautions, relates the Indianapolis News. After she had put on his little fuzzy pajamas she tucked him carefully in between the wool blankets. Then, to make doubly sure, she got a hot water bottle for him-and the youngster was apparently as snug as could be, with only his little nose sticking out from beneath the covers.

When his mother had finished the tucking-in job she turned down the light. Soon the entire family was in bed. But Harold is like most youngsters. He loves his mother, and wishes lots of attention. So in his child mind he figured out a way to get her to his bed.

"Mamma," he wailed, "I'm cold!"

"Nonsense, son!" replied his mother, and she never made a move to go to his rescue.

The little boy tried the opposite. "Well, I'm too hot, then!" he yelled.

Why Should a Chicken Lay a Soft-Shelled Egg?

Because, Willie, the chicken don't know how to create a hard-shelled egg unless it has some food with lime in it.

So chicken-raisers often provide limestone gravel, broken oyster shells or some other form of lime.

Let the chicken wander free and it finds its own food and behaves sensibly.

Shut it up and feed stuff lacking lime and the eggs are soft-shelled.

Let's step from chickens to human beings.

Why is a child "backward" and why does a man or woman have nervous prostration or brain-fag? There may be a variety of reasons but one thing is certain.

If the food is deficient in Phosphate of Potash the gray matter in the nerve centres and brain cannot be rebuilt each day to make good the cells broken down by the activities of yesterday.

Phosphate of Potash is the most important element Nature demands to units albumin and water to make gray matter.

Grape-Nuts food is heavy in Phosphate of Potash in a digestible form.

A chicken can't always select its own food, but a thoughtful man can select suitable food for his children, wife and himself."
