

**IN-LITCHFIELD.**

uesday evening, Feb. 4, at the Episcopal Church, well, was the scene of a beautiful marriage when Anne Swain became the bride. Mr. Henry Litchfield, Jr. of the Church was beautifully dressed with white and ever-remembered with lighted candles were a series of arches in the central aisle. Before the appointed hour the ceremony the Church was roughly packed. At 7 o'clock, as the sweet strains of "O Perfect Love" were heard from the Church under the gentle touch of Cecil Spruill, the Choir marched from the vestibule and marched up the green arched aisle. Before the second part of the party entered, with the Eborn of Belhaven, at the organ, Mr. Raynes, in a very impressive manner sang "O Promise Me Strains of Lohengrin's march pealed forth. Harry Walker and Cecil Spruill of the four chosen were the first to start on the white covered path. Then came the next two Messers Will Alexander anderson Norman followed little maidens, Misses Holmes, Ruth Sexton Swain and Elizabeth beautifully adorned in white, bearing the ribbon of the bride-elect. Mrs. Hardison beautiful in white charmeuse with pearls and handkerchiefs with train, carrying the white her attendant, Griffin of Woodland, led up the right aisle. She followed by Miss Nell and Mr. Edgar Miss Elsie Swain sister and Mr. Roy Litchfield of the groom, each in reverse order to the Miss Snell was pink messaline with pink carnations. Miss dressed in pink messaline with pink carnations. Thompson, maid of honor in white marquid in pearls over pink with train, and carrying white roses, marched enter aisle. enter were the little Misses Louise Phelps Woodley. ## Quality and Prices.

Don't fail to call when in town. All lines more complete than ever. Satisfaction guaranteed on every deal or money back.

## CLYDE CAHOON,

## Labor-Saving Cole Planters and Distributors THAT EVERY FARMER NEEDS

Every farmer in this section should own one of these Cole Planters and Distributors. They positively pay for themselves after a few days in the field. The planter plants better and cheaper than any other planter ever built. The distributor makes one trip do for two—doubles the good from guano. Cole Planters and Distributors are the "Farmer's Friend." They were "born and raised" on a North Carolina farm.

You'll find them so downright useful and reliable that you'll wonder how you ever got along without them—why you were ever content to put up with out-of-date machines, when you could own a Cole!

### The Cole Planter

**SAVES Labor of 1 Man and Mule Seed**

At one trip the Cole Planter smooths the bed, opens a furrow, mixes guano with the soil, covers it, opens again, plants the seed and covers them in the most accurate manner. The guano being mixed with the soil directly underneath, feeds the plants as soon as the seed sprout. You get a quick start, get two chances at a big crop. The Cole Planter plants the seed in a straight line at the same depth. The depth is easily regulated. Cotton comes up in a straight line—without bunches. It can be chopped to a stand cheaper, cost of cultivation is less. The seed fall in plain sight. The wind can't blow them away—none are wasted at the end of the rows. Doesn't skip or bunch the seed—as far ahead of the old style planters—as the old style way is ahead of hand planting. Works perfectly on any kind of land, where other planters are unsatisfactory.

### The Cole Spreader and Cultivator Lister and Side Dresser

**Sows Guano and Throws a Good List at one Trip**

With this machine you can feed guano to growing crops—get more good out of it—spread guano at the right time to make fruit, right where a network of roots need it. By feeding the guano during the growth instead of all at one time but little is washed away. The plant receives all the benefits of the plant food. With cultivator attached (as shown in the cut) you can sow guano and effectively cultivate at the same time—save the work of one man and one mule. Two strong universal plow feet are furnished free. By removing cultivator and attaching plow feet, you have the best machine for sowing guano and throwing two good furrows upon it. The hopper holds 2 sacks, and spreads uniformly any quantity from 100 lbs. to 3000 lbs. to the acre. Pays for itself in labor saved—doubles the good from guano.

### The Cole SINGLE FOOT Distributor

**Opens a Furrow and Sows Guano at One Trip**

Here's a Cole Distributor with opening plow in front, which many farmers prefer. With one, you can run off rows, open a furrow, and sow guano at the same time. It'll save the work of one man and mule every planting day. Especially good for side-dressing—can be run right up alongside plant. Strongly made thruout, large hopper, strong plow wheel with steel spokes. Convenient lever, cuts off flow of guano. Has the reliable Cole force feed, soiless as a bicycle. Swivel rod holds distributor rigid while you fill the hopper.

### The Cole DOUBLE FOOT Distributor

**Sows Guano in Open Furrow, Throws 2 Good Furrows Upon It. Saves Labor**

The form of spout used on this machine spreads the guano, instead of putting it in a small stream. The fertilizer feeds more plant roots—gets more good from guano. Positive force feed sows from 100 to 1,500 lbs. of guano to the acre. Instantly regulated. The plow feet throw two good furrows upon guano at the same time. Plow feet are strongly attached to side beams, so that good plowing can be done. You can leave it without danger of its falling. Graduated hitch post adjusts the weight on the plows.

**Other Styles of Planters and Distributors to Meet Every Need**

Besides these machines we have the Universal Single Foot (either force feed or Knocker). Universal Double Foot Knocker, and other styles suited to different uses. Discard your old out-of-date trouble making planter or distributor, hitch up to one of these labor saving Coles! Come and see them now.

**Guaranteed By Us and By The Cole Mfg. Co.**

The Cole is doubly guaranteed. The maker guarantees it. We guarantee it. Every machine must prove a practical daily working success in your field, no matter if the soil is rough or smooth, level or hilly, with crooked rows or straight. They are made as good as money and brains can make them—sold at a fair price to everybody. Come and see these machines. Get ready for planting time.
