

FREE ADVICE TO SICK WOMEN

Thousands Have Been Helped By Common Sense Suggestions.

Women suffering from any form of female ills are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; this has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

BABY'S FACE ONE SORE WITH ECZEMA

Cried for Hours, Could Not Sleep. Resinol Brought Rest and Cure.

Reading, Pa.—"My baby girl had eczema for over six months. It was painful and itching, she could not sleep day or night, she would scratch till blood and water would run down her neck. Then it burned her so she cried for hours at a time. The right side of her face was one sore and scab.

"I got the samples of Resinol Soap and Resinol Ointment on a Saturday morning, and put them on, and put them on again in the afternoon and in the evening before I put her to bed, and she went to sleep and slept till next morning. I thought I was in heaven the first night, and by Monday the eczema was dried up so that all the scabs fell off. Resinol Soap and Ointment cured my baby."—Mrs. Wm. M. Fletcher, 544 So. 17 1/2 St., Aug. 21, 1912. If you or any of your little ones are suffering from eczema, rash, tetter, ringworm, or other itching, burning skin eruption, there is only one better proof of the value of Resinol. That is, try it yourself and see. You can get samples free by writing to Dept. 4-K, Resinol, Baltimore, Md. Resinol doctors for eighteen years, sold by every druggist, or sent by parcel post on receipt of price, Resinol Ointment, 50c and \$1. Resinol Soap, 25c.

BUILDING UP A HERD

Robber Cows Should Be Disposed of When Discovered.

Cheapest Way to Insure Profits is to Use Common Sense and Good Judgment in Selection of Sire—Tester is Infallible.

(By R. G. WEATHERSTONE.)
With butter selling to the city customer at 40 cents a pound, and the price of feed for dairy cows soaring upward every month, the question of the robber cow becomes more interesting every day. How any man can go along feeding a lot of scrub cows that cost more than they earn is beyond comprehension. If you have ten cows and the tester shows four of them do not produce enough milk to pay for their keep, why not sell them and put the proceeds into one good cow—one that will not only save the loss of the robber cows, but earn a net profit of from \$30 to \$50 a year? That is good business sense, isn't it?

Here are some championship milk and butterfat records that you may want to refer to some time when you want to know the possibilities of milk and butter production: Jacoba Irene, Jersey cow, made a record of 15,503 pounds of milk testing 5.5 per cent. butterfat, 8,529 pounds; Rena Ross, Ayrshire cow, 15,072 pounds of milk, testing 4.26 per cent. butterfat, equaling 6,432 pounds in a year; Holstein cow, Colantha Fourth's Johanna, 27,432.5 pounds of milk, testing 3.84 per cent. butterfat, equal to 998.26 pounds in a year; Yeksa Sunbeam, Guernsey cow, 14,920.8 pounds of milk, testing 5.74 per cent. butterfat, equal to 857.15 pounds in a year. In computing the butter yield, add 15 per cent. to the butterfat records. These are possible yields under the best conditions by something less than one cow in a million.

Of course, we cannot all own such cows as these, but we can buy an occasional bull calf from these strains and by crossing him with good grade cows build up a milk profit herd and never miss the cost. The universal

A Typical Robber Cow.

profits from good cows secured in this way will pay for a good bull in a short time. This is the cheapest way of building up a herd and there can be no falling if common sense and good judgment are used as to the selection of the bull. The Babcock tester will keep us straight on the value of the cows, because they cannot dodge the test. It is infallible, and the poor cow that brings down the average of the herd cannot hide her shortcomings. The tester shows her up every time.

TREATING SCOURS IN CALVES

Common Disease, Caused by Indigestion, May Be Traced to Faulty or Irregular Feeding.

Two kinds of scours affect young calves, common scours, which are caused by indigestion, and white scours, or calf cholera.

Calf cholera is contagious, but if a calf gets the disease, it will occur a few days after birth. If the pens are kept clean there is not much danger from this disease, usually. Stalls used for calving purposes should be carefully disinfected after a calf is born.

Common scours, which are caused by indigestion, are much more common. The indigestion may be traced to faulty methods of feeding, the most common of which are: Overfeeding, cold milk, sour milk, irregular feeding, dirty pails and dirty stables. When a calf shows signs of the scours, the milk supply should be reduced one-half, and the amount gradually increased as the calf shows signs of improvement. This usually will cure them, but if it does not, feed about a tablespoonful of soluble dried blood, and stir in well with the milk. Dried blood not only acts as a tonic, but it has some food value, and is often fed even when the calves do not have the scours.

If the calves have the scours very bad, the formalin treatment is good. Add one-half ounce of formalin to 15 ounces of distilled water to make the solution. Then add one teaspoonful of this mixture to each pint of milk that is fed. This method is very effective.

Start in Poultry.

The cheapest way of getting started in the business of breeding fine poultry is to buy eggs and hatch them. Ten or a dozen chicks are often produced from a sitting of eggs, which may be purchased for less than the cost of a single first-class fowl, and any one of the chicks is worth more than the total outlay.

Segregate Strange Fowls.

When you add a new specimen to your flock, place the strange fowl by itself for a few days and watch for signs of lice or disease. A healthy flock may be ruined by the introduction of a bird which carries the germs of trouble.

KEEP FARM FLOCK HEALTHY

Sheep Thrive Much Better When Their Skins Are Clean—Good Dip Also Improves Wool.

Dipping is essential to good flock management. No farmer should attempt to raise sheep without planning to dip them at least annually and in most cases twice a year, according to the advice of H. E. Allen of the Indiana Agricultural college. When sheep are brought to the farm from other flocks, and especially when transported there by railroads, they should be thoroughly dipped before allowed to mingle with the rest of the flock.

Experience has taught sheepmen that sheep thrive much better when their skins are clean, and it has been clearly demonstrated that a good dip increases the quantity and improves the quality of the wool. It is impossible for lambs infested with ticks or other parasites to thrive properly, owing to the constant irritation set up. In trying to get relief lambs often nibble at the fleece and swallow small portions of wool with fatal results. A good and regular system of dipping the entire flock is money well expended. Hence most of the leading flockmasters dip twice in the year—once in the spring and again in the fall.

The object of dipping is to destroy the parasites in the fleece, such as scab mites and sheep ticks and lice, and to prevent subsequent attacks from the same. In England, where sheep raising has attained its highest state of perfection, dipping is required by law at least twice a year.

While dipping may not be done at any season, it should, if possible, be avoided in cold weather for obvious reasons. The most favorable time for the spring dipping is a few days after shearing time. By this time the ticks will have largely transferred from the ewes to the lambs. At this time comparatively little material is needed. If the flock is badly infested it is important to repeat the operation in ten days in order to destroy the insects that have hatched during the interval. The flock should again be treated in the fall, so as to go into winter free from parasites.

MARTYNIA IS QUITE USEFUL

Uncommon Vegetable Has Undeservedly Become Unpopular—Excellent With Mixed Pickles.

(By HUGO ERICHSEN.)
In the mind of the average gardener, be he urban, suburban or rural, the culture of vegetables is associated with drudgery which is in no wise diverting, and yet, if one only deviates from the beaten paths and is not afraid to grow things that are decidedly uncommon, as much fun can be had in the kitchen garden as in Florida's domain, and no little profit.

One of the uncommon vegetables I have grown is the martynia. The martynia, known to our forefathers as the martinoes, has undeservedly become unpopular. Perhaps the disagreeable odor of its gloxinia-like flowers, and the peculiar shape of the hairy seed-pods that succeed them had something to do with its disfavor.

The latter are responsible for two other designations of this vegetable curiosity, for in England, where it is grown extensively, it is known as the unicorn plant and in Mexico, where it grows wild, it is called the devil's finger-nails.

The pods are produced in great abundance and should be gathered when less than half grown, as they are worthless after the hardening of their substance. They are pickled in vinegar like cucumbers and are very useful in putting up mixed pickles. The plants require considerable warmth, therefore, the seed should

Martynia.

not be sown until the trees are out in full leaf.

They are planted in rows or hills three feet apart each way and should be thinned out thoroughly, as they require considerable space. It is a good plan to sow the seed in a hotbed and transfer the young plants to the garden in the latter part of April or as soon as the weather is settled.

Shipping Mares and Foals.

The best way to ship mares with young foals at foot is to build a partition across one end of a car, bed the floor well with good hay and turn them in loose, says the Horse Breeder. We have shipped many in that way and have never had one injured. The mare that is a good mother will never step on her foal when it is lying in the car. With plenty of good hay for bedding mares will not suffer for food even though the train is delayed a few hours. Water in a clean bucket should be offered them frequently. Yearlings and two-year-olds may be safely shipped in this manner.

Oats for Poultry.

The value of oats as a ration for poultry is largely offset by the drawback due to the harsh and rough covering. The digestive operation needed to remove this covering requires to offset it about all the nourishment the kernel contains.

WOMAN'S STORY MADE PUBLIC

Mrs. Moncrief Didn't Consider It Secret. Thought Friends Should Know. Read Her Statement.

Belton, Tex.—Mrs. Ethel Moncrief, of this place, says: "I suffered with a complaint peculiar to women, and, although I called in the doctors, they failed to do me any good.

Then, I began to take Cardui, the woman's tonic. From the first dose, I could feel results, and, in a short time, I was relieved of all my dreadful suffering.

My friends were surprised to see the results I obtained from the use of Cardui. I just couldn't help telling them. It built up my system wonderfully.

I do not want to be without Cardui in my house, as long as I can obtain it. It is a true relief for womanly troubles. I can't praise it too highly."

In the past half century, thousands of ladies have written, like Mrs. Moncrief, to tell of the benefit received from the use of Cardui. Such testimony, from earnest women, surely indicates the merit of this woman's remedy. Cardui contains pure, harmless, vegetable ingredients, which act in a gentle way on all the weakened womanly organs.

It cannot do you harm, and is almost sure to be the very medicine you need. It's good for young or old. Please give Cardui a trial.

N. B.—Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, Home Treatment for Women, sent in plain wrapper. Adv.

Were Only Bent.
She weighed only 286, so that when she trod on a banana skin she subsided very gently. A polite shopkeeper came out to assist her to rise from a box of his best new-laid eggs. "Oh, I do hope I have not broken them!" she cried.

"Not at all, madam," said the polite one; "they are only bent."

Envy.
"Bliggins is one of those people who envy others the slightest elevation above ordinary surroundings."

"Yes. His family can't eat a meal without being afraid he'll get jealous of the baby and want the high chair."

Important to Mothers
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it Bears the Signature of *Dr. J. C. Fletcher* In Use For Over 30 Years. Children Cry for Fletcher's Castoria.

Warning to Women.
Very Meek Husband—I just finished writing your speech for the club, Mariah.

His Wife (not so meek)—What's the subject?
Very Meek Man—"The Lady Who Will Strike Her Husband Is No Man."

—Satire.
For SUMMER HEADACHES
Hicks' CAPUDINE is the best remedy—no matter what causes them—whether from the heat, sitting in draughts, feverish condition, etc. 10c., 25c and 50c per bottle at medicine stores. Adv.

No Change.
"I saw young Sappley the other day."
"Well, did he look like himself?"
"Yes; still insignificant."

QUININE AND IRON—THE MOST EFFECTUAL GENERAL TONIC

Grove's Tasteless Chill Tonic Combines both in Tasteless Form. The Quinine drives out Malaria and the Iron builds up the System. For Adults and Children.

You know what you are taking when you take GROVE'S TASTELESS CHILL TONIC, recognized for 30 years throughout the South as the standard Malaria, Chill and Fever Remedy and General Strengthening Tonic. It is as strong as the strongest bitter tonic, but you do not taste the bitter because the ingredients do not dissolve in the mouth but do dissolve readily in the acids of the stomach. Guaranteed by your Druggist. We mean it. 50c.

There is Only One "BROMO QUININE" That is LAXATIVE BROMO QUININE. Look for signature of E. W. GROVE on every box. Cures a Cold in One Day, 25c.

RELIEVES PAIN AND HEALS AT THE SAME TIME

The Wonderful, Old Reliable Dr. Foster's Antiseptic Healing Oil. Prevents Infection. An Antiseptic Surgical Dressing discovered by an O.M.S. R. R. Surgeon.

Thousands of families know it already, and a trial will convince you that DR. PORTER'S ANTISEPTIC HEALING OIL is the most wonderful remedy ever discovered for Wounds, Burns, Old Sores, Ulcers, Carbuncles, Granulated Eyes, Sore Throat, Skin or Scalp Diseases and all wounds and external diseases whether slight or serious. Continually people are finding new uses for this famous old remedy. Guaranteed by your Druggist. We mean it. 25c. 50c. \$1.00.

\$33 To the Great Northwest from Chicago

Low Fares to the Zone of Plenty
Go west now! Investigate for yourself. Find out how thousands are winning wealth and independence out in that great prosperous country penetrated by the **Great Northern Railway**. \$33 from Chicago to many points in Montana. \$38 to points in Idaho, Washington, Oregon and British Columbia. Proportionately low fares to all points Northwest. Round trip homeseeker's tickets on sale 1st and 3rd Tuesdays of each month. Now is the time to go west! Take advantage of these low fares and find out how the **New Three Year Homestead Law** makes it easy to get 320 or 160 acres of fertile land in three years in Montana and Oregon. The Great Northwest produced many times its share of America's tremendous \$10,000,000,000 crops last year. Prospects great for this year! You get your share.

Write NOW for FREE information giving details as to low fares, liberal stop-over privileges and FREE illustrated booklet giving the most complete information ever compiled about the wonderful opportunities in the Great Northwest for homeseekers. Woman Is As Old As She Looks
No woman wants to look old. Many in their effort to look youthful resort to the "beauty doctor's" prescriptions. Their mistake is that they visit the wrong department in the drug store.
Beauty depends upon health.
Worry, sleepless nights, headaches, pains, disorders, irregularities and weaknesses of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step.
To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for

Dr. Pierce's Favorite Prescription
This famous medicine strikes at the very root of these enemies of your youthful appearance. It makes you not only look young, but feel young.
Your druggist can supply you in liquid or tablet form; or send 50 one-cent stamps to Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N.Y. and a trial box will be mailed you.

PUTNAM FADELESS DYES
Color more goods brighter and faster colors than any other dye. One 10c package colors all fibers. They dye in cold water better than any other dye. You save dye any garment without ripping apart. Write for free booklet—How to Dye, Bleach and Mix Colors. **MONROE DRUG COMPANY, Chicago, Ill.**
