

### To Our Public Spirited Citizens.

Several of our streets are in such a bad condition that it is dangerous to travel over in the dark. Take, for instance, the side-walk between Atty. S. B. Spruill's office and 3rd Street. A heavy rain or snow renders it in such a condition that it requires the greatest skill in walking over it safely, which is done with bated breath. The opposite side of the street, while in a little better condition, closely resembles a swamp. We recognize the fact that the city is without funds and mean this as no reflection upon the executive ability of our city officials. What we propose is that a popular subscription be gotten up and work begun on this and other streets as soon as possible. It stands to reason that the longer this is neglected the worse it will get.

The prosperity of a town is not guarded by the wealth of its inhabitants, but by the uniformity with which they pull together when any important undertaking is to be accomplished. A man with a hundred dollars at his command and a love for town in his heart, can do more for the building up and improving of it than the millionaire who locks up his capital and snaps his fingers at home progress. We wonder who will be the first to begin such a campaign?
