For J. E. Reid and Democracy.

As the time is drawing near for the selection of our county officers, and as it behooves the party to select and nominate the best and influential men to fill the various offices, those who are the best qualified and most competent in every way. I take this method of calling to the attention of our party the loyalty both by service and kind consideration in every way to the people of our county, also the honorable way in which he has filled his office heretofore. The courtesy he has shown to all. The man whom I believe to be the best man to fill the place which he does, the man that both democrats and all other good men can and will support at the polls in November, the man who will come the nearest to giving satisfaction to all the people, the man who is worthy and commands the respect of all, the man who has the strongest personality, so much so that all who know him honor and respect him and reverence him, his name has become so familiar I am sure you will agree with all the rest of us that Sheriff J. E. Reid is the proper one to be re-nominated to succeed himself as sheriff of our county and that he is the strongest and best man for the office within our party.

I feel sure it is not necessary to call your attention to the fact that it will be wise for every good democrat to stand firm and be loyal to his party and not allow himself to be swayed by the enemy, let him be republican or progressive or independent. As we have had some sad experience in the third party and other ways, and when anyone asks us to be anything else or vote any other ticket save the democratic ticket say to them; "Get behind me Satan," for you are not worthy of the suffrage of any of our good citizens. And lets show to our people that we will continue to give to them good government by continuing such men in office as Sheriff J. E. Reid and others that are competent and will give us what is due us. Look at our schools, as good as any in the state. The public roads are greatly improved and in the near future will be a success. Begin now and work for the success of the democratic party that you may not feel sad in the November election.

A DEMOCRAT.

BRONCHITIS SUFFERER

Takes Druggist's Advice With Splendid Result.

If anyone should know the worth of a medicine, it is the retail druggist who sells it over his counter every day in the week, and is in a position to know what remedy gives the best satisfaction.

Mrs. Frank H. Uline, of West Sand Lake, N. Y., says: "For a number of years I was a great sufferer from bronchitis. Last July I had an attack which was more severe than any, and my friends thought I could not recover from it. Then I was advised by my druggist to try Vinol, which I did, with wonderful results. My cough has left me; I have gained in weight and appetite, and I am as strong as ever I was. I advise all who have bronchitis, chronic coughs, or who are run down to try Vinol."

It is the combined action of the medicinal curative elements of the cod's liver, without the greasy oil, aided by the blood-making and strength-creating properties of tonic iron that makes Vinol so efficient.

Remember, we guarantee Vinol to do just what we say - we pay back your money if it does not. P. E. DAVENPORT.

Wood's Seeds

Seed Potatoes FOR FALL CROP.

The planting of Seed Potatoes in June and July is increasing to a wonderful extent. A great many farmers claim that they give better crops planted at this time than they do when planted in the spring. Potatoes planted in June and July mature in the cool weather of the fall, at a time when they can be harvested to best advantage.

The Seed Potatoes we offer are put in cold storage early in the season, so as to keep in first-class, vigorous condition. "Wood's Crop Special", giving prices and full information about Late Seed Potatoes and all other Seasonable Seeds, mailed free on request.

I have found Gowans so efficient and reliable a Preparation in all cases where a powerful counter-irritant is needed, and also possessing such decided anodyne properties that I cannot resist the desire to endorse it as far and as my superior to any preparation of its class that has come under my observation. I do not think any household can afford to be without it and I shall most certainly advise all druggists of my acquaintance to stock up with it.
