AN APPEAL TO WOMEN

By One Who, From Her Past Experience, is Capable of Giving Sound Advice.

Bud, Ky .- "I want to urge all weak women," says Mrs, Lizzie R. Barker, of this place, "to give Cardui, the weman's tonic, a fair trial, for I believe it will do for them what it has done for me.

I was a sufferer for 13 years, with such pains I could scarcely walk or stand on my feet. I had headache, dizziness and fainting spells.

After many treatments failed to help me, my husband persuaded me to give Cardui, the woman's tonic, a trial, and I did so. Now I feel like a new woman. I am well of all these troubles, and can do all my housework, with pleasure.

When I commenced taking Cardul, I was not able to sit up. Now I am enjoying good health and do all of my work.

I shall keep Cardul in my home all the time. There is not any medicine that equals it for women."

We, also, urge you to try Cardui, the woman's tonic, for your troubles. women in the past half century that we feel sure it will help you, too.

Prepared from perfectly harmless, vegetable ingredients, Cardul is the remedy for you to use. It can do you nothing but good.

Try it .- Adv.

MAKING MONEY ON FIFTEEN-ACRE FARM

A Fine Little Farm of 15 Acres

(By JOHN ROONEY.) We have a little farm of 15 acres just outside the city limits. Of this a road takes up 120 rods and two houses and barns one acre. Four acres are in orchard and one and one-half

acres in small fruits; 150 of our trees have only been set five years. Five acres slope to the north and the rest south and east, with a slope of about 12 inches to the rod. We plow about six inches deep. I

would prefer eight inches, but cannot get it done as I am an invalid, confined to my bed and cannot have direct supervision of the work.

We back furrow all our land up and It has helped so many thousands of down the slope, and never plow crosswise. We leave two rods on each end to turn on. This is in grass, which we cut for hay.

The orchard is also in grass between the trees north and south. We cut most of our grass for the horse, two cows, four pigs and 75 hens. We grow carrots for feed for the

Success With Calves.

The secret of successful calf raising lies in keeping the calf's digestive organs in perfect shape. To do this avoid sudden changes, either in feeding or management. Feed warm milk from clean pails, but do not feed too much. Clean, sunny quarters, with exercise and clean and wholesome food fed in proper amounts at the proper time will lessen the number of weak calves, and produce heifers which will develop into vigorous cows.

Exercise and Feed for Sows. Give the brood sows milk making

foods and plenty of exercise. A good way to force exercise is to scatter whole oats on a tight floor which will keep the sows busy for an hour or so.

Planting Kafir.
