# AFTER SIX YEARS **OF SUFFERING** Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio. - "I had almost given up. I had been sick for six years with female troubles and

chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127, pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."-Mrs. J. S. BARLOW, 1624 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any

female ailments to insist upon having Lydis E. Pinkham's Vegetable Compound.

#### Incidental Embellishment.

"Remember," said the man who takes life seriously, "that riches have wings."

"Well," replied Mr. Dustin Stax, "the fact that a fried chicken has wings doesn't prevent me from enjoying it."

## BAD HOUSING CAUSES MISERY

New York Tenement Expert Describes Evil Conditions-Living in Small Place Best After All.

The three great scourges of mankind, disease, poverty and crime, are largely due to bad housing, according to John J. Murphy, New York's tenement house commissioner, whose official task it is to study and remedy as far as possible improper housing conditions in New York city. Mr. Murphy, who is the only tenement house commissioner in the United States, recently had published an article on housing conditions, based on his investigations in large centers of population, in which he said :

"There can be no question that the three great scourges of mankind, disease, poverty and crime, are in a large measure due to bad housing, in its broadest sense. Intemperance in many of its most repugnant forms may be traced to the fact that so many citisens are obliged to live in homes in which they can take neither pride nor comfort and which make the saloon seem desirable by contrast.

"Bad housing is especially detrimental in its consequences to the childred reared under its influence. In many cases the evil influences of environment can never be eradicated. The need for the erection of institutions for the blind and hospitals for the child victims of tuberculosis, spinal meningitis and other diseases of like character is greatly intensified by bad home conditions. The employee living in a house inadequately lighted and ventilated is unable to perform his task with proper energy and intelligence. Women compelled to live in such houses develop tendencies to irritability, which frequently lead to family disruption.

"Bad housing tends to increase the tax burdens of a community by requiring larger expenditures for remedial service, which might otherwise be eliminated. The lack of proper cleanliness and decency in the exterior and interior of houses tends to reduce the selfrespect of the occupants. Note how eagerly the family which has even slightly improved its financial standing seeks buildings with more attractive exteriors and better decorated rooms. It will also be found that as families descend in the social scale one of the pangs most keenly felt is the necessity for the occupancy of quarters in buildings whose general appearance indicates that they are occupied by the miserably poor."

# WATCH THE PAINTER AT WORK

# Calomer

Every druggist here, yes! your d everybody's druggist has noticed a g off in the sale of calomel. They all same reason. Dodson's Liver Tone is taking place.

"Calomel is dangerous and people know it while Dodson's Liver Tone is safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist. A large family-sized bottle costs only 50 cents and if you find it doesn't take the place of dangerous, salivating calomel you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up

Thread In Your New Wick. To put a new wick in any lamp burner carefully and quickly, first thread a needle, then run the thread across the wick and pass the needle through the burner.

Poor Economy in Using Shoddy Material and Cheap Labor Where Looks of Home Are Concerned.

In no branch of the building game is poor material and workmanship so common as in exterior painting, says a writer in Popular Mechanics Magazine. The architects' specifications for painting generally set forth that the painting contractor must provide all the materials of every description, including ladders, scaffolding, ropes, brushes, etc., for the proper performance of the work in a substantial and workmanlike manner; all the materials to be of the best of their respective kinds, and all woodwork to be thoroughly cleaned before being painted; all nail holes, joints, cracks and defects in materials to be filled with putty; all jointed work to be sanded smooth before applying the second coat.

The specifications then itemize what work is to be done, and how, as follows: All outside woodwork to be given a certain number of coats of good white lead and linseed oil paint, mixed to correspond with the color selected by the owner on outside blinds or shutters, exterior of sash, window screens, door screens, outside doors, tin and galvanized ironwork, ironwork, roofs and cement work.

The homebuilder should know whether his specifications are rightly drawn and whether they are being followed by the painting contractor.

Undoubtedly the best way of knowing if the work is being rightly done, is to know how to do it.

#### Wordless Traffic Signs.

Unlettered road signs are being used to regulate motor-car traffic on the driveways of a Fargo, N. D., park. Although they do not give a motorist a single word of instruction or warning, they have served their purposes efficiently. At best, road signs detract more or less from the appearance of a parkway or boulevard, especially when they are literally signboards. While those used in Fargo are only a small improvement in this respect, they hold a good suggestion. One of these signs was recently erected to direct traffic into a new artery branching from an old and much-traveled one. It consists of a white post, at the top of which are two arms, the right one pointing in the direction to be pursued, while the other hangs down. Although this means a reversal of the accustomed direction of travel, from the beginning motorists turned in to the new road without hesitation. -Popular Mechanics Magazine.
