May Improve Court House Grounds.

Plans Submitted by Miss Delano Wilson Would Make Real Attractive Spot in County. War Memorial Under Consideration

In the regular monthly session of the county commissioners held here Monday plans were submitted by Miss Delano Wilson, home demonstration agent, for the beautifying of the grounds surrounding the court house.

These plans have been carefully prepared and incorporate a cement curbing surrounding the grounds and for the planting of various kinds of flowers and shrubbery, and also for the building of cement walks leading to the three entrances. The old stables and jail will be torn down in the near future, and an effort is being made to begin the work of improving the grounds just as soon as practicable.

A special plot in the plans was reserved for Civil and World War memorials; and right here we would like to suggest that in establishing the memorials an especial tablet should be engraved to commemorate the sacrifice of James Edward Jethro, who was killed in action with the Thirtieth Division at the time it penetrated the Hindenburg line, which was considered the strongest point of resistance of the entire German defense system. Jethro was brought back here about three years ago and reburied at Holly Neck by a local company of the National Guard. Also the name of Nathan McAllister, one of the finest young men ever raised in the state, a son of Mr. and Mrs. J. T. McAllister, should be placed on the tablet with that of Jethro. Nathan died while in training at Camp Jackson, S. C., just a short time before his outfit was scheduled to sail for France. He did not die in actual combat, but he was doing his utmost to equip himself with sufficient knowledge of modern warfare to be of maximum service to his army of the service, and the fact that the grim reaper claimed him before he arrived at the front does not in any manner detract from the esteem in which he should be held now.

It is thought that the war memorial will be erected by public subscription. And if an effort is made to effect it in this manner we have en-

ough faith in the people of this county to firmly believe that a monument that will reflect credit upon every individual will be erected as a silent though perpetual tribute to the sacrifices of these two young men who have given their lives in the service of their country.

Nothing of a definite nature was done by the commissioners at this meeting, but the project was taken under consideration.

Change in Business

On the next page appears a quarter-page announcement of G. Davis, jeweler, calling attention to the fact that he has taken over the stock here of G. Davis & Co., of which he was a member, and will continue the business of selling jewelry and repairing watches, clocks, jewelry and optical goods.

Mr. Davis came here about six years ago when the Plymouth Jewelry Company was established and has been here almost continuously since that time.

Continuous Electric Service

It was announced a few days ago that the Municipal Light and Water Supply would on March 1st, inaugurate a continuous service of electric current. This service began Monday morning and is welcomed by users of electric current in all parts of the town.

Mr. L. C. Willoughby, the superintendent, tells us that there will be very few interruptions in this service, if any at all. The plant has just been equipped with new boilers, engine generator and the town has been re-wired with more substantial material.

The ice plant, which is a part of this plant, is now being overhauled and put in condition for the summer rush by Mr. Dock Stubbs, a recognized expert mechanic, and it is thought that this element of the plant will be in keeping with the excellence of the electric department.

Leg Broken By Runaway

Last Saturday afternoon while on his way home a horse driven by Mr. Henry T. Sawyer became frightened by a passing train and bolted. Mr. Sawyer, who was sitting on a rail of the cart, lost his balance and was thrown under the vehicle which passed over his body breaking his right leg above the knee from which a bone protruded, and received several other body bruises besides painful cuts about the face and head. He was immediately brought to Dr. C. McGowan, who rendered professional aid.

Mr. Sawyer's wounds, while exceedingly painful are not considered too severe for complete recovery, which is expected unless complications set in.

The wounded man has been superintending a farm owned by Mr. E. G. Harrison, about 5 miles from here, and is considered an industrious and capable tenant. He was taken to his home by Mr. Harrison immediately after the physician had dressed his wounds.
