**We Have The Goods**

"Our material and commercial advancement is very important," said a resident of Plymouth a few days ago. "But it is just as necessary and essential to look to the exploiting of our citizens as it is to place before the public our commercial advantages."

The speaker then continued with a line of thought which perhaps has not been seriously considered heretofore. He pointed out that it means much to a community to have its citizens recognized in public affairs and in movements which tend to bring about better conditions in the city, the county and the state.

The speaker pointed out that there are men in the community just as capable of handling big jobs as are to be found in any other community. There is just as much ability among our men and women he pointed out, as is to be found in the men and women of any other section.

It was, therefore, his opinion that wherever possible, the men and women of this town should be allowed to accept and serve in public capacities and demand the recognition that they are justly entitled to.

This, he believes, would be just as valuable to the town, as bringing here a new industry of one kind or another.

**What Doctors Say About Smoking and Throat Protection**

An advertisement based on the opinion of 11,105\* physicians

Alice Brady, Charming American Actress, writes:

"My work on the stage may appear easy to an audience but, as a matter of fact, it is very strenuous. Now and then I indulge in a cigarette for relaxation and pleasure. I use Lucky Strikes, as I find they not only protect my voice but afford me the greatest amount of genuine enjoyment."

**LUCKY STRIKE CIGARETTES**

WHAT is the quality that Mary Garden, David Belasco, Nazimova, Fiske O'Hara, Alice Brady, and other famous singers, actors, broadcasters and public speakers have found that makes LUCKY STRIKES delightful and of no possible injury to their voices?

For the answer we turned to medical men and asked them this question:

Do you think from your experience with LUCKY STRIKE cigarettes that they are less irritating to sensitive or tender throats than other cigarettes, whatever the reason?

11,105 doctors answered this question "YES."

These figures represent the opinion and experience of doctors, those whose business it is to know
