We Need Boosters

Every community has folk living in it who are out of accord with progressive steps and they are known as "knockers." These are very selfish folk usually and are a source of much concern when they live in towns and cities.

Some time ago a Chamber of Commerce in a southern community carried an ad in their home paper that had the following in a box:

"When the Creator made all the good things there was still some unpleasant work to do, so he made the beasts and reptiles and poisonous insects, and when he had finished he had some scraps that were too bad to be put into the rattle-snake, the scorpion, the hyena and the skunk, so he put all those together, covered it with suspicion, it with jealousy, marked it with a yellow streak and called it a **KNOCKER**

"The product was so fearful to contemplate he had to make something to counteract it so he took a sunbeam, put it into the heart of a child, the brain of a man, and wrapped these with civic pride, covered it with brotherly love, gave it a mask of velvet and a grasp of steel and called it a **BOOSTER**

"Made him a lover of fields, flowers, manly sports, and mankind a believer in equality and justice, and ever since these were made Mortal Man has had the privilege of choosing his associates—If you don't like Plymouth and the people here—Get OUT—and go somewhere and boost IT.
