

# Whirlwind Pickup at No Extra Cost

COLONY Gasoline is tinted green. This is one way of identifying it. But to be doubly sure of getting this naturally finer, pure California Gasoline, LOOK FOR THE COLONY SIGN ON THE PUMP.

## PUT COLONY

Gasoline in your tank. Step on the gas. See how the motor leaps into life like an arrow shot from a bow.

That's just what COLONY is... a "flying gasoline"--a pure California Gasoline. Aviation type. And California Gasolines are Naturally finer.

Ask for COLONY Gasoline and don't forget your change. Although it has all the qualities of extra-priced, high-test motor fuels, IT SELLS AT THE COST OF ORDINARY GASOLINE.
