

Home and Club News

By Eleanor Pratt Covington

The Cherry Home Demonstration Club has had six new members to join the club within the last two meetings.

Mrs. Lewis of the Cross Roads club has made about as pretty a jar of sand which spread as can be seen in any shop or home.

Each yard leader will hand her total yard score in to the home agent at once, and these points will be mailed to the district agent, Miss Pauline Smith.

Mrs. John Mizelle recently entertained her club and such an attendance! They are real workers out at that club, and every leader is right on the job.

The Scuppernon club had a splendid meeting last Monday at Mrs. H. W. Norman's. The members present worked out a few ideas as to building a community club house.

Mrs. L. S. Brey and Mrs. H. M. Williams were elected new leaders for 1932 in the Roper club last week.

CROP REPORT SAYS TOBACCO OFF 14 PER CENT

Production in This State Is Estimated at 502,265,000 Pounds in 1931

The Federal and State crop reporting service, last week issued the bulletin as to tobacco crop prospects in the State and Nation:

Tobacco growers in the State reported the average condition of the tobacco crop on September 1st at 76 per cent of normal, compared with 75 on September 1st last year, and a 10-year average of 78 on that date.

Conditions through the tobacco belt have been somewhat in contrast to last year. 1930 was extremely dry in most of the producing area, while this season began with comparatively dry conditions, followed by a season of rain, during which quite a large proportion of the crop was damaged before it could be harvested.

The 722,000 acres for harvest this year is 7 per cent less than last year, and this, combined with the lighter yields per acre, has resulted in the increased production prospect.

The condition of the United States tobacco crop on September 1st averaged 77.7 per cent of normal, compared with 63.6 on the same date last year and a September average of 77.0 during the previous 10 years.

Other types of tobacco, such as burley and fire-cured, show indications in excess of last year's production. With the exception of no change in the wrapper class, prospects for the production of cigar tobacco improved slightly during August.

Prospects for all types combined improved near 2 per cent during August, and the September 1st estimate of 1,448,000,000 pounds is slightly above the record crop of last year.

MAXWELL THIRD TO ENTER LISTS FOR GOVERNOR

Announces Candidacy Late Saturday; Also Expect Brummitt to Run

With three candidates already bidding for the chair and a fourth one expected to announce within a short time, it now looks as if there will be an interesting race for the Democratic nomination for governor in the primary next June.

In making his announcement, Mr. Maxwell had very little to say, promising at that time that he would make known his platform later.

In addition to these entries, other candidacies have been rumored, but there is some doubt whether Josephus Daniels and Willis Smith, speaker of the House of Representatives, will enter their names in the contest.

At least a four-sided race for the governorship is assured by the Maxwell announcement. Taxation, it would appear, will be definitely forced to the front by his candidacy.

Fountain favored the levying of the luxury sales tax during the fight on that issue in the 1931 General Assembly. Maxwell, as commissioner of revenue, was strongly opposed to it.

Ehringhaus, in his campaign announcement, came out against the sales tax. Brummitt has not definitely committed himself on the issue, but in a civic club address in Raleigh last week he stressed the need of finding "new sources of revenue to meet the State's increasing deficit."

Maxwell has been in public life for two decades. From 1910 to 1917 he was clerk of the State Corporation Commission. He served as a member of the Corporation Commission from 1917 until 1929, when he was appointed revenue commissioner by Governor Gardner.

TIME TO PLANT FALL GARDENS

With the pantry shelves filled with canned fruits and summer vegetables, farmers should plant greens and other winter vegetables to supplement this diet.

"If the turnip patch has not already been started, get the soil prepared and the seeds in as early as possible," says E. B. Morrow, extension horticulturist at State College.

Some crops other than turnips and collards should be planted to furnish the greens, states Mr. Morrow. These two fill a definite need but kale offers an excellent substitute for a steady diet of collards.

The 722,000 acres for harvest this year is 7 per cent less than last year, and this, combined with the lighter yields per acre, has resulted in the increased production prospect.

Itchy Toes

Hand Ringworm, Athlete's Foot. Why suffer from the queer skin disease causing severe itching of toes and feet, cracking, peeling skin, blisters, Ringworm, Trench Foot or Crotch Itch, when you can avoid infection and quickly heal your skin with Dr. Nixon's Nixoderma? Based on the famous English Hospital formula, discovered by a leading London skin specialist, Dr. Nixon's Nixoderma acts with amazing speed, because designed for this particular skin disease. Nixoderma is guaranteed. It must stop itchy and quickly heal your skin or the small cost will be refunded. O. Henry Drug Store.

PLANT CROP FOR SPRING GRAZING

Cows will easily ruin a good pasture if turned on it too early in the spring while the soil is soaked with moisture. Early spring grass lacks desirable nutritive qualities and usually the barns are emptied of the best legume hay by early March.

"Therefore," says John A. Arey, dairy extension specialist at State College, "the wise thing to do is to make provision this fall for a supply of early grazing next spring. When a cow has passed the winter largely on dry feed, she craves appetizing, succulent feed such as may be got from a good temporary pasture. Such grazing is appetizing, is nutritious and is one of the most economical feeds that any dairyman can provide. By providing temporary grazing for the month of March and for as much of April as will be needed, the cows may be kept off their permanent pasture until the grass has made good growth and the soil is so dry that the sod will not be ruined by trampling."

Mr. Arey finds that the supply of home-grown roughage is about exhausted on March first, especially on those farms where only a few acres are kept for cream production. These cows are therefore turned on the pasture when the hay gives out regardless of the condition of the soil or the growth of the grasses. This usually results in damage to the pasture and little good to the cows.

A good forage crop mixture to plant this fall consists of one-half bushel of Abruzzi rye; one-half bushel of beardless wheat; one bushel of Norton oats; one bushel of beardless barley, and ten pounds of crimson clover or 15 pounds of hairy vetch. This amount will plant one acre. For early spring grazing the seeding should be done by middle September. In some cases, grazing may be done in late fall, Mr. Arey says.

Number Women in State Prison Now Totals 100

Raleigh, Sept. 7.—The number of women in the State's prison was for the first time in the history of the State institution above the 100-mark as has been announced by the prison officials. Of the 100 women 50 are white and 66 are negroes.

NOTICE OF SALE

Authority conferred by two certain Under and by virtue of a power and mortgage deeds executed by Josephus Cradle and wife, Lizzie Cradle, to A. L. Owens, mortgagee, dated February 8th, 1917, and mortgage deed executed by Arthur Cradle, Josephus Cradle and wife, Lizzie Cradle, to A. L. Owens, dated January 1st, 1925, recorded in the office of the Register of Deeds, Washington County, in book 67, page 276; and book 77, page 475, respectively, default having been made in the indebtedness thereby created the undersigned will, on Monday, the 14th day of September, 1931, at 12 o'clock noon, at the courthouse door of Washington County, North Carolina, sell to the highest bidder, for cash that certain property described in said instrument, as follows:

NOTICE OF LAND SALE

W. M. Bateman and Others vs. Wiltz Veneer Company and Others. Judgment in this cause having been rendered at the June Special Term, 1931, of the Superior Court of Washington County, directing the undersigned to sell a part of the lands in controversy in said action on and upon the conditions set out in said judgment, to wit: failure of the Wiltz Veneer Company to pay the money judgment therein set out, and it therefore becoming the right and duty under said judgment to make the sale authorized by the judgment and hereinafter set out, I shall offer for public sale to the highest bidder for CASH at the courthouse door in Plymouth on the 24th day of October, 1931, at 12 m., a tract of land which comprises a part of the David Goodman Grant of February 6, 1826, registered in book F, page 462, and conveyed to John M. Bateman by A. T. T. and Frances A. Hamilton in book 30, page 47, on March 29, 1890. The part herein conveyed being set out and defined on a map filed as part of the judgment: Beginning at a point on said map on the western side marked as Bateman's corner by pointers and by an iron stob; running south 45 east 108.5 poles to the L. N. Gurkin land, shown by

the yellow line and being the edge of the high land; thence westwardly along the high land to the Morris' heirs land at a point from which the next line runs practically north 45 west to the line known as the Ward line at a point on said map marked as the Bateman and Morris corner, where there is a maple; thence by the Ward line north 40 east to the beginning, containing 68 acres, more or less.

Also the standing timber on that part of the said Bateman Swamp conveyed in a deed from W. T. Hudnell to Wiltz Veneer Company October 1, 1924, and registered in book 90, page 198, subject to the rights of the said Wiltz Veneer Company to cut and remove the same before the first day of July, 1933. That is to say the timber sold, if not cut before the first day of July, 1933, passes by this sale, but if cut by Wiltz Veneer Company, no rights pass to the purchaser.

The sale must be reported to the court, and title deed made upon confirmation and is made under the legal rights and regulations prescribed for mortgage sales under the laws of this State. This the 14th day of September, 1931. H. S. WARD, Commissioner.

At the same time and place, I will sell a tract of 19 acres of high land, lying on the northern corner of the original Bateman Swamp tract, representing very nearly a triangle and commencing at the letter "B" on the map and running along the yellow line south 40 east to the red line, which is the northern corner of the J. and W. tract and along the boundaries of the said tract with the red line with six variations, to where the lumber rail-road crosses the Ward line; thence northwardly along the Ward line, which is yellow on the map, to the beginning at "B". H. S. WARD, Commissioner.

Restless, could not sleep

"THERE were days when I felt like I could not get my work done. I would get so nervous and 'trembly' I would have to lie down. I was very restless, and could not sleep at night. My mother advised me to take Cardui, and I certainly am glad she did. It is the first thing that seemed to give me any strength. I felt better after the first bottle. I kept it up and am now feeling fine."—Mrs. T. R. Gibson, Fort Payne, Ala.
