Carl L. Bailey For State Senator

Washington County citizens find delight in presenting one of her sons for a seat in the next legislature as a Senator representing the second district in the personal of Carl L. Bailey, who has for years been active in the county's affairs, serving as representative for one term, as judge of the recorder's court for several terms, and who is now county attorney. In all these positions he has served his people with such diligence that they are willing to trust him to serve them in a greater capacity.

The best testimony any man can offer always comes from those who know him best. The Washington County people know Carl Bailey. They trust him. They recommend him to their fellow citizens throughout the seven counties of the district.

The problems of the next General Assembly will be largely those centering around the problems of taxation, and representatives who are familiar with the needs of the section, and who are willing and able to fight for our needs are essential if we are to obtain what we hope from the next session of the General Assembly in that respect. The people of the county know that Carl Bailey has, in his position as county attorney, necessarily learned the details of the structure of our tax rate, and is bound to know what is necessary to reduce it. Rural people, knowing that Mr. Bailey has farming interests, as well as his law practice, know that they will be safe in sending him to represent them in the Senate of North Carolina.

There is another consideration which the people of the county feel deserves attention. That is that Washington County has not been accorded representation in the State Senate since 1919, when the late W. S. Davenport last was a member. For these reasons Washington County people urge the voters of the Second District to cast their ballots on June 4 for their own native son as one of the nominees.

Give Us Half of What Is Promised

If the office seekers do half what they are promising, we are going to have the best government the world has ever known. Some of them are even going so far that they are going to give the wets liquor while keeping the country dry for the prohibitionists. Some of them are going to take all the taxes off and pay the grocery bills of everybody with less than \$12,000.

Now, voters, remember that one of the weakest things about pre-election promises is that they are not, or at least they have not been heretofore, binding contracts. So you had better have the candidates give you their promises in writing, and signed by two or more witnesses. You will need this testimony all along through the coming years because the lines are going to be pulled tighter than ever in both our state and national legislative bodies. They are going to be besieged by regiments of lobbyists to swing them from the promises they are now making to the people to special service of the fellows they are now denouncing.

Keep the record list. They forget.

Confidence Already Lost

Secretary Mills, the big bankers' fiscal agent, says people will lose confidence if the currency is inflated. The honorable secretary seems to have overlooked the fact that the people have already lost confidence, and not only that, but they have lost their propertyall because Mr. Mills and his New York banker friends have deflaed the money of the country.

Mr. Mills and his gang, consisting of a very few folks in number, want their dollars each to be worth many days of labor and many bushels of wheat and corn. When they can do that, they know they have power and they have confidence-kingly confidence-in their cash. On the other hand, men and women and children are starving because their labor and their products are worth so little.

Mr. Mills should know that the people have lost confidence in the folks who are handling the money system. What we need is a Congress, a President, and a Cabinet that is bigger than the New York banking system.

Hoover and the Tariff

Greenville Reilector.

President Hoover has reiterated his faith in Republican high tariff principles in spite of the fact that the world faces ruination because of the tariff walls erected by the various countries.

The last two years have proved beyond doubt that high tariffs are detrimental to every branch of industry and instead of improving business conditions, as Republicans claim, literally drives it away. Other nations have retaliated as a result of the American tariff wall, and our own products are glutting our markets because of the lack of foreign demand.

Trade between the various nations is absolutely necessary to the welfare of the world at large, and if the time comes when Democrats get a chance at cutting down the tariff barrier it may well be assumed that conditions will soon show signs of improvement. ZEB VANCE NORMAN,

To The Democratic Voters Of Washington County

We, the undersigned citizens and voters of Washington County wish to heartily endorse the candidacy of Carl L. Bailey, of Washington County, for the office of Senator of the Second Senatorial District. We know him to be eminently qualified to hold this office and to represent our interests. We know the problems of the next General Assembly will be largely those centering around the problems of taxation, and that representatives who know our problems and are willing and able to fight for our needs are essential if we are to obtain what we hope from the next General Assembly in that respect. We know that he has, in his position as County Attorney, necessarily learned the details of the structure of our tax rate, and is bound to know what is necessary to reduce it. We know he is one of us, and that we will be safe in sending him to the Senate of North Carolina.

The Second Senatorial District is composed of seven counties, from which two Senators are nominated and elected. This county has not been accorded representation in that body since 1919, when the late W. S. Davenport last was a member. For those reasons personal to us and our present candidate, and from our county's stan dpoint as having been deprived of representation, we wish to urge the voters of Washington County to cast their ballots on June 4th for their own native son as one of the nominees.
