Four Major Mistakes

The Democratic party's four major mistakes during the past 25 years were the nomination of John W. Davis for President; the nomination of Al Smith for President; and the appointment of John J. Raskob and Jouett Shouse to run the party.

We find every last one of them slashing at the throat of Democracy at the present time. They are now trying to turn the party back into the hands of the capitalists for whom Davis is the spokesman and an agent of Morgan.

Smith has never grown higher than that of a "Smithhoodlum." Raskob and Shouse are men for the money and the money people, caring nought for a suffering people. They are all for business and the business man, caring not one whit for the working man.

We now find these fellows allied with a bunch of Republicans of the same ilk organizing for no other purpose than to overthrow democracy and destroy its principles.

Now is the time for men and women to think and not lose their heads because men of the type of Davis, Smith, Raskob and a like number of Republican reactionaries are trying to sell the party out.

New Deal Has Helped

Postal figures for the year ending June 30 are as follows:

Loss in 1932	\$52,246,188
Loss in 1933	50,685,605
Gain in 1934	5,000,000

Which is the first year since 1919 that the post office department has not shown a loss. Say, that is a strange thing! Oh, no, it is not; the New Deal has helped the folks so they are again able to mail letters to the home folks.

Boys and girls, if you want to be able to write home to mother, stick to the New Fair and Square Deal.

Uncle Sam in Business

Some folks don't like the government in business, but frankly we do kinder like it. We like the government's way of doing business a lot better than we do Mr. Mellon's, Mr. Morgan's, or Mr. Mills' way.

The government treats us much nicer than that bunch who have well nigh starved us to death.

The government is standing by with a big stick, saying to Mr. Morgan and Mr. Mellon, you big old rascals, stop robbing the working poor folks of this country. It makes it plain to those who have all but plunged the people into slavery that they are not going to take all the clothes off the backs of the people and the food out of their bellies any longer. It demands that the people be treated right.

We like Uncle Sam in business because he knows how much the farmers need to produce to supply the needs of the folks, and then he takes his big stick and goes to town with his children and says to Mr. Morgan, Mr. Mills and Mr. Mellon, you just shan't steal my folks' cotton, corn, wheat and tobacco, you have got to pay them a decent price or else.

Surely the poor laborer likes Uncle Sam for a business partner for he is honest. The big tripple "M's" don't like Uncle Sam as a partner because he is too honest for them.

Stick to Uncle Sam.

An Inequitable Adjustment

Mr. Mellon, the money lord, lord of the aluminum trust and of many others trusts, seems to be having trouble with his workers—the fellows who have made his business prosper and who have caused him to grow so rich.

This fight may lead to a more equitable adjustment between capital and labor than has previously existed. That their relations have been inequitable heretofore is shown by the fact that Mr. Mellon is so rich while his workers are so poor.

We hope the time is near at hand when men cannot buy machinery to do their work and starve men. The men who have made Mellon rich have as much moral right to his wealth as he himself has. Of course, under our system, they have no legal right. The time has come when our government should exercise such rights as will prevent combinations of wealth to grow gorgeously rich, while the masses who produce the wealth grow rapidly poor.

A Picture With Two Sides

Well, the newspapers say there is a \$5,000,000 increase in the liquor tax. But also the same newspapers say there is an increase of 20 per cent in arrests for drunkenness.

Then, what has it profited us to collect taxes from a man who goes to jail from the effects of a worthless and dangerous poison. His family gets the pangs of shame, poverty, and mental anguish. Then, what hath it profited our government.

We also ask which is better, liquor tax or sober citizens? Two answers will be given. One comes from God, the other from Satan. Choose ye this day. One Martin County citizen has done some good and some bad in his long life. And it is not strange that every notably good deed that he has ever done was while he was sober; and every notably bad deed he has done was while he was influenced by liquor.

Be careful in choosing your friends.

An Imposition on the Public

Hotel and Pullman car tipping is an imposition on the public and should be prohibited by law. The Pullman Company charges enough for its services to pay its own helpers. In many city hotels, it has been discovered that the tips are expected to pay the waiter, leaving the hotel the lone task of furnishing the food for its usually high charges. It is understood that the price of a meal in a hotel generally includes the serving of the meal.

One of the unfair things about the tip is the man who fails to tip fails to get the service which eventually develops the porters and waiters into a kind of sharks.

PALMYRA YOUTH SHOT SATURDAY

Robert Louis Stevenson, 16, in critical condition as result of accident

Robert Louis Stevenson, a 16-year-old boy of Palmyra, is in a critical condition in a Tarboro hospital from a pistol wound inflicted by a younger brother last Saturday. Attending doctors state that his condition is very grave, and it is generally believed that he cannot live. The ball pierced the lung and ranged downward, striking a kidney and finally lodging against the spine.

Get Facts from Authorities In Starting A Beef Herd

The farmer planning to start a beef herd this fall will find it advisable to take up the problem with the county farm agent. If he is too busy with the cotton and tobacco program, the farmer considering starting a beef herd should write directly to L. I. Case, livestock specialist at State College, Raleigh. Mr. Case is an experienced beef cattle and sheep man and will be glad to offer any advice requested.

Phelps-Barnes
Creswell.—Announcement has been made here of the marriage of Miss Annie Barnes, daughter of Mr. and Mrs. Radio Barnes, of near Creswell, to Daniel Early Phelps, son of Mr. and Mrs. D. B. Phelps, of Creswell, on Monday, August 13. The wedding took place in Columbia. The couple are living in Creswell.

Alamance Building Many Trench Silos This Summer
At least one new trench silo will be built in every community of Alamance County this summer.

Infestation of boll weevil is reported in the cotton fields of Nash County though no serious damage has been reported to date.

Cotton growers in Tyrrell County have lived up to their contracts 100 percent and are pleased with the results of the adjustment program.

Farmers Cooperate In the Purchase Of Limestone
Eight farmers of Chatham County last week cooperated in buying a car of ground limestone to be used under alfalfa this fall.

The Roanoke Jr. Peanut Picker

Manufactured by HARRINGTON MANUFACTURING CO.

This recent addition to the ROANOKE line of farming implements has proven exceedingly popular with the peanut grower. Its many advantages and points of superiority are too numerous to enumerate here, but sufficient to say, it has proven in face of severe tests in the field to outclass any other peanut picker of like type on the market today. The material and workmanship incorporated in the ROANOKE, JR., measures up to the high standard required in the manufacture of all Roanoke Peanut Pickers and Hay Balers.

We now have one of these pickers on display and extend a cordial invitation to every one to inspect it. We are also authorized dealers for the well-known ROANOKE PICKER and HAY BALER and if you are interested in any of these and cannot come to our place to personally inspect these implements, drop us a postal, and we will gladly have our representative call on you without obligation.

GREAT GASOLINE SIDE SHOWS

MY GAS CAN LIFT THE MOST!

MY GAS CAN PULL THE MOST!

MINE'S SO POWERFUL IT DOESN'T KNOW ITS OWN STRENGTH!

"When vendors go to such great length To exploit gas with feats of strength, You'd think such fuels," the wise owl weens, "Would tear a car to smithereens!"

I GET IT!

Demonstration stunts may be entertaining. But in judging a motor fuel the main thing is to learn what it will do for your car. Give Essolene a trial. Test it any way you please. Make every possible comparison. Then pass judgment upon it. The more critical you are the better it will please us.

[Essolene Motor Oil in the crankcase enables Essolene to do its best]
