Sure, Get a Lobbyist

The Greensboro Daily News may be entirely right in its criticism of the North Carolina Education Association for employing a lobbyist to look after the interest of the school teachers...

It would seem natural, if that paper is so concerned about the evils of lobbying, that it would run many pages crying out against the private employers of lobbyists whose only purpose was to avoid the obligation of carrying a fair share of the burdens of state so that they might make big dividends from little service rendered.

Experience has shown that the laborer, the farmer, and the unorganized man will not get much unless he hires a man to look after his interests...

Let the farmer, the laborer, the educator—of which there are many thousands—have a few \$5,000 men, say like Mr. George Ross Pou, or Mr. James H. Pou, or, say, Messrs. Fuller, Reed & Fuller, to see that they do not have to pay any more tax in proportion than the lobby-employing gang that is now having such powerful influence on our present and past General Assemblies?

It evidently pays to have lobbyists, or the wealthy would not shell out so generously. They do not pay for fun—they pay for service.

Advice To College Graduates

Joseph Daniels' advice to college graduates to go into politics was not bad; for, certainly the youthful students need to study the science of government.

The old idea of a man's entering politics for the honor that might follow has become so disgusting that people often regard it as a dishonor rather than an honor. Especially does this opinion prevail when many lawmakers want certain jobs that they might get better acquainted with corporation bosses and other big industrial leaders and increase their chances for adding to their income.

Up until now, the rights of those men and women who do the work have been too often ignored by those legislators who enter public life simply for the honor they might find there.

An intelligent electorate is the public's greatest need, and the problems of government must be studied to bring this about. The colleges and universities should teach government after a more thorough and practical plan.

Unwept, Dishonored, and Unsung

Some of the modern reforms are very commendable. In a picture published recently of 24 young men comprising a graduating class of 40 years ago, nearly half of them were shown to have some sign of decoration by a rather useless, nasty appearing ornament glued to or grown from their upper lips, generally designated as a "mustache."

Now, within the short space of 40 years, even college boys know better than to wear a mustache, and even girls no longer admire such unsightly decoration.

With such advancement in knowledge and science, we say let the good work go on.

Need Some Lessons

When the new highway patrolmen get into action, we hope to see all violators of traffic regulations brought into court and taught how to obey the traffic laws. Such a course will save 75 per cent of the traffic deaths in this State, as well as pay a fine dividend in fines and forfeitures.

The people need to be taught.

good faith and to guarantee against loss pending confirmation. Right is reserved to reject any and all bids. This the 10th day of June, 1935. MADGE L. LYON, Trustee.

NOTICE OF FORECLOSURE SALE OF LAND

State of North Carolina, County of Washington, The Federal Land Bank of Columbia vs. A. R. Watson, Loula Watson, T. J. Swain, Trustee, J. B. Stullman and Buchanan Motor Company.

Pursuant to a judgment entered in above entitled action on the 9th day of May, 1935, and an order of resale entered on the 10th day of June, 1935, in the Superior Court of said county, the clerk, I will on the 12th day of July, 1935, at 12 o'clock noon, at the county courthouse door in said county, sell at public auction to the highest bidder therefor the following described land, situate in said county and state in Plymouth Township, Washington County, comprising 190 acres, more or less, and bounded and described as follows:

All that certain piece, parcel or tract of land situate, lying and being on the Washington-Plymouth main road, about 5 miles south of the town of Plymouth, in Plymouth Township, County of Washington, State of North Carolina, having such shape,

metes, courses and distances as will more fully appear by reference to a plat thereof, made by Wilmer M. Strubbs, surveyor, September, 1921, which said plat is now filed with the abstract of title to said land in the office of the Federal Land Bank of Columbia, the said tract of land being bounded on the north by Jerry Holladay, Lovie Ann Boston, and Levi Ange, on the east by Levi Ange and Charlie Ange, on the south by the Washington-Plymouth public road, and on the west by Jerry Holladay and the Hoff land, containing 190 acres, more or less, and being the same land conveyed by A. L. Owens et ux to Wm. H. McNair by deed dated January 2, 1919, and recorded in deed book 76, page 88, and being tract No. 1 as fully described in that deed from Zeb Vance Norman, commissioner, to the Federal Land Bank of Columbia, dated May 4, 1926, and duly recorded in deed book 90, page 539, both of which said deeds are now of record in the Register of Deeds office for Washington County, North Carolina, and reference to both of said deeds is hereby made for a more particular description of the property hereby conveyed.

The terms of sale are as follows: One-half of the accepted bid to be paid into court in cash, and the balance on credit, payable in ten equal annual installments, with interest thereon from date of sale at the rate of six per centum per annum.

All bids will be received subject to rejection or confirmation by the clerk of said superior court and no bid will be accepted or reported unless its maker shall deposit with said clerk at the close of the bidding the sum of ten per cent of his bid as a forfeit and guaranty of compliance with his bid, the same to be credited on his bid when accepted.

Notice is now given that said land will be resold at the same place and upon the same terms at 2 o'clock p. m. of the same day unless said deposit is sooner made.

Every deposit not forfeited or accepted will be promptly returned to the maker.

This the 10th day of June, 1935. Z. V. NORMAN, Commissioner.

TIRES MAY LOOK ALIKE ON THE OUTSIDE ON THE INSIDE THEY ARE DIFFERENT

HEAT on the inside created by friction is the main cause of blowouts. Firestone Tires are different on the inside—they are built with the patented extra process of Gum-Dipping that soaks every cord and insulates every strand with pure liquid rubber, preventing internal friction and heat. No other make of tire is Gum-Dipped.

When you realize that there were 882,000 automobile accidents in 1934, injuring 954,000 people and killing 36,000, and that 43,000 of these accidents were caused by blowouts, punctures and skidding, you will be more interested in the make of tires you use on your car.

Firestone performance records again emphasize the undisputed evidence that Firestone Tires are not only blowout-proof, but give greatest protection against skidding. There are three questions and answers that will solve the problem of what tires to buy:

QUESTION 1—"Will the tread give me the greatest traction and protection against skidding?"

ANSWER—Recent tests by a leading University show that Firestone High Speed Non-Skid Tires stop a car 15% quicker than any other of the leading makes. For eight consecutive years Firestone Tires have been on the winning car in the dangerous Pike's Peak Race where a skid means death. This is undisputed evidence that Firestone gives car owners greatest protection against skidding.

QUESTION 2—"Are they blowout-proof?"

ANSWER—Firestone Gum-Dipped Tires have the most amazing records for being blowout-proof of any tires ever built. In the gruelling 500-Mile Race at Indianapolis, May 30th, every one of the 33 cars was equipped with Firestone Gum-Dipped Tires. Kelly Petillo won the race and broke the record over this 26-year-old rough brick track without tire trouble—in fact, not one of the 33 drivers had tire trouble of any kind.

Ab Jenkins drove his 5,000 pound car on Firestone Gum-Dipped Tires over the hot salt beds of Utah, 3,000 miles in 23 1/2 hours, at an average speed of 127.2 miles per hour, with temperatures as high as 120°, without tire trouble of any kind. These are most amazing proofs of blowout protection ever known.

QUESTION 3—"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

ANSWER—Firestone High Speed Tires not only give you more than 50% longer wear, but also lowest cost per mile. This is made possible by the tough, wear-resisting tread built with higher shoulders and a wider, flatter contour. This thick, rugged, scientifically designed tread is held securely to the Gum-Dipped cord body by Firestone's patented construction of two extra layers of cords under the tread. This is a special construction feature not used in any other tire. Unequaled mileage records by thousands of car owners add undisputed evidence of the longer wear and greater economy of Firestone High Speed Tires.
