IN MEMORIAM

In memory of husband and father, N. T. Everett, who departed this life August 19, 1935: 1 Just three months ago today, love, God called you home to heaven above And ever since that fatal night The world has never seemed right 2 Our home is sad and lonely, Every spot is desolate and drear, As we listen for the voice of father, That we never more on earth shall hear. 3 You were with us all our lives, And we never knew how blest We had been with you, dear father, 'Til God called you home to rest. 4 More and more each day we miss you, Some may think the wound is healed; But they little know the sorrow That's within our hearts concealed. 5 We stood by your bedside And saw your soul depart, And when we saw that you were dead It almost broke our hearts. —Mrs. N. T. Everett and Children.

We are pleased to report that this goal was reached in exactly ten months instead of a full year. One million cars and trucks is an impressive total. But figures by themselves mean nothing. It is what they represent that counts. Selling a V-8 at a low price has brought a new kind of automobile within reach of the people. Producing it has provided steady work for hundreds of thousands of men in the Ford plants, in associated industries and on the farm. These million Ford V-8 cars and trucks have helped to make things better all around. In the first ten months of 1935 the Ford Motor Company paid out, in the United States alone, \$140,119,326.00 in wages and \$523,111,389.00 for materials.
