Truly, This Is a Baffling World

It's all so baffling.

The agricultural colleges tell the farmers how to produce more when there is an admitted surplus of farm commodities.

The banker tells us to be thrifty and save money, and right now the banks are bulging with money.

Every chamber of commerce is trying to get new industries to locate in their towns when, to tell the truth, industry now can run half time and supply the demands for its products.

The United States, and England, too, spent millions to build submarines to kill men in war and then turn around and spend hundreds of thou-

sands trying to rescue a few men trapped in one of the death-dealing things.

There is no suggestion for the agriculturists to stop teaching; there is sound advice in the banker's recommendation to save; it is well for the chambers of commerce to be alive and working for new industries, and it may be well for Uncle Sam and Johnnie Bull to build submarines costing millions, but the whole business seems queer because we are not trying to expand the markets and feed the poor to put those saving that are bulging the bank vaults to work in the interest of down-trodden mankind, to extend the necessities of life to the millions who now do not share in the products of industry, and because we are not trying to work for peace by peaceful means.

Dedication of Pettigrew Park

When the time comes for formal dedication of Pettigrew Park in the Lake Phelps area, there is no question but that it should be made an event of more than local importance. The name alone will draw visitors from many parts of the South, and undoubtedly the State organization of the U. D. C. will want to have an important part in any program that may be presented.

Indicative of the interest in the park throughout the Albemarle section is the following editorial from the Chowan Herald, published in Edenton:

It is reported that a gala day will be made of the dedication of Pettigrew Park some time in the late summer, and that the Hon.

Bruce Etheridge of the Department of Conservation and Development, is making some plans to that end.

As the park is a State project and this section has given it support, we believe quite a gala day may be made of the dedication.

Creswell, Columbia and Plymouth, the nearest towns, will be represented, we know, but submit that such an event should assure a wider aspect and the whole Albemarle area should be let in.

Governor Hoey, whose speeches and work aided in the matter so considerably, and Congressman Lindsay Warren, the ardent advocate of the park, should be present and speak.

A great day is ahead. General Pettigrew merits wide attention, and the park will prove one of the Albemarle's best and most useful attractions.

Rambling R...About
By THE RAMBLER

Knew Her Hardware—

According to the Troy (N. Y.) Times Record, the identity of a certain young lady there is withheld, but the memory of her answer lingers on with the instructor conducting a science course in the local high school. One of the requirements in the written quiz was "Define a bolt and nut and explain the difference, if any." The girl wrote:

"A bolt is a thing like a stick of hard metal, such as iron, with a square bunch on one end and a lot of scratching wound around the other end. A nut is similar to the bolt, only just the opposite, being a little chunk of iron sawed off short, with wrinkles around the inside of the hole."

The startled professor marked that one with a large "A."

Easy Street, for Sure—

Watching the collector for one of the slot machine companies emptying a machine of the "take" here the other day, we were reminded of the story about the young fellow who got a job as collector for a similar company.

When he went to work, the manager called him in and said, "Take this master key and empty all the coin boxes; get all the nickels."

About three weeks later he walked into the office. "Can I have another key?" he asked. "I lost the other one."

"Certainly," replied the manager. "But where have you been all this time? The cashier has waited late every Saturday night, expecting you to come in for your wages."

"Great guns!" exclaimed the delighted youngster, beaming broadly. "do I get wages, too?"

Mystery—

The Whiteville News Reporter recently told about a lady down in Tabor City who was much perturbed to find that the three pounds of meat she had purchased had disappeared. Her husband, aiding in the search, noticed what he took to be a guilty look on the face of the house cat, and said, pointing to the animal, "There's your meat."

"Why, no?" objected the Tabor City lady, "that little thing couldn't get away with all that meat."

"Well, let's weigh her and see," suggested the husband. They did so. The scales registered exactly three pounds.

"Yes," admitted the lady. "There's the meat. But where's the cat?"

Truth in Advertising—

The Publisher's Auxiliary, Journal of the weekly newspaper field, recently ran part of a reprint which it called the "ultimate in advertising candor." Certainly, that was putting it mildly, as you can judge for yourself. The Auxiliary goes on:

"An advertisement headed, 'Adams Grub Sale,' created more demands for extra copies of the Shelbina Democrat than any feature during recent years. Advertising agencies over the United States sent hurry-up orders for papers of that issue. The advertisement, in part, was as follows:

"This stuff ain't so hot! But we have it, and we're getting tired of looking at it. You probably won't be able to eat any of it. But we sure will express our appreciation if you buy some of this junk and make yourself a penny richer."

"Apple Sauce (Yellow Bonnet) Worms Extracted, No. 2 can 18c."

"Vinegar, sour, made from rotten, worm eaten, crabby apples, gallon, 25c."

"Oysters, slick and slimy in 5 oz. cans, 10c."

"Milk, from discontented cows, aged in glass, 10c per qt., or 7 small cans, 25c."

"Syrup, white or dark, soured and

going to sugar, 1/2 gal., 29c; gallon, 55c.

"Peas, big, wrinkled and tuff, 2 No. 2 cans, 25c."

"Candy Bars, partly unwrapped, picked over, 3 bars, 10c."

"Macaroni, makes a rotten salad, pound package, 10c."

"Toilet Tissue, competition to Home Town Newspaper, 6 rolls 25c."

"American Cheese, Shelf Worn, full of holes, mice like it, lb. 23c."

"Beans, big white northern, noiseless variety, 5 pounds, 23c."

"Corn, Golden Bantam, stuffed in small can, 10c."

"Bananas, mashed, over-ripe and half peeled, pound, 6c."

"Crackers, soggy and wet, 2-lb. package, 15c."

"Brown Baked Beans, 18-oz. swelled and rusted can, 10c."

"Kraut, foot packed, sour cabbage, No. 2 1/2 can, 10c."

"Pink Salmon, improved, been dead a long time, 2 cans, 25c."

"Oleo, a poor butter substitute, lb. 13c."

"Corn, Whole Grain with husks and silks, 2 no. 2 cans, 25c."

"Sugar, dirty, damp and lumpy, 10-lb. bag, 50c."

"Paper Napkins, all colors, been used only twice, 2 packages, 15c."

"Come in and look this grub over or ring us up if you want some of this stuff. If we don't answer, we're sitting down. Try again in a few minutes. We'll deliver if you ketch us just right and we feel like it."

LEGAL NOTICES

NOTICE OF SALE

Whereas under and by virtue of the power of sale contained in a certain mortgage from L. E. Jackson and D. R. Satterthwaite to A. L. Owens dated Oct. 10, 1930 and recorded in Washington County Registry in Book 93, page 154, after due and lawful advertisement as by law and said instrument required, the undersigned did on the 9th day of June 1939 sell the land therein described at the courthouse door of Washington County at public auction, at which sale W. M. Darden became the last and highest bidder for a price of \$1100.00.

And whereas the said bid has been increased in the manner provided by law, and the Clerk of the Superior Court has ordered the undersigned to re-advertise and re-sell said land in the manner provided by law.

Now therefore, in obedience to said order, and under and by virtue of the power of sale in said mortgage contained, the undersigned will again offer for sale at public auction at 12 o'clock noon on July 1st 1939, at the courthouse door of Washington County the following described tract of land:

Beginning at a point on Highway No. 90 running from Plymouth, N. C. to Roper, N. C. said highway being 50 feet from the west side of the A. C. L. RR right of way and 100 feet from the center of the said A. C. L. RR tract on said Highway No. 90, thence from said point along Highway No. 90 in a westwardly direction 93 feet to a proposed street, thence along said proposed street in a northwardly direction 200 feet to A. L. Owens' line, thence along said A. L. Owens' line in a eastwardly direction 93 feet to A. L. Owens' line again, thence along said A. L. Owens' line again in a southwardly direction 200

LEGAL NOTICES

feet to Highway No. 90, the point of beginning being a lot 93'x200'.

The sale will begin at the increased bid of \$1100.00. The said land will be sold subject to all unpaid taxes. The highest bidder at said sale will be required to deposit 10 per cent of his bid as a guaranty of good faith pending confirmation of the sale and to indemnify against loss in case of non-compliance, and to be forfeited upon non-compliance.

Dated and posted this 15th day of June, 1939.

PAVE ALL STREETS WITH CONCRETE!

7 good reasons why —

- Concrete is quiet. It greatly reduces the tire rumble set up by rapidly moving vehicles.
- Traffic markers are built-in. Joints running the length of the pavement serve as lane markers without costly and impermanent stripe painting.
- Every street demands a gritty, non-skid surface for the protection of motorists and pedestrians.
- At night you need a pavement with high visibility.
- Safety also calls for a pavement that is free from chuck holes, ruts and bumps . . . and stays that way with minimum maintenance.
- You want a pavement that drains quickly . . . that is easily cleaned and stays clean . . . no depressions to catch dirt.
- You want a pavement that makes the whole neighborhood look modern, prosperous, attractive.

Concrete . . . and only concrete . . . completely meets all of these specifications.

"I thought I knew all about automobiles!"

A LOT of folks have had their eyes opened wide by a ride in a 1939 Ford V-8. They just didn't realize how much more value and how many improvements we've put in this car the last few years.

Today's advanced Ford is a product of progressive engineering, fine materials and honest construction. It is backed by an experience of building far more cars than anybody else in the world.

One ride in today's Ford— with its smooth 8-cylinder engine, stabilized chassis, hydraulic brakes— will prove it's the modern car in the low-price field.
