Work on Buildings At Pulp Mill Here

Construction work on a reduced scale, was going forward this week at the plant of the North Carolina Pulp Company, with workmen of the William Muirhead Construction Company going ahead on the bleaching room and liquor room buildings. It is understood that plans for the other three proposed buildings are being held up at present.

Several officials of the Kleckhefer Container Corporation, parent plant of the local concern, were here Monday to look over the plant, but could not be contacted for a statement. They came down in a large two-motored amphibian airplane which landed on the river near the mill.

The foundation for the bleaching building has been completed and is said to be ready for the structural steel to be erected on it. The workmen continued to work on the liquor room, which is to be comparatively small but two stories high. Work is also in progress on the filtering plant, expected to be completed by January 15.

This day every member will be asked to come and vote his interest and commit himself to God's cause. It was brought out by the pastor that this election should create

"Uncle" Charlie DeShields Built His Own Coffin

(Continued from page one)

"Uncle" Charlie planned to finish his coffin in real elegant style when he was more able; it was to be lined with white satin and covered with grey plush. But times got harder with the old man, and the black suit that had been pressed so neatly and put away came out to be worn to several other funerals before it was put on him for his own.

Last Friday death called at Uncle Charlie's little house and found the coffin still minus the white satin lining and grey plush covering; so it was the county welfare organization that lined it and painted it grey for the old colored man's last sleep.

Record of Cases in Recorder's Court

Sixty days on the roads was the sentence imposed on Harold Asby, well known young white man, in recorder's court Tuesday, on charges of assaulting H. C. Owens and resisting arrest.

The charges grew out of an altercation down town Saturday night, when the young man became angry at Owens and struck him in the eye with his fist. Then when Chief P. W. Brown and Corporal T. B. Brown went to arrest the youth, he attacked them, using profane language on the streets.

Mitchell Spruill, colored, was found guilty of an assault and assessed the costs of the court.

Charlie Peale, colored, was fined \$50 and costs for drunken driving.

Henry Thomas and Ernest Thomas were acquitted of charge of stealing tobacco from H. C. Spruill, but William A. Phelps was given 60 days on the same count; while James D. Blount, found guilty of aiding and abetting in the larceny, noted an appeal to the superior court from a three months' sentence.

Parents-Teachers Meet at Creswell

Creswell.—The second meeting of the Parent-Teacher Association of the Creswell High School was held Thursday night in the new high school auditorium with a large number of members present.

The meeting was called to order by the president, Mrs. E. S. Woodley, who presided over the business meeting at which time the various chairmen made their report. A report was given that the first-aid room had been equipped in the school. The room was made possible through private donations and the association. A. T. Brooks, principal of the school, reported that three new library tables and 48 new desks had been received by the school.

Mrs. Mary Armstrong had charge of the program for the evening. Members of the seventh grade presented a play "America, the Land of the Free." Special music was rendered by three members of the Creswell High School Band. The meeting closed with prayer by Dr. G. A. Martin.

90 Per Cent of County Tobacco Has Been Sold

County Agent W. V. Hays said today that he thought about 90 per cent of the tobacco grown in Washington County had been sold and that the other 10 per cent would be put on the market as rapidly as it could be made ready.

The farm agent also estimated the average price received for the leaf by growers in the county was between 15 and 16 cents a pound for the entire amount sold.

Close to 1,500 acres of tobacco were planted in the county. Mr. Hays declined to make an estimate as to the number of pounds produced.

more interest than when voting for county, state, and national leaders. For this vote determines the destiny of our community. "At a time the world is at its worst, the church must be at its best."

Sunday morning sermon will be centered around Isaiah's commitment, "Here Am I; Send Me."
Sunday night topic: "Christ's Prayer for Us."

You were missed if you were not present in Sunday school last Sunday—you, too, disappointed God.

SUNDAY, NOVEMBER 12.—Tension grows among neutral Belgium and Holland, as foreign ministers of two countries hold emergency meeting in frontier town, supposedly to discuss joint course of action in case either is invaded; Russians hurl warnings at Finland through press; Winston Churchill blasts talk of peace with blunt announcement that Allies will fight until "that cornered maniac," Adolf Hitler, and his Nazi regime are crushed and destroyed.

MONDAY, NOVEMBER 13.—Dutch-Belgian anxiety eases as Nazis repeat pledge against attack; Finnish Russian negotiations on Soviet territorial and defense demands on Finland reach "definite end" and Finnish delegation heads for home; Nazi scouting planes visit Paris region twice, but are driven off by anti-aircraft fire, which wounded three French civilians; German bombers attack Shetland Islands, off northern tip of Scotland, also driven off by anti-aircraft fire.

TUESDAY, NOVEMBER 14.—Soviet plane reported brought down by Finns in "frontier" incident; Soviet troops reported to have "charged" to barbed-wire entanglements, firing into air, in attempt to provoke attack by Finns; Germans finally reply to peace proposals made by Queen Wilhelmina and King Leopold with polite "no"; sea warfare intensified; British destroyer sunk by German mine, undetermined number of men lost; total of 10 merchant ships sunk in 72-hour period as U-boats again become active.

WEDNESDAY, NOVEMBER 15.—Attacks by Russian press on Finland continue; Germans threaten England that bombing planes and submarines will show what it means to be at war with Germany; claim one submarine has returned to port after sinking 26,000 tons of British shipping; rain and fog bring end to practically all activity on western front except occasional raids by small patrols.

Hardee - Dozier

Mrs. Frederick Jones Dozier, of Tarboro, this week announced the approaching marriage of her daughter, Margaret Chesson, to Aldridge Kirk Hardee, at the Calvary Episcopal Church in Tarboro on Friday, December 1, at 2:30 p. m.

The late Mr. Dozier was a cousin of Fred J. Knight here. Mrs. Dozier was formerly Miss Margaret Chesson, of this county, a sister of W. B. Chesson.

Bears Nuisance; Hunters Invited

Bear hunters visiting this section are urged by F. I. Hartung to visit his place in the Wenona section to take a hand in eliminating the beasts which have become a nuisance in preying on his corn crop.

In town this week, Mr. Hartung said that at night a person could walk into his corn fields and hear numbers of the animals breaking down cornstalks and tearing off the ears of corn.

Mr. and Mrs. Hartung have killed two or three, his wife claiming the honor of killing one of the largest that was taken in that section last year. They shot and wounded one bear one night this season but did not get the animal.

Mrs. Hartung is an excellent shot, using a gun about as well as most men. Both Mr. and Mrs. Hartung join in urging the next group of hunters to visit their section for the next bear hunt.

County Man Tried In Elizabeth City

Found guilty of reckless driving in Elizabeth City recorder's court last Friday, John N. Mueller, young Wenona white man, was awaiting the judgment of the court as a result of an accident last week, when a car he was driving struck and injured little Miss Helen Frances Bray near Elizabeth City.

Mr. Mueller told the court he was driven about 50 miles an hour and slowed to 40 when he saw the girl alight from a school bus. Then when the school bus moved forward and the driver dropped the stop signal on driving about 50 miles an hour and

Attendance at Cherry School Is Very Good

Cherry.—Attendance at the Cherry elementary school continues to hold up well, with an average of 138 out of 150 in daily attendance, according to Principal A. W. Davenport, who has been interested in the local school so long that the "mind of man runneth not to the contrary."

Of course, there have been some occasions when Mr. Davenport was away from the school, such as the time he spent in Creswell and other places, but he has been considered one of the mainstays here in school work.

the girl stepped from behind the bus into the pathway of his car.

Recorder Fentress Horner is understood to be withholding judgment to determine the amount of the doctor's bill for treating the little girl, who was described as improving rapidly in an Elizabeth City hospital.

Select New Site or Rotate Plant Beds

It is not absolutely necessary to select new places for tobacco plant beds each year, but experimental evidence shows that disease and insect infestation can be materially reduced by selecting a new site each year or by the rotation of beds. If an old bed is used, it should be burned over or sterilized by steam. Where new beds are selected, these should be located in a well-drained place with a southern or southeastern exposure. There should be an ample water supply close at hand and the bed should be located on a loamy type of soil.
