Services Sunday At Saints Delight

Rev. PRESTON CAYTON, Pastor Church service at Saints Delight Christian church Sunday: Bible school at 10 a. m.; W. A. Swain, superintendent. Church service at 11 a. m., by Preston Cayton, pastor. Subject, "In the Clutches of the Tempter." Temptation is universal. Where men live for Christ, there is temptation. When we become a Christian, temptation becomes more stronger. Jesus Himself was tempted by the devil. The devil struck at the weak point, for Jesus was without food for 40 days in the wilderness. He tried Jesus with his appetite, with fame, last with wealth. Jesus fought the devil with the word of God.

The devil is striking at the weak point of man today. He will try man with his appetite, with fame, and with wealth. Money is not the root of all evil, but the love of money is the root of all evil. We today look at the man with money as being lost. But on that day of the judgment, there will be those who have nothing in this life which will be lost. Money will not take you to hell, or being poor will not take you to heaven. We must live a Christian life on this side to find a resting place on the other side of the beautiful river. God help us to say in all temptation as Jesus, "Get thee behind me."

Evening service at 7.30. You are invited to attend all these services at Saints Delight. Go somewhere to church Sunday. That child awaits a start in Christian life. Come and bring the family. We await to welcome you at Saints Delight, Mackeys.

It is pointed out that state headquarters requires the committee to either return the seals or the money for them, and cooperation of those who have not yet reported will be appreciated.

County Gets Quota Of Garments Asked In Red Cross Work

Production Chairman Says Materials Expected To Arrive Soon

Mrs. J. K. Reid, Washington County production chairman for the American Red Cross, said this week that she had received a new quota for the county, calling for 155 knitted garments and 121 sewed garments. She also said that the material had been ordered, and that volunteer workers would be notified as soon as it was received and work on the new quota could be started.

Those knitting are asked to produce 55 sweaters, 20 caps, 20 mufflers, 20 helmets and 40 pairs of socks for men in the armed forces. Those who volunteered to sew have been assigned the making of 14 men's convalescent robes, 25 children's convalescent robes, 33 boys' shirts, 33 pairs of rompers, and 16 bed jackets for women. While the knitted garments will be used by the men in the Army and Navy, it was said that no call has been received so far to sew for the armed forces, and the garments listed above will be used where needed most.

Mrs. Reid said the wool needed for the knitting quota cost \$109.50, which was paid for by the county chapter. She also said that the materials were harder to get than before, and she did not know exactly when the materials would be received.

The county chairman said that as soon as the material arrived, a notice would be placed in the paper, and the heads of the various units will be notified so that everyone may call for the materials needed for their work. Mrs. Reid stated it was very gratifying to know so many women had volunteered to help in the very worthy work.

Priority Cards Not Needed by Farmers To Make Purchases

County Agent Says General Misunderstanding Prevails About This

To correct a rather general misapprehension among farmers in need of farm machinery, equipment and repair parts, County Agent V. Hays has received information from the Priorities Division of the Office of Production Management at Washington, D. C., stating that farmers cannot and must not be expected to produce preference rating certificates when placing normal orders for finished goods.

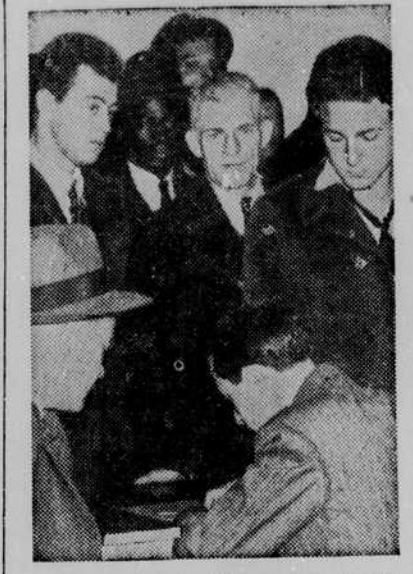

In the confusion incident to attacks upon the United States by the Axis powers, Mr. Hays said that some distributors of consumers' goods have told their customers they could not sell to them unless their orders are accompanied by preference rating certificates. Mr. Hays said it is understood that this mistaken idea has been most prevalent among dealers who handle metal products, particularly in the farm machinery and hand-tool fields.

Mr. Hays said that in the case of important civilian items, such as farm machinery and spare parts for privately owned automobiles and trucks, the priorities division has given assistance to manufacturers so that they may continue their production. Goods manufactured as a result of this assistance are then made available through the normal trade channels, and retail buyers in general do not need preference rating certificates, and such certificates have not been issued.

Tax Penalty Goes In Effect Monday

Tax collections in the Town of Plymouth picked up this week, as Tax Collector P. W. Brown "put on the heat" to bring as much money into the coffers of the town as possible, in view of the fact that the 1 per cent penalty becomes effective in 1941 taxes not paid by February 1st.

The tax collector urges those who have not paid their taxes to do so before Monday, or else they will be required to pay the penalty. The town council has advised Mr. Brown that he must comply with the law this year and collect penalties from all taxpayers who fail to pay during the current month. The penalty is 1 per cent in February and increases each month.
