Victory Gardens

The time has come when every family can help do something to win the war—have a garden. The patriotic duty of every family demands participation in the Victory Garden Campaign which begins February 9. We are to put forth an effort to grow an adequate supply of vegetables for family needs. Normally this requires 1-10 acre for each member of the family with ten or more different

vegetables grown. Not only should we have a garden as a patriotic duty but for economic needs and health. "Grow Your Food in a Victory Garden — Save Your Money — Buy Defense Bonds."

How to Distinguish Nationality of Aircraft

Civilian air raid spotters will have no difficulty distinguishing Axis planes from those of the United Nations if they memorize the markings illustrated above. American and British planes have designs of red, white and blue, and Russia has a red star. Watchers on the southern border occasionally may see the red triangle of Mexico. Axis raiders are easily spotted through the familiar black cross and swastika of Germany, the round red rising sun emblem of Japan and the Roman fasces insignia borne by Italian planes.
