

SKINNERSVILLE

Mrs. Allie Shaffer and Bill Everett, of Norfolk, were the guests of C. V. White and daughters Misses Alice and Eva White and Mr. and Mrs. Clinton Everett and family on Sunday afternoon.

Mr. and Mrs. Dan Payne and two children of Norfolk, spent the weekend with Mrs. Payne's mother, Mrs. Ella Swain, and Mrs. Henrietta Swain.

Mr. and Mrs. C. L. Everett with Mrs. Clara Snell, of Pleasant Grove community, motored to Aulander Saturday, were the guests of Dr. and Mrs. S. A. Saunders.

Mrs. Sallie Davenport spent Sunday with C. V. White and Misses Alice and Eva White.

Mr. and Mrs. Richard Lucas, jr., of Plymouth, were the supper guests of Mr. and Mrs. Walter White Thursday.

Miss Pauline Pitts, of Creswell, attended Services at Rehoboth Church last Sunday morning.

Mrs. Frances Everett and baby Frances Matilda and Mrs. Ben Snell and baby Daphne Kay, of Roper, were the guests of Mrs. Clinton Everett on Monday.

Home and Club News

By Mrs. Mary F. Darden

Club Schedule

Monday: Beech Grove Club. Tuesday: Cross Road Club. Wednesday: Cool Spring Club. Thursday: Piney Grove Club. Friday: Field work. Curb Market.

Poultry Report

Wenona club tops the list this month so far on their egg report. Members sold \$445.20 worth since the last club meeting. Chickens sold, \$137.70.

Cherry club reported having sold \$178.50 of eggs, \$92.05 of chickens and 40 baby chicks.

Mt. Tabor club sold \$56 worth of eggs and \$23 of chickens.

Canning

Every club member is doing her best to can this year. Vegetables are scarce due to dry weather, but an effort is being made to conserve all that is available.

Cherry club members reported 261 quarts canned. Wenona club members reported 206 quarts canned. Mt. Tabor club members reported 223 quarts canned.

Home drying of fruits and vegetables are being studied this month in the various clubs. Fruits recommended to dry are peaches, apples, and pears. Vegetables are beans and corn. There are several advantages in drying. The products weight is only one-fourth to one-ninth that of fresh materials and storage is possible for long periods without the use of hermetically sealed special containers.

House Furnishing

Mt. Tabor Club: sealed kitchen and dining room, two rugs, stove and two new screen doors.

Wenona club: painted one room and one new rug.

Buy Bonds and Stamps

A leader in each club is being appointed to remind the members and non-club-members to buy bonds and stamps each month.

The members of Wenona Club voted to buy a stamp each month for the club and to buy stamps for themselves. Mrs. Rose, the postmistress, had stamps to sell at the last club meeting, women and children bought them.

Each Roper club woman buys a 10c stamp each month for the club or community building.

It is important that we buy stamps and bonds each week or month.

North Carolina farmers who still are gathering scrap metal on their farms for use in the nation's steel mills are cautioned not to sell for scrap any pieces which are usable for farm purposes. The North Carolina USDA War Board, with headquarters at State College, says many pieces of scrap metal often contain parts which may be used in repairing farm machinery. The board says, however, that every bid of scrap not usable for other purposes is vitally needed in making arms and munitions to fight the Axis, and should be placed in trade channels as rapidly as possible. The scrap collection campaign will continue for the duration. It is no more a one-week or one-month campaign than the war is a one-week or one-month conflict, the board points out.

ROPER

Mrs. Thomas B. Jeffreys left Saturday for Raleigh to spend some time with friends. Mrs. Jeffreys spent the past two months with her aunt, Mrs. W. E. Blount.

Mrs. Mildred Hassell, of Norfolk, spent the week-end with her parents and children.

Lawrence Jones, jr., of Plymouth, is spending the week with his grandmother, Mrs. George Dixon.

Mrs. Mary Dixon is spending her vacation this week in Hamilton with relatives.

Mrs. E. M. Smith and children spent the week-end with her sister, Mrs. Willie Furlough.

Mrs. Harry Leigh Wahab, of Belhaven, is spending some time with her parents, Mr. and Mrs. George Marriner.

Mr. and Mrs. Potter Dixon, of Elizabeth City, spent the week-end with his mother, Mrs. George Dixon.

Mrs. Ralph Swain, of New Bern, is spending the week here with her mother, Mrs. C. J. Ainsley.

Mrs. Cecil Furlough and baby visited Mrs. H. C. Furlough, of Creswell, Sunday. Mrs. Furlough is reported to be very sick at this time.

Miss Betty Lou Bateman, of Plymouth, is spending some time here with her sister, Mrs. Jack Simmons.

Mrs. C. L. Walker is spending the week in Norfolk with her husband.

Mrs. J. E. Sexton and Owen Allen spent Sunday in Edenton with Mrs. B. F. Owens.

Mr. and Mrs. James W. Williamson, jr., and son, Wright, spent several days here last week at the guests of their aunts, Miss A. C. Carstarphen, and Mrs. Fannie Gordon.

Miss Dolores Williamson, daughter of Mr. and Mrs. James W. Williamson, sr., and Caleb Smith, of Norfolk, were married Saturday, July 18th, at Norfolk. Miss Williamson is originally from Plymouth.

MACKEYS

Mr. and Mrs. Edison Davenport, Mr. and Mrs. Johnnie Everett, Miss Mary Davenport and Jimmie Davenport spent Sunday at Nags Head.

Mr. and Mrs. R. I. Collins and Buddy Collins spent the week-end in New Bern.

Mrs. William Davenport and little Miss Betty Blount Davenport left Wednesday for Richmond.

Miss Carmen Davenport left Tuesday for Michigan where she will spend the next three weeks with her sister in her summer cottage on Lake Michigan.

Mr. and Mrs. Thomas Belch, little Tommy Belch, and Mrs. Sykes spent the week-end at Nags Head.

Mrs. W. S. Davenport left Tuesday for Norfolk to visit her son.

Dusting of Peanuts With Sulphur Pays

By S. B. FENNE Extension Plant Pathologist, Virginia Agricultural Extension Service

Three applications of a "conditioned" superfine dusting sulphur, starting about July 15 and repeating at two-week intervals will increase your peanut yield at least 25 per cent.

It has been clearly demonstrated by the results of the past 4 years of experimental work and numerous farm demonstrations in Virginia that three applications of sulphur dust, costing approximately \$1.50 per acre, will increase the yield of peanuts at least 25 per cent—frequently much more than this. The increased yield of peanut hay alone much more than pays for the cost of the sulphur dust applied. A 400-pound increase per acre, with \$20 profit, is not unusual.

A 4-row traction duster is the most practical type of dusting machine to use. Dealers still have dusters available for sale. It is suggested that about 3 or 4 farmers buy and use a 4-row traction duster cooperatively.

Your County Agent has detailed information on peanut dusting. Why not drop around to his office, soon, and talk the matter over with him? Dust your peanuts with sulphur and increase your yield.

CHERRY

Eric Spruill and his sister Mrs. Roy Blount, of Norfolk, spent the week-end with their parents, Mr. and Mrs. W. C. Spruill.

Mrs. D. F. Davenport is in Washington, D. C. this week visiting friends there.

Revival services are being held this week at Phillip Christian Church. Rev. D. W. Davis is the preacher.

W. A. Gibbs is spending a few days at home here with his family.

Miss Mabel Gray Woodley, of Norfolk visited her parents Mr. and Mrs. W. C. Woodley this week-end.

Mr. and Mrs. Cecil Phelps of Wash-

Farmers Must Make Effort to Conserve Autos and Trucks

Each Car or Truck Is Vital Link in Movement of Farm Products

Farmers of Washington County have a definite responsibility to conserve their tires, passenger automobiles, and trucks in the interest of wartime food production, according to W. D. Phelps, Chairman of the County USDA War Board.

Pointing out that "before we realize it, both tires and repair parts for farm autos and trucks will be impossible to obtain," Chairman Phelps urged farmers to do as little driving as possible, and to share travel and hauling with their neighbors.

"While it is true that farmers have been able to obtain automobile and truck repair parts, and have certain preference ratings with local tire rationing boards, this won't mean a thing when repair parts and recap tires are unobtainable," he said.

Citing the responsibility of North Carolina farmers in transportation problems Chairman Phelps pointed out that the 1940 census listed 127,476 passenger automobiles and 20,621 trucks on farms of the State. Each of these, he said, is a vital link in the movement of wartime agricultural products.

"It would be tragic," he said, "if there should be a breakdown in the wartime farm production program because of transportation trouble. We must make our autos and trucks last for the duration of the war. This means using them as little as possible and special care of both tires and vehicles."

Chairman Phelps pointed out that the Japanese now occupy Far Eastern areas from which this nation formerly obtained 98 percent of its rubber supply. The stockpile of rubber on hand is being used so rapidly that some army tanks will be manufactured with steel treads instead of rubber. It will be many months before any large supply of synthetic rubber is available, and most of this will go for military purposes. There will be some crude rubber from Brazil and the Gauley plant, as well as some reclaimed rubber, but these supplies will be used in fighting the war.

Likewise, he said, there will be practically no new farm trucks, and before long, many dealers will be running out of repair parts because manufacturers have gone into making war materials.

GODDERHAM & WORTS LIMITED, PEORIA, ILLINOIS

For many years, folks used the world's first form of transportation—their feet! Then the marvels of engineering were able to provide almost everyone with an automobile to drive around in, and we sort of forgot our feet were for much else than to stand on—and walk to and from our cars. But we haven't gone "soft." We can still walk; it's good for us. It will acquaint us with the town in which we live. It will prove to us that there isn't a daily need or want that can't be satisfied within our town's limits.

Make "just around the corner" your buy-word from now on. Your car will last longer—and you'll help bring victory that much sooner. Especially when you buy War Bonds and Stamps with your savings.

PLYMOUTH MERCHANTS ASSOCIATION

FOR YOUR CAR, TOO!

You can give your car the same protection against wear that the Army gives many of its "Jeeps", tanks and other vehicles. Just see your nearby Sinclair Dealer. He has Sinclair lubricants of the same quality used by the U. S. Army.

To save wear on your engine, ask for Sinclair Opaline Motor Oil. Opaline stands up better and lasts longer because it is de-waxed and de-jellied. Have your Sinclair Dealer drain and refill your crankcase with Opaline every 1,000 miles.
