Nine Billion Dollars Needed To Carry On War Until February

This Is An Unconceivable Sum of Money; But So Is The War

Upon short notice under the spur of absolute necessity and in the interest not only of the war program, but also of our national economy, the Victory Fund Committee...

Nine billions—or one billion—is beyond mental grasp of most of us. Suffice it to say, however, that for present purposes that stupendous figure represents the amount of money necessary to keep our government in business and in the war until February.

Either we are behind our fighting men, or we are not. The outcome of a Victory Loan Campaign will be a clear index of how seriously we are behind these boys.

The banks, insurance companies, and larger corporations in the first few days have responded magnificently throughout the state.

It has been pointed out that the Victory Fund Campaign in no way supersedes the War Savings Campaigns which have so successfully been prosecuted hereabout.

Instructions In Handling Delayed-Action Bombs

Instructions in handling delayed-action and unexploded bombs is being given by the army in schools sponsored by the OCD.

off to good start with three dens now organized and holding weekly meetings. . . . Am told scout troop, under capable leadership of Mr. Fred Humbert, is showing real progress.

To Speak For God— "More things are wrought by prayer than this world dreams of."

The Good Shepherd

By PRESTON E. CAYTON
Pastor Saints Delight Christian Church

The above picture is that of Jesus, the good shepherd. There are many beautiful pictures in the Holy writ, but this one means a great deal to mankind.

If any one does not go into the sheepfold by the door, but climbs up some other way, the same is a thief and a robber. But the one comes in by the door is a shepherd of the sheep.

The thief comes to the fold that he may steal, and kill the sheep. Jesus said, I am come that you might have life.

May Install Pumps And Tanks on Farm

CHARLOTTE, N. C.—Permission to install used gasoline dispensing pumps and storage tanks on farms of 10 or more acres has been granted by the War Production Board.

In permitting the installation of pumps and tanks, the WPB stipulated that the equipment to be installed must be second-hand and must have been fabricated on or before January 14, 1942.

shepherd called his sheep to his hill. Jesus said, my sheep hear my voice and they follow me. The good shepherd is calling today, but many are turning the other way.

The End of the Beginning

By RUTH TAYLOR

Watch out! Don't slacken! Don't let the dazzling rainbow of victories won blind us to the fact that the storm is not yet over.

Winston Churchill warned us that when he said this was the end of the beginning—not the beginning of the end.

It is the end of the beginning—of the period of indecision, of the hour in which we woke from dreams of peace to reality of war.

But the end is not yet. We cannot win the war by over-confidence, we cannot assume the game is over when the play begins to run our way.

We want to win this war that we may return to what we had. We do not want anything from any other nation. We want only for other peoples that freedom which we claim for ourselves.

We cannot win this war by wishing. We have to win it by work. The quickest way to win the war is the best way to win it.

We must not allow ourselves to be

caught by Axis inspired propaganda. We must not be spreaders of rumor. We must not be disseminators of hatred toward any of our own people.

The beginning is ended. Now the road lies ahead. It will be rough in many places—it will go through valleys of depression, skirt dangerous precipices, descend perhaps into quagmires of temporary defeat.

Be An American—First

Whether or not Dr. G. Erick Bell of Wilson, president of the Seaboard Medical Society, was correct in his suggestion that the physicians of this country have been "over-militarized"

But, every layman knows that the physicians in this country will be strained to the utmost to care adequately for the needs of both the armed forces and the civilian population—if, indeed, it will be possible to do so.

It behoves every American to cooperate fully with the physicians in the gigantic task which has been thrust upon them.

"No longer should a doctor spend a considerable portion of his time running from house to house, and frequently going back over the same route to answer calls that could have been put in earlier.

The rationing board of Union County adopted a resolution recently suggesting that the people of that county should subscribe for one of their home newspapers.

Remember—

"Think of the Polish people, uprooted from their homes, packed standing in cattle cars, riding in all weathers, without medical care or delicacies or even food."

say something.

"Engineers are essential to build and run the railroad, doctors to care for the sick, lawyers to form the company, farmers to grow the food.

"More men—men who can speak out of the heart—ought to go into the ministry. Let us keep this in our prayers, and remember especially in our devotions the colleges and seminaries which train men for the ministry."

Mrs. Z. V. Norman was elected president of the Woman's Auxiliary of Grace Episcopal Church at a meeting held last Monday evening.
