

### Stenographer-Clerk Vacancy in District Health Office Here

Will Be Filled After Merit  
System Examination  
January 30

A vacancy in the Plymouth office of the Hyde-Tyrrell-Washington District Health Department for the position of Junior Stenographer Clerk at a salary of \$65 per month and perhaps more. This vacancy will be filled from the register of the North Carolina Merit System established as a result of a qualifying examination for this position.

The minimum requirement necessary in order to take this examination is graduation from high school including or supplemented by a course in stenography. If you lack the high school education, you may

## Farm News

about the AAA and other  
**EXTENSION WORK**  
From the  
**County Agent**

The Washington County Transportation Committee has done excellent work on truck certificates and their recommendations have evidently carried considerable weight with the state office of Defense Transportation. This committee handed a large portion of the applications for Certificates of War Necessity and the results were satisfactory, other than one or two cases. Farmers who have not received a sufficient allowance of gasoline have been advised by the State Office of Defense Transportation to get their T books from the local rationing board for December and the first quarter of 1943 and then immediately file an appeal with their local transportation committee. This can be done at the County Office. Work done in connection with this and all the files are at the County Office in Plymouth. The members of the Transportation Committee are: W. D. Phelps, Chairman, John H. Allen, member; C. E. Ayers, member; E. A. Davenport, member; and Roy C. Chesson, member.

This examination will be held on January 30, and applications should be postmarked not later than midnight, January 1. If as many as 10 apply, arrangements will be made to hold the examination in Plymouth. Otherwise, the examination will be held in either Wilson or Elizabeth City whichever is more convenient. This vacancy will be filled from the three highest names on the Hyde-Tyrrell-Washington County Register. Everyone has equal opportunity to qualify. Application blanks and further information may be secured from Dr. Frank T. de Vyver, Box 2328, Durham, North Carolina.

Each farmer who has a supply of seed from an adapted high oil content variety of yellow and green soybeans is urged to retain a supply adequate for seed for his 1943 crop. Farmers who expect to plant soybeans for oil in 1943 and do not have a supply of suitable seed should obtain a supply this fall from their neighbors who have adapted varieties of high oil content yellow and green soybeans. It is not probable that there will be a soybean seed program in 1943 similar to the one carried out in 1942. It is, therefore, the duty of producers to provide a seed supply for 1943 planting.

There is a surplus of wheat in the United States. It is being made available through the Commodity Credit Corporation at a price which makes it practical and economical as a cattle and poultry feed. Wheat has about the same nutritive value as corn and as a rule should be fed corn about 1/2 and 1/2 and when fed to livestock should be ground. Wheat is a particularly good feed for breeding animals being high in protein and certain vitamins. Most livestock do better when fed at least a portion of wheat in their grain mixture. We have been trying to combine orders into making up a cooperative carload of about 1800 bushels. This wheat could be bought at about \$1.02 per bushel delivered at Plymouth. Anyone interested in buying some of this wheat should send their orders to the County Office.

### RANCHERS DONATE SCRAP

These iron wagon wheels were part of 34 tons of scrap donated by the Ferretto Brothers to the scrap campaign and shown being loaded into trucks at the Ferretto Ranch on the Carson River, east of Dayton, Nev., for trucking to a collection depot. Note the acetylene tank aboard the truck for cutting up the larger pieces into hunks small enough to drop down Hitler's throat.

### Reclaimed Rubber Tires Now Stocked At Auto Store Here

Eligibility Rules and Other  
Phases Will Be Ex-  
plained at Store

Fitting in with the news from Washington giving the "green light" on tires made from reclaimed rubber, Kelly Economy Auto Supply has just received a stock of such tires with which to service the needs of Washington County in that respect. C. O. "Shorty" Kelly announced today.

Mr. Kelly praised the recent efforts of patriotic Americans in this community who were so active in collecting scrap rubber. He said that this effort and similar efforts throughout the country were what had helped to make this new all-reclaimed tire possible.

"While the fact that these 'war quality' tires have been made available stands as a real tribute to American resourcefulness and recognition of the vital need to keep all of America's cars rolling," Mr. Kelly said, "we must remind ourselves that this does not in any way mean that the rubber crisis is any less severe than before."

"As a matter of fact, it reduces the nation's total amount of rubber on hand and so patriotic drivers, rather than relaxing their vigilance, will be

### Christmas Services at Edenton Catholic Church

Edenton.—The Rev. Father F. J. McCourt, pastor of the Catholic church at Edenton announces that in addition to the usual annual midnight Mass between Christmas Eve and Christmas Day, this year there will be a second Mass Christmas morning at 9 and a third and last at 11 a. m. on Christmas morning. Every Sunday, Mass begins at 11 a. m. The sermon on December 20 will be on "Wisdom and Folly," and on December 25, "The Feast of the Nativity." Everybody is invited to each service.

### Mrs. R. W. Johnston Entertains Bridge Club

Mrs. R. W. Johnston entertained her bridge club Thursday evening.

Mrs. E. G. Arps received the high score and the cut prizes and Mrs. P. M. Arps was runner-up. Mrs. S. A. Ward won at bingo.

Mrs. H. A. Williford and Mrs. E. W. Furguson were additional guests.

more careful than ever to conserve rubber by driving only when necessary, keeping below 35 miles an hour, keeping tires properly inflated, having them inspected regularly, and sharing their cars with others."

The new B. F. Goodrich tires are built in the same molds as pre-war tires made from crude rubber and are very much like them in appearance.

This new tire is called the V-35, to symbolize the part these tires will play in our country's all-out war effort—and to emphasize the necessity of obeying the national speed law of 35 miles per hour.

Mr. Kelly said they will require more care than pre-war tires, with particular attention being given to keep them properly inflated and drive them at speeds that do not exceed 35 miles per hour.

Mr. Kelly pointed out that the B. F. Goodrich Company, "consistent with the position which led it to introduce the Ameripol synthetic rubber tire in June, 1940, to focus attention upon the role that synthetic rubber might some day have to assume," has continued its development work on tires made with synthetic rubber, as well as reclaim. He said the company had made and tested tires made entirely reclaimed rubber in April, 1939, some 18 months before Pearl Harbor.

The services of Kelly's Economy Auto Supply are at the disposal of any motorist. Mr. Kelly said, for all phases of tire inspection required under the wartime OPA regulations, and for information concerning eligibility requirements.

### LAST-MINUTE CHRISTMAS

### Health Officer Here Warns Public Not to Buy Japanese Goods

By S. V. LEWIS, M. D.  
District Health Officer

Warning: For your own safety, do not purchase Japanese merchandise. This is not the first of such requests to be made by your health department. Advice has already been given not to buy shaving brushes and tooth brushes made in Japan. The Japanese have a cute little trick of seeing that tetanus germs are placed in those brushes that will cause lockjaw, which, as you know, is for the most part fatal. Another clever trick they practiced was placing cholera germs in bags of rice and dropping them from planes over China, where food was short, causing numerous epidemics of cholera.

The yellow-skinned rats are not above doing the most repulsive things on earth to win this war.

We still remain human, but we must remember that we are dealing with an enemy that will do anything, not only to win this war, but would kill our civil population as well, by any dirty means they would be able to cook up through the Hirohito regime, now ruling Japan.

Refuse to buy Japanese merchandise of any kind, and by so doing you

will not subject yourself to any dirty inhuman tricks they may try or have tried to sell our people for the purpose of spreading death, sickness, or any other manner of trouble through our nation.

Contrary to the belief of some, I do not believe they are an intelligent race of people. It is true they are hard and efficient fighters, but throughout several generations they have been taught to fight and die for their country and think it is, under all conditions, an honor to die in behalf of their country, regardless of personal safety, principle of conflict, or whatever it may be. It is possible to train a pig to do certain stunts quite well if the training period is as long as the period the Japs have been trained to hate and fight America. Remember, do not buy Japanese merchandise.

#### CARD OF THANKS

We take this method of expressing our sincere appreciation for the acts of kindness, assistance and sympathy extended to us during the illness and at the death of our wife and mother, Mrs. John E. Phelps.—  
J. E. Phelps and family. 30
