**Too Bad, Folks—But This Soldier's Never Coming Home!**

The war won't suffer much—there are millions more men to replace him. But his family will do the suffering! The only consolation they can have is that he sacrificed his life so that there might never be more wars like this... That makes it look as though we at home aren't doing half enough! How about backing up sacrifice with sacrifice: how about buying \$100 extra in War Bonds this month so more soldiers WILL come home. Our government NEEDS your help.

**From where I sit...**

by Joe Marsh

Sam Abernethy always said: "Curiosity may kill a cat—but I'm no cat." Which is Sam's way of saying that when he's curious about something he goes out and gets the facts.

Seems our government feels the same way. After hearing rumors about our soldiers drinking too much—government people went after the facts. They got the evidence on what our boys drink... and don't drink.

The government found out our Army's the best behaved in history. We've half of 'em drink beer—nothing stronger. And the government found that selling 3.2 beer in Army camps is one reason why our Army is so temperate.

From where I sit, there isn't much cause to worry about our men in the Army. Looks like they can take care of themselves—and take care of the Nazis and the Japs, too.
