Not Able to Secure Anyone to Serve as Chairman of Drive

Campaign Was Supposed to Start Tuesday and Continue for Month

Although the Fourth War Loan Campaign got underway throughout the United States last Tuesday, no organized effort has been arranged yet for Washington County, which has been assigned a quota of \$228,000 during the drive. H. E. Beam, chairman of the county war finance committee, has been unable to secure anyone to serve as chairman for the drive, he said this morning, despite the fact that he has approached more than 20 people about the mat-

Mr. Beam is continuing his efforts to perfect an organization, and in the meantime all citizens are urged o do their part during the campaign by buying War Bonds at the places where they are regualry on sale. In his county, they may be purchased hrough the Branch Banking & Trust Company in Plymouth, or at the post offices in Plymouth, Roper and Cres-

It is expected that local people will "rally around" when they learn that the county's excellent record of War Bond purchases is threatened by indifference. The county has fallen lown very few times in raising its monthly quotas since they were first asigned, while total sales of War Bonds since the war started is far ahead of the total quotas.

It is possible that details of the campaign will be worked out in time to be anounced by next week, acording to Mr. Beam. The main object right now is to secure a county chairman to head up the work, as it s believed most of the individual workers who served in past campaigns will be glad to help out again. The county fell about \$50,000 short of its quota of \$252,000 in the third War Loan Drive last fall, but it is believed the smaller quota of \$228,000 can be realized this time if an effective organization can be set up.
