Flue - Cured Yield For Year Seen as 20 Per Cent Dip

Raleigh. - Production of fluecured tobacco in North Carolina from the crop of 1956, forecast on Mr. and Mrs. Onwood Griffin July 1at 783,625,000 pounds, would in 1955. According to the North Mrs. R. E. Bengel and Mrs Vir- Carolina Crop Reporting Service, what below last year' levels. Production of burley tobacco is expect-

acres of flue-cured tobacco for harvest is eleven per cent below the 653,000 acres harvested last year. Flue-cured yield is forecast at 1,-349 pounds, compared with the record high yield of 1,499 pounds harvested last year.

A succession of spring freezes greatly retarded growth of tobacco in plant beds and delayed transplanting to fields. After plants were set to the fields, recurring cool weather and lack of adequate rainfall continued to hamper tobacco growth so that it made little spent Thursday with her parents, Mr. and Mrs. J. R. Davenport at Creswell high temperatures were stunting plant growth.

Size of plants in relation to age was unusually small on July 1 and much of the earliest maturing crop was "buttoning out" before stalks

Rains fell throughout the fluecured area during the past week and the condition of the crop improved over that which existed on July 1. The yield and production the close.

to stand 1.00 to 1.25, and other steers .50 to 1.00. Cows were steady to 50 cents lower. The highest forecast for North Carolina by types, a of July 1, is as follows:

Type 11 (Middle and Old Belt): Type 11 production is estimated at and good and choice steers ranged prime steers ranged from 23.75 to 266,725,000 pounds from 227,000 from 18.00 to 20.75 and utility to 24.75 and good and choice grades acres for an average yield of 1,175 commercial grade steers from brought 21.25 to 22.00. High prime pounds. This is 67,325,000 pounds 12.00 to 19.00. Good heifers also heifers sold for 23.25 and good to pounds. This is 67,325,000 pounds or about 20 per cent less than the 1955 crop. The crop is less advanced in this area than in Types 12 and 13, with much of the crop transplanting and reset during the dry-hot weather the first part of

y, was a visitor here last week. Miss Linda Phelps, of Pleasant Grove visited Miss Carol Davenport during the week-end. Mrs. Ruth Riddick and family

are spending a few days in Norfolk visiting relatives.

SKY-HIGH-Perched atop the most-climbed poles at Schofield Barracks, Hawaii, these are students at the 25th Signal Company's school, which trains soldiers of the 25th Infantry ("Tropic Lightning") Division in a wide variety of communications techniques. Whether by wire, radio, or by TV-their motto is "The message must get through." This summer the School will conduct classes for the National Guard and Reserve organizations during their two-week training encampment.
