Youth Fellowship Meet Held Sunday Evening

The Christian Youth Fellowship of the First Christian Church had a very interesting program on Sunday night. Eugene Brown, who attended the United Christian Youth Movement Camp, told of his experiences at the camp, which was interracial and interdenominational. The camp was attended by Methodists, Baptists, Episcopalians, Presbyterians, Disciples of Christ, and other denominations from eight states. Three races were represented: white, Negro and Japanese. The camp included Bible study, discussion on contemporary problems, worship and recreation. Preceding the program, the business meeting was held with Ralph Gurganus presiding. He appointed committees to prepare for the District CYF meeting, which will be held here on September 2nd. Welcomed three new members: Morgan Williams, George Waters and Daryl Kelly.

The group decided that each member will make a yearly CYF pledge, so that the executive committee can plan a yearly budget. It was also decided that the group would adopt a room which can be used for the CYF exclusively. The meeting was closed with the Friendship Circle.

Real Woods Unharmed by Cigarettes

Now you can enjoy beautiful real wood furniture without worrying about careless abuse, even at parties. A forgotten cigarette can burn to ash and not harm today's newest furniture featuring "beautyguard" genuine hardwood tops developed in Fine Hardwoods Association research. Spilled alcohol, nail polish and remover, fruit juices, perfumes, cosmetics and other common abuses also won't mark or stain these new wood furniture surfaces. Protected by a special new "beautyguard" process, these tops retain all the warmth, depth, richness and individuality of the genuine hardwoods used. There's no longer any need to settle for commercial-looking substitutes. These new hardwood tops give you fine woods in fine finishes for surfaces subjected to hard use, eliminating the glassy, waxy look of most resistant-surfaced materials. The "beautyguard" process supplements the extremely durable, modern finishes already available on wood furniture. With these new wood tops, you can decorate with fine hardwood furniture you're proud to have in your rooms, and still have a care-free, modern home that won't be hurt by careless guests.

Typical of the handsome new furniture designs featuring abuse-resistant hardwood top surfaces is this "Antigua" dining room grouping—richly-grained, toast-finished mahogany, with matching "beautyguard" genuine mahogany tops on the table, buffet and china. Occasional tables, desks and bedroom groupings are also offered with these worry-free wood tops. You'll be glad to know, too, that furniture with these luxurious hardwood tops costs no more, and usually less, than comparable furniture with plastic imitation wood tops. There are styles priced for every budget. Another advantage is that these abuse-resistant real wood tops always exactly match the rest of the piece, and are offered in every finish color and degree of gloss, permitting many custom finish effects. You can identify genuine "beautyguard" furniture only by the "beautyguard" seal used by many leading manufacturers, as this new abuse-resistant furniture looks just like any fine hardwood furniture. This latest scientific "miracle" is a real boon for you homemakers who want a gracious and carefree home. You'll never have to apologize for being practical and choosing "beautyguard"-protected furniture.
