mercial rate, costing ten cents per inch
or one-fourth cent per word.
Subscriptions not continued after ex-
piration of time paid for except on re-
quest.

Friday, May 18, 1917.

Buzz! Buzz! Buzz!
The fly that lives
To fly away
Will live to breed
A million a day
Kill Flies NOW!

Fight the fly.

Nurse your garden carefully.

The Boy Scouts are learning patriotism in their early years. Unite in their wholesome sentiment of "Every Scout Feed a Soldier" and wage a campaign on some of those weeds. Nothing like a little garden of your own, and especially when a food famine is threatening.

Mecklenburg Declaration day next Monday will be a legal holiday. The bank and postoffice have so many legal days that merchants can't keep up, so will be notified by post card by the local bank so they may be financially prepared. Were we a vacationist or fisherman we would long to be a banker.

"After July the 1st whiskey cannot be shipped into dry territory. Get what you need at once before the 'bone dry law' goes into effect," is the warning printed by rubber stamp on a whiskey price list just to hand. That's certainly wholesome advice when you lay the emphasis on the word "NEED." The person who thinks he needs whiskey is in far worse condition than the country's foremost health authorities have discovered.

Plenty of Seeds.

The News is in possession of a list of persons and firms in this state having farm and garden seeds for sale. If these supplies run short in this county and farmers and gardeners need seeds they may feel free to consult this list, which would be published except for the fact that it is quite lengthy. The News believes that for the greater part sufficient seeds may be had within the county.

Make the County Flyless.

The News last week presented quite a striking cartoon in connection with the opening gun of the Brevard Betterment association in its death-dealing crusade against the dangerous house fly and gives other material in this issue.

This organization has the co-operation of the News and local health authorities and should have the fullest co-operation of the people throughout town and county. Proper precaution and regular swatting will make practically a flyless town—a most enviable reputation to which a few towns have made just claim.

3,000 Germans Near Us?

Many people have many views on many subjects and situations confronting them and the same holds good with reference to the probable location of the government camp of approximately 3,000 Germans near Brevard. The authorities visited New England, then New York, then North Carolina, and when they visited Asheville a protest was

made against the location of the Germans in that section. The Citizens opposed the camp and the Times pleaded for it.

Hendersonville was unanimous for the camp at Kanuga except for the boarding houses and hotels, the keepers of which thought the camp would injure the tourist business. When Hendersonville lost, business and professional men of Brevard met within short notice and the 22 men present wanted the camp located in Pisgah National Forest, though there is some opposition in Brevard as elsewhere. Meanwhile Waynesville became active and wanted to locate the camp at a hotel on the town's border.

The camp is to be an experiment on the part of the government and while various sections of the country are bidding for it, opposition rises in these same quarters.

The attitude of Brevard and community would have little bearing on the matter since the government owns the property on which it proposes to locate the camp only a few miles from Brevard.

The government proposes to employ these men while they are interned pending the war and since they will doubtless be located on this side of the government area it is highly probable that they will be employed in opening the road from Brevard to Mt. Pisgah, which would result in developments of incalculable value to this community.

The project is looked upon in both business and patriotic lights. The government has the Germans on its hands and proposes to make a model camp and show its utmost care and consideration for them and if the experiment proves successful it will be a great advertisement not only for this section but for our government.

As to the business end, the camp will doubtless help in some particulars since the men are all on a salary paid by their government. This will naturally mean the release of money in this section by the men and by the government. The camp should not materially affect the tourist business unless the men become a menace to this country, in which case Uncle Sam would doubtless exercise his authority to the fullest extent for our protection.

Whether a blessing or a curse, the government is under obligations to take good care of these men and some section must reap the results for good or bad, but the News believes that this community will be free from any unreasonable amount of evil effects in the event the camp is located here, and this has been practically decided.

CEDAR MT. BREEZES.

(Intended for last week.)

Seldon Jones and Hobert Bishop went to Brevard on business last Saturday.

E. A. Heath went to River Falls, Saturday.

Norman Pearce of Greenville was in our community Saturday and Sunday looking over the work being done on his house.

Wilkins Cagle has returned to Cedar Mountain after a few days stay in Greenville.

Jackie Heath was in Brevard last Tuesday on business.

Mr. and Mrs. Bunyan Robinson of River Falls visited their parents in Cedar Mountain Saturday and Sunday.

Weldon Lee and Asa Hooper went to Brevard last Monday after a load of guano.

Everybody is busy getting their crops planted, and working to see if they can reduce the price of food stuff this fall.

Mr and Mrs Ed Batson and family were the week-end visitors of their parents Mr. H. Garren last week.

Paul Jones of Cusars Head spent Sunday in our community.

The Cedar Mountain choir sang last Sunday evening for the convicts. All seemed to enjoy it and there are hopes that some one was touched by the music and that much good may come from the little act of kindness.

Messrs Judge and Brack Bishop, who live in Greenville, came to visit their only living uncle, Pink Bishop, who for the past two weeks has been quite ill.

D. Carl Drake was the guest of George Bishop last week.

WARTIME WISDOM

Plant a Million More Gardens For Food This Year.

WHAT TO DO IN EACH MONTH

Utilize Vacant Lots For Vegetables and Increase the Nation's Food Supply When That Supply Is Most Needed. Also Help to Keep Prices Down.

[Prepared in Washington by the experts of the National Emergency Food Garden Commission, which is affiliated with the conservation department of the American Forestry association.]

WHAT TO DO IN MAY.

Care for lettuce plants in hotbed. Care for sweet potato plants in plant frame. Sow seeds of brussels sprouts in plant frame. Plant beans, pumpkins and corn. Keep soil between rows mellow. Spray for insect enemies. Harvest and replant crops promptly.

WHAT TO DO IN JUNE.

Transplant sweet potato plants from plant frame to garden. Sow tomato, cabbage and collard seeds in plant frame for fall crop. (Sow tomatoes in early June. Sow cabbage and collards in late June.) Sow seeds of hardy perennials in hotbeds. Shade plants with screens made of slats. Transplant in seed bed hardy perennial flower plants and place plants six to twelve inches apart both ways. Plant beans, corn. Prune spring flowering shrubs and vines after flowers have fallen. Plant dahlia roots. Keep soil between rows mellow. Spray for insect enemies and plant diseases. Harvest and replant crops promptly.

WHAT TO DO IN JULY.

Transplant plants of brussels sprouts from plant frame to garden. Plant Irish potatoes, beans, corn, carrots and rutabaga. Keep soil between rows mellow. Spray for insect enemies and plant diseases. Arrange for a canning demonstration. Harvest and replant crops promptly.

WHAT TO DO IN AUGUST.

Transplant tomato, collard, cabbage and celery plants from plant frame to garden. Sow seeds of lettuce and endive in plant frame. Plant beans, beets, parsley, kohlrabi, carrots, turnips and garden peas (smooth variety). Spray for insect enemies and plant diseases. Keep soil between rows mellow. Harvest and replant crops promptly.

WHAT TO DO IN SEPTEMBER.

Transplant lettuce and endive plants in plant frame to garden. Sow seeds of lettuce, endive and cabbage in plant frame. Root cuttings of roses. Plant spinach, kale, mustard, winter radish, carrots, onion sets and crimson clover. Spray for insect enemies and plant diseases.

PLANTING SPINACH.

A Favorite Crop Grown For Greens, and All Gardeners Should Plant It.

Spinach is perhaps the most favorite crop grown for greens, and every home gardener should plant it. Around Norfolk, Va., and to the south of it large areas are cut at any time through the winter when the fields are not frozen or covered with snow. North of the latitude of Norfolk spinach can be planted in the autumn and carried over the winter by mulching with straw or leaves. The seed should be sown in drills one foot apart at the rate of one ounce to 100 feet of row, or ten to twelve pounds per acre. A rich loam is required for success. There is perhaps no other garden crop which gives as much satisfaction as spinach. Ordinarily it occupies the land during the autumn and winter and does not interfere therefore with the production of summer vegetables. Three or four ounces of seed planted in the autumn after the summer crop has been harvested will produce an abundance of greens for the average family during the late autumn and early spring. In gathering spinach the entire plant is removed instead of merely cutting off the leaves. By selecting the larger plants first the smaller or later ones are given room to develop. This method does away with the necessity of thinning.

THINK OF IT!

Flies and dirt double the amount of sickness among New York city's babies. This statement, made public by the department of social welfare of the New York Association For Improving the Condition of the Poor, is based on a two years' investigation in more than a thousand families.
Don't let that fly get away!
Kill him now!

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop Using Dangerous Drug Before It Salivates You! It's Horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels. Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money. Take calomel today and tomorrow you will feel weak and sick [and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.—Advertisement.

BOND SALE

The County Board of Education desires bids on \$1,600—20 years, six per cent bonds on Penrose high school district, bonds to be sold in June, bids to be filed with F. E. Shuford, chairman of County Board of Education.
